

**The Empire  
Plan**

# Participating Provider Directory 2019

## Hudson Valley

This directory lists network facilities and participating providers at specific locations as of March 2019. Information may have changed since this directory was published.

To avoid unexpected out-of-pocket costs, before receiving services please ask whether the facility and/or provider is currently participating at the location where you will receive them.

This directory lists Empire Plan network hospitals and facilities, participating providers, Managed Physical Network providers and Mental Health and Substance Abuse Program\* network providers and facilities. Read your Empire Plan documents carefully for complete information on your Empire Plan benefits and responsibilities. You may need to submit claim forms and pay a higher share of the cost if you use a non-participating provider or non-network facility. Directories for New York State list additional languages spoken by providers or staff as well as the names of hospitals with which they are affiliated. See page ii for details.

**Note to Participating Agency (local government) enrollees covered under the Excelsior Plan:** You must use an MPN provider to receive Empire Plan benefits for chiropractic care, occupational therapy and physical therapy under the Medical/Surgical Program.

**Note to graduate student enrollees in the Student Employee Health Plan (SEHP):** Network facilities and most participating providers listed in this directory also apply to your Plan, however, exclusions apply. Refer to your Plan materials for information.

### How This Directory is Organized

This directory is organized by procedural category and then further divided by specialties where applicable. See the inside back cover for definitions of some specialties. Providers are listed alphabetically by county, under the category and/or specialty they practice in.

This directory identifies network facilities and providers participating as of March 2019.

Prosthetics and orthotics providers, breast pump suppliers, laboratories, MRI/magnetic resonance imaging centers and urgent care centers for all areas are listed on pages 174-179.

### Network Facilities

You will find network hospital facilities beginning on page 3. The highest level of coverage is available at a network facility. Refer to your Plan materials to determine if and when network/non-network benefits apply. You must call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and press or say 2 to reach the Hospital Program for preadmission certification before a scheduled (non-emergency) hospital admission, a maternity hospital admission or admission to a skilled nursing facility.

### Finding a Primary Care Physician

You will find primary care physicians listed in the directory under Primary Care. Your primary care physician can help you find an appropriate specialist if you need one. You do not need a referral to obtain services from a medical specialist or a Managed Physical Medicine Program network provider.

### Provider Groups

Provider groups where more than one practitioner is covered by an agreement to participate in The Empire Plan are listed in this directory under the group/practice name. The individual practitioners are not listed. The group/practice name is listed once for each specialty and county they serve with a phone number to call to find specific location(s) in that county and to make an appointment.

### An Empire Plan

#### Participating/Network Provider

- has a participating/network provider agreement in effect with the Medical/Surgical Program, the Managed Physical Medicine Program or the Mental Health and Substance Abuse Program

- submits claims directly to the Program administrator for covered services or supplies you receive
- accepts your copayment plus the program administrator's payment as payment in full for covered services and supplies

**Providers listed in the directory are not required to accept new patients.**

### Using Participating Providers Saves You Money

When you choose a participating provider, you pay only the applicable copayment for the covered services, and the provider files the claim. Using participating providers can greatly reduce your out-of-pocket expenses and help limit premium costs.

### Ask the Provider

Always ask your provider if they are a participating provider before you receive services. This directory identifies facilities and providers participating as of March 2019. The Empire Plan does not require that a participating provider refer you to a network facility or participating laboratory, urgent care center, radiologist or medical specialist. It is your responsibility to request a network facility or participating provider if one is available. Providers listed in the directory are not required to accept new patients. Explain to your doctor that your out-of-pocket expenses are usually lower if you use a participating provider.

### Access to Participating/Network Providers

Enrollees are guaranteed access to certain providers in the Medical/Surgical Program in New York and counties in Connecticut, Massachusetts, New Jersey, Pennsylvania and Vermont that share a border with the State of New York. To receive this benefit, you must call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and press or say 1 to reach the Medical/Surgical Program.

You are also guaranteed access to network benefits for certain specialties under the Managed Physical Medicine, Home Care Advocacy and Mental Health and Substance Abuse Programs if you call the appropriate program before receiving services and use a provider authorized by the program.

### \*Call for Mental Health or Substance Use Care Services

To receive the highest level of benefits, call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and press or say 3 to reach the Mental Health and Substance Abuse Program before you seek mental health or substance use care, including treatment for alcoholism, even when a doctor refers you to a facility. The Clinical Referral Line is available 24 hours a day, every day of the year.

In an emergency, go to the nearest hospital emergency room for treatment, then contact the Mental Health and Substance Abuse Program within 48 hours or as soon as reasonably possible for certification of the emergency services.

### Remember Your Card

Show your benefit card each time you or your dependent goes to a hospital, skilled nursing facility, hospice care facility or any provider's office.

