RE: Workers’ Compensation Pharmacy Benefits

The New York State Insurance Fund (NYSIF) has entered into an agreement with CVS Caremark to administer its pharmacy benefits program and make available medications you may be prescribed for your work-related injury or illness. NYSIF is providing you this notice and information in accordance with NY 12-CRR-440.4. Please read this notice carefully as it provides important information on getting prescribed medication for your workers’ compensation claim.

Please take the enclosed card to a participating CareComp pharmacy to obtain prescription or refill medications associated with your work-related injury or illness. By using a participating pharmacy, you will not have to pay any out-of-pocket expenses for those prescription medications. There are more than 67,000 participating pharmacies within the CareComp network. Some of the pharmacies closest to your mailing address are listed below. These pharmacies are located within 15 miles of your home or work, if you live in a rural area, or within 5 miles if you do not live in a rural area.

Or, you can find one quickly by visiting www.wcrxpharmacylocator.com, or call the 24-hour patient care hotline at **1.866.493.1640**. If you want a written pharmacy list, one can be provided to you. Please note, **NYSIF will not pay for any prescription or portion thereof filled outside of the CareComp pharmacy network.**

You have one other convenient option available to you: You may also use the CVS Caremark Mail Service Pharmacy to fill long-term prescriptions. With mail service, your prescriptions are mailed directly to your home within approximately two weeks. Again, there will be no cost to you for these prescription medications associated with your work-related injury.

If your medication has been prescribed for your workers' compensation claim, you must obtain that medication from one of the network pharmacies listed above or found on the pharmacy locator website unless:

- You have a medical emergency and it is not reasonably possible to obtain the medications you need for that emergency from a network pharmacy; or
- Ordering by mail or telephone is not an option in the network, and no pharmacy in the network will deliver to you; or
- None of these network pharmacies are within 15 miles if you live in a rural area, or 5 miles if you do not live in a rural location.

If you believe this is the case for you, please call NYSIF at **1.888.875.5790**.

Sincerely,
 NYSIF

Frequently Asked Questions about Your Workers' Compensation Prescription Program

What is CVS Caremark?

CVS Caremark is a pharmacy benefit manager with a specialty in processing and providing workers' compensation claim prescriptions. This program enables you to fill your work-related injury or illness prescription(s) at a participating network pharmacy at no cost to you.

When can I begin to use my prescription card?

Your prescription card is available for immediate use at any participating CVS Caremark retail pharmacy. Present your Workers' Compensation Prescription Card, which indicates your claim information on the front, to the pharmacist when you need to fill a prescription for a work-related injury or illness.

How do I find a participating pharmacy?

The CareComp Network administered by CVS Caremark includes more than 67,000 pharmacies. To find the participating network pharmacy nearest to you, please visit www.wcrxpharmacylocator.com or call the 24-hour patient care hotline at **1.866.493.1640**. You may also find further information at www.wcb.ny.gov. For information about your workers' compensation coverage, you may visit nysif.com/networkbenefits.
