Introduction

Background

This is the Department of Civil Service’s thirteenth annual report, “New York State Government Employees’ Workers’ Compensation Claims.” The report includes workers’ compensation experience from five fiscal years (2015-16 through 2019-20).

Section 7 of the Civil Service Law was amended in *Chapter 171* of the Laws of 2007 (Appendix A of this report) to require that the President of the Civil Service Commission prepare an annual report describing occupational injuries, illnesses, and workers’ compensation claims in Executive Branch state agencies. The report is required to be published by September 30th each year and includes workers’ compensation data based on the last completed fiscal year. In subsequent years, the report shall include comparative data for up to five fiscal years.

The report format follows the sections specified in *Chapter 171* of the Laws of 2007, with the exception of Table 3A which consolidates subdivisions (6d) and (6e) of the legislation. Further, Table 3B is a new table (not required by the statute), which displays five years of total compensation and medical payments made during the applicable fiscal year for all incidents occurring on or before the end of the fiscal year.

The Department of Civil Service’s Employee Benefits Division is responsible for overseeing the workers’ compensation policy between New York State and the New York State Insurance Fund (NYSIF). Part of this responsibility includes the reporting and monitoring of work-related incidents through the Accident Reporting System (ARS) and workers’ compensation claims experience provided by NYSIF. Workers’ compensation data for this report was obtained from both the ARS and NYSIF since neither source alone contains all the statutorily- required data elements.

Incidents were reported up to June 30th of the reporting year, with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. There were 361 COVID-19-related incidents, which are captured in this report and are seen as Injury Type “Covid-19 Coronavirus” in Table 4A, as Incident Cause “Pandemic” in Table 4B and as an increase to reported Lung-related injuries in Table 4C.

It should be noted that there are differences in the number of work-related incidents contained in the respective data reported from the ARS and NYSIF. There are incidents that are submitted to ARS, but a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Conversely, there may be claims for which a report was not made in ARS. Employee population data is obtained from the Department of Civil Service New York State Electronic Personnel System (NYSTEP).

Although this report presents only summarized data, New York State agency Human Workers’ Compensation Annual Report

Resources and Health and Safety staff are encouraged to use the reporting capabilities of the ARS. The ARS allows for much greater detail of the information presented in this report, as well as many other workers' compensation incident details.

Explanatory Notes

The report *includes* selected Executive branch agencies' Classified Service employees, consistent with subdivision three of section two-a of the State Finance Law. Specifically, employees represented by the following public employee unions are included: CSEA; PEF; NYSCOPBA; Council 82; PBANYS as well as Management/Confidential. The report *excludes* the Judicial and Legislative branches, as well as the Unclassified Service and Authorities (e.g., Financial Control Board, SUNY College of Ceramics, Lake George Park Commission), as the Department of Civil Service does not maintain employee data on these groups. There were no agency closures, mergers or new agencies created during the reporting period. Please note that incident counts in Tables 1, 6, and 7 for years 2014-15 through 2017-18 differ from Annual Reports published prior to 2019. This is due to a programming error that was identified which excluded approximately 1,700 claims per year.

Information in this report is based on New York State workers' compensation claims filed by employees. Although the reporting period is for the Fiscal Years (FY) ending March 31, claims for fiscal years were reviewed through June 30th of the respective reporting years to allow for late reporting, and for data to be captured for workers' compensation determinations made after the end of the fiscal year.

Incident data included in this report are for work-related incidents (either injuries or occupational illnesses) that were reported to the Workers' Compensation Board and the NYSIF as required by the New York State Workers' Compensation Law. The Law requires reporting of all incidents that result in either: one or more lost work days beyond the date of the incident; or, medical treatment beyond first aid or two or more first aid treatments. There are many incidents that do not reach the level of the reporting criteria under the Workers' Compensation Law.

As historically reported, this report includes certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days' post-incident (based on the date the injury occurred within the fiscal year). For example, an accident that occurs on April 1 could have up to 365 days of compensation, whereas an accident that occurs on March 31 could have only one day of compensation reported. **Please note that the report now includes Table 3B, which reports total compensation and medical payments made during the reported fiscal year, for all incidents occurring on or before the end of the fiscal year (i.e., payments for all open claims).**

Summary of Findings

Highlights are presented below for NYS Executive Branch agency workers' compensation incidents for classified employees incurred in FY 2015-16 through FY 2019-20.

