† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

† Some radiology providers/locations only perform certain services. To ensure that the service you require is offered, contact the specific location you intend to visit in advance.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

Hanger Clinic is a national provider of prostheses and orthotic devices that is under contract with UnitedHealthcare. Contact Hanger Clinic toll free at 1-877-442-6437 or online at www.hanger.com for a listing of providers in your area.

UnitedHealthcare has contracted with the following breast pump providers. You must call the toll-free number below to purchase the appropriate pump.

Double-Electric Breast Pump Suppliers:

Byram Healthcare: 1-877-773-1972 or breastpumps.byramhealthcare.com

Edgepark Medical Supplies: 1-855-504-2099 or www.edgepark.com/faqs_breastpumps

McKesson Patient Care Solutions: 1-844-727-6667 or mpcs.mckesson.com/web/mpcs/products/breast-pumps

Medline Industries: 1-833-718-2229 or www.breastpumpsmedline.com

NEW YORK

ALBANY - ERIE

Laboratory Corporation of America (LabCorp) is a nationwide participating provider of laboratory services for the Empire Plan Medical/Surgical Program. Its patient service locations are listed below along with those of other local and regional laboratories that participate.

For more information regarding LabCorp, including updates regarding patient service locations, you may visit the Department of Civil Service website at www.cs.ny.gov. Choose NYSHIP Online and select your group, if prompted. Select Find a Provider, scroll down to the UnitedHealthcare selections and click on The Empire Plan Medical/Surgical Provider Directory. Or, call LabCorp's toll-free number, 1-888-LABCORP (1-888-522-2677).

Laboratory listings that do not have "LabCorp" in their names are independent participating providers and may be contacted at the numbers listed on the following pages.

Services performed when you are physically present at a hospital-based or hospital-owned laboratory are considered outpatient hospital services and are subject to the outpatient hospital services copayment.

This directory lists providers that participate at the locations shown as of March 2019. It does not guarantee that a provider participates at any other location. Before receiving services, you should always verify that the provider is currently participating at the specific location where you are scheduling your appointment.

* Board Certified

Before you seek mental health or substance use care, including treatment for alcoholism, call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and press or say 3 to reach the Mental Health/Substance Abuse Program. You should call within 48 hours or as soon as reasonably possible after an emergency mental health or substance use hospitalization.

Before you seek mental health or substance use care, including treatment for alcoholism, call The Empire Plan toll free at 1-877-7-NYSHIP (1-877-769-7447) and press or say 3 to reach the Mental Health/Substance Abuse Program. You should call within 48 hours or as soon as reasonably possible after an emergency mental health or substance use hospitalization.

Allergy & Immunology

Diagnoses and manages disorders involving immune system conditions, diseases and problems, including hypersensitivity to a particular antigen.

Anesthesiology

Provides pain relief before, during and after surgical and medical procedures, and diagnoses and treats acute, chronic and cancer pain.

Cardiology

Provides comprehensive care to patients with cardiovascular problems. Skilled in selecting, performing and evaluating the structural and functional assessment of the heart and blood vessels, and the clinical evaluation of cardiovascular disease.

Chiropractic Medicine

Diagnoses and treats disorders of the spine, utilizing methods such as manipulation of the spine, physiotherapy and patient counseling for the purpose of removing nerve interference.

Colon & Rectal Surgery

Diagnoses and treats various diseases of the small intestine, colon, rectum, anal canal and perianal area.

Dermatology

Diagnoses and treats healthy and diseased skin including skin cancer, melanomas, moles, dermatitis, acne, hair loss, scars, sexually transmitted diseases and aging.

Emergency Medicine

Focuses on the immediate decision making and action necessary to prevent death or any further disability in response to acute illness and injury.

Endocrinology, Diabetes & Metabolism

Concentrates on disorders of the internal (endocrine) glands such as the thyroid and adrenal glands. Also deals with disorders such as diabetes, metabolic and nutritional disorders, obesity, pituitary diseases, and menstrual and sexual problems.

Family Practice

Delivers a range of acute, chronic and preventive medical care services including routine checkups and illness diagnosis, treatment and management.

Gastroenterology

Diagnoses and treats diseases of the digestive organs including the stomach, bowels, liver and gallbladder. Treats conditions such as abdominal pain, ulcers, diarrhea, cancer and jaundice and performs complex diagnostic and therapeutic procedures using endoscopes to visualize internal organs.

General Practice

Diagnoses and treats a wide range of illnesses and conditions.

Hematology

Specializes in diseases of the blood, spleen and lymph. This specialist treats conditions such as anemia, clotting disorders, sickle cell disease, hemophilia, leukemia and lymphoma.

Infectious Disease Medicine

Deals with infectious diseases of all types and in all organ systems, including conditions requiring selective use of antibiotics. Often diagnoses and treats AIDS patients and patients with fevers that have not been explained. May also have expertise in preventive medicine and travel medicine.