### Online Directory

To find the most current listing of network facilities, medical/surgical providers, managed physical medicine providers and mental health and substance use care providers, visit the New York State Department of Civil Service website at [www.cs.ny.gov](http://www.cs.ny.gov), select your group, if prompted, and then choose Find A Provider to access an online Empire Plan Participating Provider Directory for the required program.

### Questions?

If you have questions about facilities or participating providers, please call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and select the appropriate program:

- For hospitals, skilled nursing facilities and hospice care facilities, press or say 2 to reach the Hospital Program.
- For medical/surgical providers, guaranteed access to Medical/Surgical Program providers, Managed Physical Network providers, a replacement directory or a directory for another area, press or say 1 to reach the Medical/Surgical Program.
- For mental health or substance use care providers, press or say 3 to reach the Mental Health and Substance Abuse Program.

**Hospital Affiliations:** When applicable, provider listings include the names of the hospitals with which they are affiliated. All hospitals listed are in The Empire Plan network\* as of March 2019 and participate with The Empire Plan. Some providers may have affiliations with hospitals located outside of the regional area. Please contact your provider for information about their affiliated hospitals.

**Language Access:** Providers who have reported that they (or a member of their staff) can assist you in one or more languages in addition to English are listed in this directory. We have identified those providers by including a three-letter abbreviation for each language spoken along with their contact information. To determine which language an abbreviation stands for, see the key below.

AAR – Afar	GJU – Gujarati	PER – Persian
ABK – Abkhazian	GLG – Galician	POL – Polish

† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

## DIAGNOSTIC RADIOLOGY†

† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

**Medline Industries:** 1-833-718-2229 or [www.breastpumpsmedline.com](http://www.breastpumpsmedline.com)

## NEW YORK

Laboratory Corporation of America (LabCorp) is a nationwide participating provider of laboratory services for the Empire Plan Medical/Surgical Program. Its patient service locations are listed below along with those of other local and regional laboratories that participate.

For more information regarding LabCorp, including updates regarding patient service locations, you may visit the Department of Civil Service website at [www.cs.ny.gov](http://www.cs.ny.gov). Choose NYSHIP Online and select your group, if prompted. Select Find a Provider, scroll down to the UnitedHealthcare selections and click on The Empire Plan Medical/Surgical Provider Directory. Or, call LabCorp's toll-free number, 1-888-LABCORP (1-888-522-2677).

Laboratory listings that do not have "LabCorp" in their names are independent participating providers and may be contacted at the numbers listed on the following pages.

### **Allergy & Immunology**

Diagnoses and manages disorders involving immune system conditions, diseases and problems, including hypersensitivity to a particular antigen.

### **Anesthesiology**

Provides pain relief before, during and after surgical and medical procedures, and diagnoses and treats acute, chronic and cancer pain.

### **Cardiology**

Provides comprehensive care to patients with cardiovascular problems. Skilled in selecting, performing and evaluating the structural and functional assessment of the heart and blood vessels, and the clinical evaluation of cardiovascular disease.

### **Chiropractic Medicine**

Diagnoses and treats disorders of the spine, utilizing methods such as manipulation of the spine, physiotherapy and patient counseling for the purpose of removing nerve interference.

### **Colon & Rectal Surgery**

Diagnoses and treats various diseases of the small intestine, colon, rectum, anal canal and perianal area.

### **Dermatology**

Diagnoses and treats healthy and diseased skin including skin cancer, melanomas, moles, dermatitis, acne, hair loss, scars, sexually transmitted diseases and aging.

### **Emergency Medicine**

Focuses on the immediate decision making and action necessary to prevent death or any further disability in response to acute illness and injury.

### **Endocrinology, Diabetes & Metabolism**

Concentrates on disorders of the internal (endocrine) glands such as the thyroid and adrenal glands. Also deals with disorders such as diabetes, metabolic and nutritional disorders, obesity, pituitary diseases, and menstrual and sexual problems.

### **Family Practice**

Delivers a range of acute, chronic and preventive medical care services including routine checkups and illness diagnosis, treatment and management.

### **Gastroenterology**

Diagnoses and treats diseases of the digestive organs including the stomach, bowels, liver and gallbladder. Treats conditions such as abdominal pain, ulcers, diarrhea, cancer and jaundice and performs complex diagnostic and therapeutic procedures using endoscopes to visualize internal organs.

### **General Practice**

Diagnoses and treats a wide range of illnesses and conditions.

### **Hematology**

Specializes in diseases of the blood, spleen and lymph. This specialist treats conditions such as anemia, clotting disorders, sickle cell disease, hemophilia, leukemia and lymphoma.

### **Infectious Disease Medicine**

Deals with infectious diseases of all types and in all organ systems, including conditions requiring selective use of antibiotics. Often diagnoses and treats AIDS patients and patients with fevers that have not been explained. May also have expertise in preventive medicine and travel medicine.