- There were 14,566 work-related claims in FY 2019-20 compared to 14,144 work-related claims in FY 2018-19; 14,834 work-related claims in FY 2017-18; 14,973 work-related claims in FY 2016-17, and 15,628 work-related claims in FY 2015-16. The overall workers' compensation incident rate increased slightly from 10.0% to 10.2% (Table 1, page 8). The main source of year-to-year growth is COVID-19 related; see Tables 4A and 4B for incident counts.
- There were 4,543 lost-time incidents in FY 2019-20, up slightly from 4,328 in FY 2018-19. Approximately 31.2% of workers' compensation incidents in FY 2019-20 resulted in lost time (down from 33.7% in FY 2018-2019) (Table 2A, page 18).
- The lost-time incident rate for FY 2019-20 saw a slight increase to 3.2% from 3.1% in 2018-19. In FY 2019-20, 287,465 work days were lost compared to 266,239 lost work days in FY 2018-19 (Table 2B, page 27).
- *Total first year compensation costs and total medical costs increased* from FY 2018-19 to FY 2019-20. Total compensation costs increased by 5.5% from \$30,369,914 to \$32,053,151. Total medical costs increased by 13.6% from \$24,778,707 to \$28,145,378 (Table 3A, page 36).
- In contrast to the previous annual report, *Total compensation costs* for all open claims decreased from \$374,647,369 in FY 2018-19 to \$358,050,444 in FY 2019-20. *Total medical costs* for all open claims also decreased from \$83,381,671 in FY 2018-19 to \$82,374,035 in FY 2019-20 (Table 3B, page 46). A contributing factor to the reduction in total compensation costs is NYSIF's efforts over recent years to bring claims to closure through negotiated settlements. NYSIF entered into settlements in 609 NYS employee claims in FY 2017-18, 1,074 in FY 2018-19, and 1,455 in FY 2019-20.
- *Soreness, Pain, Hurt Excluding the Back* continues to be the category of incidents with the highest incident rate at 38.5% for FY 2019-20, up from 34.2% in FY 2018-19. *Sprains, Strains, Tears* again ranked second with an incident rate of 17.3% for FY 2019-20, down from 19.8% in FY 2018-19 (Table 4A, page 56).
- For the fifth consecutive year, the two leading incident causes in FY 2019-20 were once again: *Bodily Reaction and Exertion* (which increased by 9.0% from 1,821 to 1,984), and *Patient Restraint* (which increased by 18.1% from 1,262 to 1,491) (Table 4B, page 59).

- The following were once again the reported top three body parts injured in all five fiscal years: *Knee(s)* (13.6% incident rate); *Shoulder, Including Clavicle, Scapula* (12.9% incident rate); and *Back, Including Spine, Spinal Cord* (4.9% incident rate) (Table 4C, page 62).
- The three job titles with the highest number of work-related incidents for the third consecutive year were: *Correction Officer*, *Direct Support Assistant*, and *Mental Health Therapy Aide*. *Security Hospital Treatment Assistant* had the highest incident rate of 135.7% in FY 2019-20, as work-related incidents for this title increased from 501 in FY 2018-19 to 737 in FY 2019-20. *Youth Division Aide 4* had the second highest incident rate of 112.8% in FY 2019-20, which is an increase from 100.9% in FY 2018-19. The job titles with the most significant increase in FY 2019-20 were: *Security Hospital Treatment Assistant* (incident rate of 135.7%, up from 72.6% in FY 2018-19), and *Security Hospital Senior Treatment Assistant* (incident rate of 98.9%, up from 40.4% in FY 2018-19) (Table 5, page 66).
- The two facilities with 500 or more employees with the highest incident rates in FY 2019-20 were the *Bedford Hills Correctional Facility* (incident rate of 50.3%, up from 38.8% in FY 2018-19) and the *Mid-Hudson Psychiatric Center* (incident rate of 47.6%, up from 40.6% in FY 2018-19) (Table 6, page 70).
- In FY 2019-20, *Security Services Unit Non-Arbitration* had the highest incident rate (44.9%), and *All Other Units and Unrepresented Group* had the lowest incident rate (1.6%) (Table 7, page 73). The *Security Services Unit* had the second highest incident rate of 25.1%, up slightly from its rate in FY 2018-19 (23.5%).