Internal Medicine

Provides long-term, comprehensive care in the office and hospital, managing both common and complex illnesses of adolescents, adults and the elderly.

Laboratory

Facility equipped to perform diagnostic testing.

Masters Level Counseling

Assistance in the prevention or resolution of problems associated with social or emotional distress by a practitioner with a Masters degree in a counseling discipline.

Medical Oncology

Diagnoses and treats all types of cancer and other benign and malignant tumors. Decides on and administers therapy for these malignancies, as well as consults with surgeons and radiotherapists on other treatments for cancer.

Nephrology

Treats disorders of the kidney, high blood pressure, fluid and mineral balance, and dialysis of body wastes when the kidneys do not function. Consults with surgeons about kidney transplantation.

Neurological Surgery

Provides care for patients in the treatment of pain or pathological processes that may modify the function or activity of the nervous systems.

Neurology

Specializes in the evaluation and treatment of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles and autonomic nervous system.

Nuclear Medicine

Uses radioactive substances and imaging systems to determine how well organs in the body are functioning, for diagnostic and treatment purposes.

Obstetrics & Gynecology

Focuses on the health of women before, during and after childbearing years, diagnosing and treating conditions of the reproductive system.

Occupational Therapy

Therapeutic use of activities to maximize a person's ability to function independently, enhance development and prevent disease.

Ophthalmology

Specializes in the comprehensive medical and surgical care of the eyes.

Orthopaedic Surgery

Preservation, investigation and restoration of the form and function of the extremities, spine and associated structures.

Otolaryngology

Provides medical and/or surgical therapy or prevention of diseases, disorders and/or injuries of the head and neck systems. Commonly referred to as an ENT (ear, nose, throat) physician.

Pathology

Contributes to disease diagnosis and treatment through knowledge gained by the laboratory application of the biologic, chemical and physical sciences.

Pediatrics

Specializes in the physical, emotional and social health of children from birth to young adulthood.

Physical Medicine & Rehabilitation

Evaluates and treats patients with physical and/or cognitive impairments and disability.

Physical Therapy

Rehabilitation and prevention concerned with the restoration of musculoskeletal, neurological and cardiopulmonary function.

Podiatry

Diagnoses and treats conditions of the foot, ankle and related structures of the leg.

Psychiatry

Diagnosis and treatment of mental illness by a Medical Doctor (Doctor of Medicine or Doctor of Osteopathy).

Psychology

Treatment of behavioral problems or emotional distress by a licensed psychologist.

Pulmonary Medicine

Treats diseases of the lungs and airways. Diagnoses and treats cancer, pneumonia, pleurisy, asthma, occupational and environmental diseases, bronchitis, sleep disorders, emphysema and other complex disorders of the lungs.

Hospital-Based Providers: Certain services, such as pathology, anesthesiology and emergency room care are generally rendered by physicians who are hospital-based. Since the provider of care is usually determined by availability and hospital policy, patients cannot choose a specific physician in most cases. Although participating providers in such specialties are listed in this directory, it may not be possible to select or schedule appointments with these practitioners based upon their participating status. Remember, when you receive services in the outpatient department of a hospital, there may be separate bills for hospital services and hospital-based physician services.

Additional Specialty Definitions on Website: Search for additional Medical/Surgical specialty definitions at www.cs.ny.gov. Select your group, if prompted, then click on Find a Provider and follow the instructions to access this material. Empire BlueCross BlueShield, UnitedHealthcare, Beacon Health Options and the State of New York make no warranties, guarantees or representations of any kind to the information contained therein.

Radiation Oncology

Deals with the study and management of disease, especially malignant tumors and radiological treatments of abnormal tissue through the use of x-rays or radionuclides.

Radiology

Utilizes imaging methodologies to diagnose and manage patients and provide therapeutic options.

Rheumatology

Treats diseases of joints, muscle, bones and tendons. Diagnoses and treats arthritis, back pain, muscle strains, common athletic injuries and collagen diseases.

Social Work

Assistance in the prevention or resolution of problems associated with social or emotional distress by a licensed social worker.

Speech Pathology

Diagnosis, prognosis, prescription and remediation of speech, language and swallowing disorders.

Surgery

Diagnoses and cares for patients with diseases and disorders affecting the abdomen, digestive tract, endocrine system, breast, skin and blood vessels. Also trained in the care of pediatric and cancer patients and in the treatment of patients who are injured or critically ill. Common conditions treated include hernias, breast tumors, gallstones, appendicitis, pancreatitis, bowel obstructions, colon inflammation and colon cancer.

Thoracic Surgery

Treats diseased or injured organs in the chest, including the esophagus, trachea, heart and lungs.

Urology

Diagnoses and treats disorders of the urinary tracts of males and females, and of the reproductive system of males.
