

Mental Health and Substance Abuse Program RFP Exhibit V.A Instructions

Exhibit V.A is a list of CPT, HCPCS and Revenue codes relating to a market basket of 2011 MHSA claims for Empire Plan members. The Offeror is directed to quote an allowable amount for each code presented on Exhibit V.A. The quoted amount should be on a unit basis. For example, if the code is an inpatient service, the quote should represent an allowed amount per day. If the code is an outpatient or office service, the quote should represent the allowed amount per service. If the code is for ambulance mileage, the quote should reflect the allowed amount per mile.

The amounts quoted shall represent a weighted average allowable amount for each code as of January 1, 2014. If selected, the Offeror must prove that the actual weighted allowable amounts (actual allowed amounts by provider times the expected utilization) are less than or equal to the quoted amounts in Exhibit V.A.

The 2011 MHSA Claim Detail file is available for informational purposes. Offerors may utilize the detail claim file to gain insight of the current distribution of claims by provider and service to develop its quoted average allowable amounts, if it so chooses. See Exhibit III.A for instructions on how to obtain this file.

The development of the Offeror's average network allowance quotes and completion of Exhibit V.A is solely the Offeror's responsibility. The Department makes no guarantees that either the services mix or utilization contained in the 2011 MHSA Claim Detail File is representative of future MHSA utilization.