**Table 1: Workers' Compensation Incident Details
Selected New York State Agencies:
Fiscal Years 2015-16 through 2019-20**

Table 1 lists the selected Executive Branch New York State agencies' workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivision (6a). The information in Table 1 was provided by the NYSIF. The FY 2019-20 claims experience includes accidents occurring between April 1, 2019, and March 31, 2020, and reported through June 30, 2020. As indicated in the Explanatory Notes, incident counts in Tables 1, 6, and 7 for years 2014-15 through 2017-18 differ from Annual Reports issued prior to 2019. This difference is due to a programming error (corrected in 2019) which excluded approximately 1,700 claims per year.

Agencies reported a total of 14,566 workers' compensation incidents and an incident rate of 10.2% in FY 2019-20, compared to 14,144 incidents and an incident rate of 10.0% in FY 2018-19. Previous years reported: 14,834 incidents and an incident rate of 10.5% in FY 2017-18; 14,973 incidents and an incident rate of 10.5% in FY 2016-17; and 15,628 incidents and an incident rate of 11.0% in FY 2015-16.

The overall incident rate increased in the large agencies (3,000 employees or more), except for the SUNY Upstate Medical Center and the Department of Taxation and Finance, which saw a total rate decrease of 1.3 and 0.1 percentage points, respectively, from FY 2018-19 to FY 2019-20. Rates of increase ranged from under one percentage point to over three percentage points in the Department of Environmental Conservation and the State University at Stony Brook, with the largest increase occurring in the Office of Children and Family Services (from 17.6% in FY 2018-2019 to 21.0% in FY 2019-20). The Department of Health (Main Office) and the Office of Information Technology Services incident rates remained flat for FY 2019-20.

⁴ Lost Time Incidents include accidents with six or more work days lost and incidents also listed under the “Incidents” column (Table 1). The data do not include information on lost time of five work days or less, which is the workers’ compensation waiting period. The data does not include incidents identified in 2019 in Tables 1, 6 and 7 as the data was cumulative and not for the year in which the incident occurred.

⁵ Lost Time Case Rate calculated by dividing the number of Lost Time Incidents by the number of Incidents (Table 1). As noted above, the Lost Time Incident count may be understated as some portion of the 1,700 incidents identified in 2019 may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

* Agency did not report data or did not exist during the applicable fiscal year.

⁶ Lost Time Rate calculated by dividing the number of Lost Time Incidents by the number of Full Time Equivalents. As noted in Table 2A, the Lost Time Incident count may be understated as some portion of the 1,700 incidents identified in 2019 may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

**Table 3A and 3B: Workers' Compensation Costs by
Selected New York State Agencies:
Fiscal Years 2015-16 through 2019-20**

Table 3A lists the selected Executive Branch New York State agencies and contains the workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivisions (6d) and (6e). The claims experience in Table 3A was provided by the NYSIF. The FY 2019-20 claims experience includes incidents occurring between April 1, 2019, and March 31, 2020, and paid through June 30, 2020. The FY 2015-16, FY 2016-17, FY 2017-18, and FY 2018-19 claims experience is the same data reported in last year's report.

The compensation costs included in Table 3A only represents certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days post-incident (based on the date the injury occurred within the year). For example, an accident that occurs on April 1 could have to up 365 days of compensation whereas an accident that occurs on March 31 could have only one day of compensation reported.