### **Internal Medicine**

Provides long-term, comprehensive care in the office and hospital, managing both common and complex illnesses of adolescents, adults and the elderly.

### **Laboratory**

Facility equipped to perform diagnostic testing.

### **Masters Level Counseling**

Assistance in the prevention or resolution of problems associated with social or emotional distress by a practitioner with a Masters degree in a counseling discipline.

### **Medical Oncology**

Diagnoses and treats all types of cancer and other benign and malignant tumors. Decides on and administers therapy for these malignancies, as well as consults with surgeons and radiotherapists on other treatments for cancer.

### **Nephrology**

Treats disorders of the kidney, high blood pressure, fluid and mineral balance, and dialysis of body wastes when the kidneys do not function. Consults with surgeons about kidney transplantation.

### **Neurological Surgery**

Provides care for patients in the treatment of pain or pathological processes that may modify the function or activity of the nervous systems.

### **Neurology**

Specializes in the evaluation and treatment of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system.

### **Nuclear Medicine**

Uses radioactive substances and imaging systems to determine how well organs in the body are functioning, for diagnostic and treatment purposes.

### **Obstetrics & Gynecology**

Focuses on the health of women before, during and after childbearing years, diagnosing and treating conditions of the reproductive system.

### **Occupational Therapy**

Therapeutic use of activities to maximize a person's ability to function independently, enhance development and prevent disease.

### **Ophthalmology**

Specializes in the comprehensive medical and surgical care of the eyes.

### **Orthopaedic Surgery**

Preservation, investigation and restoration of the form and function of the extremities, spine and associated structures.

### Otolaryngology

Provides medical and/or surgical therapy or prevention of diseases, disorders and/or injuries of the head and neck systems. Commonly referred to as an ENT (ear, nose, throat) physician.

### Pathology

Contributes to disease diagnosis and treatment through knowledge gained by the laboratory application of the biologic, chemical and physical sciences.

### Pediatrics

Specializes in the physical, emotional and social health of children from birth to young adulthood.

### Physical Medicine & Rehabilitation

Evaluates and treats patients with physical and/or cognitive impairments and disability.

### Physical Therapy

Rehabilitation and prevention concerned with the restoration of musculoskeletal, neurological and cardiopulmonary function.

### Podiatry

Diagnoses and treats conditions of the foot, ankle and related structures of the leg.

### Psychiatry

Diagnosis and treatment of mental illness by a Medical Doctor (Doctor of Medicine or Doctor of Osteopathy).

### Psychology

Treatment of behavioral problems or emotional distress by a licensed psychologist.

### Pulmonary Medicine

Treats diseases of the lungs and airways. Diagnoses and treats cancer, pneumonia, pleurisy, asthma, occupational and environmental diseases, bronchitis, sleep disorders, emphysema and other complex disorders of the lungs.

**Hospital-Based Providers:** Certain services, such as pathology, anesthesiology and emergency room care are generally rendered by physicians who are hospital-based. Since the provider of care is usually determined by availability and hospital policy, patients cannot choose a specific physician in most cases. Although participating providers in such specialties are listed in this directory, it may not be possible to select or schedule appointments with these practitioners based upon their participating status. Remember, when you receive services in the outpatient department of a hospital, there may be separate bills for hospital services and hospital-based physician services.

**Additional Specialty Definitions on Website:** Search for additional Medical/Surgical specialty definitions at [www.cs.ny.gov](http://www.cs.ny.gov). Select your group, if prompted, then click on Find a Provider and follow the instructions to access this material. Empire BlueCross BlueShield, UnitedHealthcare, Beacon Health Options and the State of New York make no warranties, guarantees or representations of any kind to the information contained therein.

### Radiation Oncology

Deals with the study and management of disease, especially malignant tumors and radiological treatments of abnormal tissue through the use of x-rays or radionuclides.

### Radiology

Utilizes imaging methodologies to diagnose and manage patients and provide therapeutic options.

### Rheumatology

Treats diseases of joints, muscle, bones and tendons. Diagnoses and treats arthritis, back pain, muscle strains, common athletic injuries and collagen diseases.

### Social Work

Assistance in the prevention or resolution of problems associated with social or emotional distress by a licensed social worker.

### Speech Pathology

Diagnosis, prognosis, prescription and remediation of speech, language and swallowing disorders.

### Surgery

Diagnoses and cares for patients with diseases and disorders affecting the abdomen, digestive tract, endocrine system, breast, skin and blood vessels. Also trained in the care of pediatric and cancer patients and in the treatment of patients who are injured or critically ill. Common conditions treated include hernias, breast tumors, gallstones, appendicitis, pancreatitis, bowel obstructions, colon inflammation and colon cancer.

### Thoracic Surgery

Treats diseased or injured organs in the chest, including the esophagus, trachea, heart and lungs.

### Urology

Diagnoses and treats disorders of the urinary tracts of males and females, and of the reproductive system of males.
