Enclosed is our most recently revised edition of the New York State Title and Salary Plan. Schedule A of this Plan lists all titles allocated to a salary grade and used for permanent positions in the competitive, non-competitive and labor jurisdictional classes. Schedule D lists titles used for all other positions.

As previously, it is very important that this Plan be available to personnel and payroll staff who are involved in the preparation or review of classification and personnel transactions forms. Please be sure that this Plan is available to those employees.

If you need more copies of this Plan, let us know and we will send additional copies while our supply lasts.