Under New York State Workers' Compensation Law, employees who are disabled due to a workers' compensation incident are entitled to a wage replacement for lost salary and medical benefits related to the incident. The wage component is equal to two-thirds of the employee's average weekly wage, not to exceed a maximum established under the Workers' Compensation Law. The statutory maximum for the past five years is as follows:

| | |
|----------------------------------|-----------------|
| July 2015 – June 30, 2016 | \$844.29 |
| July 2016 – June 30, 2017 | \$864.32 |
| July 2017 – June 30, 2018 | \$870.61 |
| July 2018 – June 30, 2019 | \$904.74 |
| July 2019 – June 30, 2020 | \$934.11 |

The data in Table 3A does not include supplemental wage replacement payment benefits as these amounts are paid by individual agencies and are not reflected in data maintained by the NYSIF. Under the medical component, all medical treatments – including doctor treatments, hospital or clinic charges, imaging services and diagnostic testing, prescription medication, and other related medical services – are paid in full based on a fee schedule established by the Chair of the Workers' Compensation Board, as directed by the Workers' Compensation Law.

All wage replacements and medical treatments are initially reviewed by the NYSIF. If there is a dispute between the NYSIF and the employee regarding such wage replacement or medical treatment, the Workers' Compensation Board will conduct a final review. Both the compensation costs and the medical costs are paid by the NYSIF under the provisions of the workers' compensation insurance policy between New York State and the NYSIF.

Total first year *compensation costs* increased in FY 2019-20 from \$30,369,914 to \$32,053,151, an increase of 5.5%. Total *medical costs* increased in FY 2019-20 by 13.6%;

from \$24,778,707 to \$28,145,378. The increase in medical costs may be partially explained by a change The Workers' Compensation Board made to update the Fee Schedule, effective April 1, 2019. The increases were targeted primarily to Evaluation & Management CPT codes and likely contributed to the year over year increase. Additionally, the year over year increase may also be attributable to the data in 2015-16 through 2018-19 likely understating a portion of the 1,700 incidents that were identified and corrected in 2019 which may have medical costs that are not reflected in Table 3A.

The most notable decrease in both first-year *compensation* and *medical costs* occurred at the State University of New York (*compensation costs* decreased by 23.1% or \$590,474 and *medical costs* decreased by 14.5% or \$292,117). The Office of Parks and Recreation also saw declines in first year costs (*compensation costs* decreased by 24.8% and *medical costs* decreased by 3.2%). The most notable increase in both first-year *compensation* and *medical costs* occurred at the Department of Education, with *compensation costs* increasing by 568.9% or \$90,781 and *medical costs* increasing by 138.0% or \$46,494. As noted above, these large increases (but rather small dollar increases) are driven by an overall increase in work-related incidents and work days that can be seen in the Department in Tables 1, 2A and 2B. Other notable changes occurred at the Office for People With Developmental Disabilities (*compensation costs* increased by 17.9% and *medical costs* increased by 16.9%) and the Office of Mental Health (*compensation costs* increased by 13.0% and *medical costs* increased by 26.2%).

Table 3B was a new table introduced in 2019, which reports total compensation and medical costs for all workers' compensation payments made during the reported fiscal year for all incidents occurring on or before the end of the fiscal year (i.e., all open claims). Table 3B includes all bi-weekly temporary and permanent disability indemnity payments, Schedule Loss of Use (SLU) awards and Section 32 settlements in the *Total Compensation Costs* column and also displays *Total Medical Costs*. This table shows that *Total Compensation Costs* for all open claims decreased by 4.4%, from \$374,647,369 in FY 2018-19 to \$358,050,444 in FY 2019-20, while *Total Medical Costs* for all open claims decreased 1.2%, from \$83,381,671 in FY 2018-19 to \$82,374,035 in FY 2019-20.

The most notable increase in total compensation costs from FY 2015-16 to FY 2019-20, occurred at the Department of Corrections and Community Supervision, with an overall increase in compensation costs of 34.7%, or \$41,987,964. Medical costs also increased by 8.0%, or \$2,264,704. Overall compensation costs and medical costs also increased in the Office of Mental Health, with total compensation costs increasing by 29.4%, or \$14,303,683, and medical costs increasing by 21.0%, or \$2,756,238. The Department of Transportation also saw an overall increase in total compensation costs of 17.7%, or \$2,319,158, but saw a only a slight increase in total medical costs over the 5-year period of 0.3%, or \$13,806.

Negative amounts in this table reflect scenarios where credits received through Workers' Compensation Law Section 15.8 or subrogation exceeded payment made, resulting in lower overall payments.

Tables 4A, 4B, 4C: Most Frequent Types of Injuries, Incident Causes, and Body Parts Injured: Fiscal Years 2015-16 through 2019-20

In the next series of tables, details are provided on the most frequent types of injuries (Table 4A), incident causes (Table 4B), and body parts injured (Table 4C) as specified in *Chapter 171* of the Laws of 2007, subdivision (6f). The data in all three tables was derived from all incidents that resulted in a workers' compensation claim during FY 2015-16 through FY 2019-20.

The source of the data for most of the agencies is the Accident Reporting System (ARS). Incidents were reported up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). As noted in the Introduction, COVID-19 related incidents are shown in these tables as Injury Type "Covid-19 Coronavirus" in Table 4A, as Incident Cause "Pandemic" in Table 4B and can be seen in the increase in Lung-related injuries in Table 4C.

For the agencies using ARS, the *Occupational Injury and Illness Classification Manual* issued by the U.S. Department of Labor Bureau of Labor Statistics was used to capture the details on the types of injuries, incident causes, and body parts injured. This manual is the standard classification system used to classify occupational injuries and illnesses. Coding occupational injuries/illnesses is dependent upon the description provided by the individual reporting the incident, the classification system being used, and the codes selected by the individual entering the information. Certain categories may be viewed as similar, but they were reported separately in order to retain the integrity of the original reporting entity; for example, in Table 4B (page 57) *Falls; Fall to Floor, Walkway or Other Surface; Fall Down Stairs or Steps; and Fall on Same Level* were reported as separate categories.

Table 4A, the Most Frequent Types of Injuries, include injury types in which the inclusion criteria accounted for almost 98% of all incidents. Like the prior years, five injury type categories accounted for approximately three-fourths of all incidents in FY 2019-20: *Soreness, Pain, Hurt, Excluding the Back* (38.5%); *Sprains, Strains, Tears* (17.3%); *Bruises, Contusions* (7.3%); *Back Pain, Hurt Back* (7.2%); and *Cuts, Abrasions, Bruises* (4.1%).

The Most Frequent Incident Causes are detailed in Table 4B. The five most frequent incident causes for FY 2019-20 were *Bodily Reaction & Exertion* (11.3%); *Patient Restraint* (8.5%); *Contact with Objects and Equipment* (5.5%); *Bodily Reaction* (5.0%); and *Assault by Patient* (5.0%). The greatest increases occurred in the following categories: *Contact with Objects and Equipment* (increase of 2.2 percentage points) and *Pandemic* (increase of 1.8 percentage points). The greatest decreases occurred in the following categories: *Fall to Floor, Walkway, or Other Surface* (decrease of 2.2 percentage points) and *Overexertion in Lifting*

(decrease of 1.7 percentage points).

The Body Parts Most Frequently Injured are listed in Table 4C and account for approximately 99% of all incidents. In five consecutive years, three body parts represented approximately one-third of the body parts injured: *Knee(s)* (13.6%); *Shoulder, Including Clavicle, Scapula* (12.9%); and *Back, Including Spine, Spinal Cord* (4.9%). A decrease occurred in the *Back, Including Spine, Spinal Cord* category (decrease of 0.8 percentage points), and in the *Elbow(s)* and in the *Neck, Except Internal Location of Disease* categories; both with a decrease of 0.4 percentage points. An increase occurred in the *Lung(s), Pleura* category (increase of 1.8 percentage points, related to COVID-19 related incidents), and in the *Back, Including Spine, Spinal Cord, Unspecified* category (increase of 0.6 percentage points).

¹¹ Incidents reported in the Accident Reporting System (ARS) up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Work-Related Incidents includes incident data from five agencies that participated in a pilot program from April 1, 2018 until January 17, 2019.

Recommendations

The following recommendations regarding the prevention of injury and illnesses and the reduction of costs due to these cases were prepared in consultation with the Workers' Compensation Board (WCB) and the New York State Insurance Fund (NYSIF).

Accidents at work and occupational injuries represent a considerable economic burden for New York State employees and the State of New York. The NYSIF recommends a three-pronged approach for each New York State entity's Workers' Compensation Program. This includes Safety Management, Return to Work, and Fraud Prevention programs. Management commitment is essential for the implementation and on-going success of an agency's Workers' Compensation Program. Persons with the authority and responsibility for the safety management program must be identified and given management's full support.

- **Safety Management Program** – A Safety Management Program includes a comprehensive Injury and Illness Prevention Program along with defined Agency Safety Coordination to ensure accountability and implementation of the program. An effective Injury and Illness Prevention Program includes the following four elements: management commitment and employee involvement; worksite analysis; hazard prevention and control; and Injury and Illness prevention training. The NYSIF is available to agencies to provide advice and consultation on the implementation of a Safety Management Program including access to loss control resources, materials, education, etc. Visit the [Employer tab](#) at nysif.com and choose [Injury and Illness Prevention](#) for more information about workplace safety programs, and access to NYSIF's free Safety Resources.
- **Return to Work Program** – An active Return to Work Program is a key component in reducing cost by providing opportunities for injured workers to be productive while they recover from their injuries. The New York State Return to Work or Alternate Duty programs are governed by the collective bargaining agreements. The NYSIF and the Governor's Office of Employee Relations are a resource to the agencies to understand the terms and conditions of this program for the different negotiating units and how they relate to New York State's statutory obligation as an employer under the Workers' Compensation Law. The NYSIF is available to agencies to provide advice and consultation including access to resources, materials, education, etc. Agency Safety Coordination is essential to ensuring accountability and implementation of the agency's Return to Work Program. Agencies should continue to communicate with the injured worker to offer assistance and encouragement. Our mutual goal is a favorable medical outcome and a successful return to work.
- **Fraud Prevention Program** – Workers' Compensation Insurance fraud imposes a significant financial burden. An effective Fraud Prevention Program involves education and training, fraud and abuse detection, documentation, and reporting. The NYSIF is committed to training staff and investigating agency referrals of fraud and abuse.

The following are also recommended in an effort to prevent employees' Injuries and Illnesses:

- **System Improvements** – The Board continues to work on several system improvements as part of the ongoing WCB's Business Process Redesign project to improve stakeholder experience with the Board resulting in more timely, convenient and efficient resolutions. As noted in last year's report, the Board fully implemented Virtual Hearings (VH) in early 2019. This award-winning initiative allows all parties in a workers' compensation hearing to participate remotely using a computer or mobile device. This has allowed the Board to continue holding hearings throughout the COVID-19 pandemic, without interruption. During 2019-20, the Board also completed IT enhancements to allow authorized NYS agency human resource staff with automatic access to eCase, which is a repository for workers' compensation records, decisions and correspondence. Virtual eCase training is currently underway. Finally, in late 2019, the Board commenced a multi-year project to modernize the Business Information System used by all stakeholders. When fully implemented, the new system will vastly improve the Board's efficiency and data capture capabilities. The data from these new system improvements should be closely reviewed to identify trends and the need for further system enhancements.
- **Increase Awareness, Resources and Training** – It is well-established that the sooner an accident is reported and the sooner the injured worker obtains needed medical and temporary disability benefits, the better the outcome for all involved. New York State should ensure that workers' compensation awareness is a top priority in every State agency so that accidents are timely reported and injured workers receive timely care so that they may return to work as soon as possible. Staff at each agency should regularly receive training on workers' compensation policies so employees, managers, human resource officers, and payroll officers have a clear understanding of the resources available (including WCB's eCase), as well as the process and the requirements to receive the statutory and negotiated benefits, including supplemental pay, limited return to work, and dispute resolution programs. Each agency should set attainable goals on injury prevention and clearly define who and when to interact with injured employees and the NYSIF, as well as who is responsible for timely reporting of the First Report of Injury (FROI), changes in work status (Form C-11), wages paid while on workers' compensation leave (Form C-256.2), and PAYSERV transactions, in compliance with the Office of State Comptroller Payroll Bulletin 1366.
- **Data Sharing** – The eClaims initiative implemented in mid-2014 as well as recent improvements to the Board's data warehouse allow the possibility of flexible reporting of accident causes and locations, types of injuries, and temporary and permanent disability awards, by NYS agency/facility. The Department of Civil Service, WCB, and NYSIF should explore how to most effectively share this data, as well as NYSIF claims data, with agencies to enable them to analyze the data, formulate corrective action plans, and enhance return to work programs.
