The policies and benefits described in this booklet are established by the State of New York through negotiations with State employee unions and administratively for non-represented groups. Policies and benefits may also be affected by federal and state legislation and court decisions. The Department of Civil Service, which administers the New York State Health Insurance Program (NYSHIP), makes policy decisions and interpretations of rules and laws affecting these provisions. Where this document differs from your June 1, 2002 *NYSHIP General Information Book and Empire Plan Certificate* and later *Empire Plan Reports* and *Certificate Amendments*, this is the controlling document.

### **Infertility Benefits** **Effective January 1, 2003**

#### **Infertility benefits**

For the purposes of this benefit, infertility is defined as a condition of an individual who is unable to achieve a pregnancy because the individual and/or partner has been diagnosed as infertile by a physician. Infertility does not include the condition of an individual who is able to achieve a pregnancy but has been unable to carry a fetus to full term.

Infertility benefits, including Qualified Procedures (see below), are subject to the same copayments and deductibles as benefits for other medical conditions under the hospital program. Qualified Procedures are subject to a \$25,000 lifetime maximum.

#### **What is covered**

Covered Services and Supplies include but are not limited to:

- Artificial/intra-uterine insemination
- Inpatient and/or outpatient surgical or medical procedures, performed in the hospital, which would correct malfunction, disease or dysfunction resulting in infertility or enhance reproductive capability.
- Services in relation to diagnostic tests and procedures necessary:
  - (1) to determine infertility; or
  - (2) in connection with any surgical or medical procedures to diagnose or treat infertility.

The covered diagnostic tests and procedures include: Hysterosalpingogram; Hysteroscopy; Endometrial Biopsy; Laparoscopy; Sono-Hysterogram; Post-Coital Tests; Testis Biopsy; Semen Analysis; Blood Tests; Ultrasound; and other Medically Necessary Diagnostic Tests and Procedures, unless excluded by law.

Empire Blue Cross Blue Shield will not exclude coverage for medically necessary care for the diagnosis and treatment of correctable medical conditions otherwise covered by the Plan solely because the medical condition results in infertility.

**Additional Infertility Benefits** - Additional Infertility Benefits, called Qualified Procedures (specialized procedures that facilitate a pregnancy but do not treat the cause of the infertility), may be available under the United HealthCare Certificate portion of the Empire Plan. (See pages 90-91 of the United HealthCare Certificate.)

**You must call United HealthCare at 1-877-7-NYSHIP (1-877-769-7447) for prior authorization for Qualified Procedures.**

Certain procedures, called Qualified Procedures, obtained in the inpatient or outpatient departments of a hospital, are covered under the Empire Blue Cross Blue Shield portion of this Certificate only if you call United HealthCare in advance at 1-877-769-7447 and receive prior authorization. If United HealthCare authorizes the Qualified Procedures, the following are covered:

- Assisted Reproductive Technology (ART) procedures including:
  - In vitro fertilization and embryo placement
  - Gamete Intra-Fallopian Transfer (GIFT)
  - Zygote Intra-Fallopian Transfer (ZIFT)

- Microsurgical sperm aspiration and extraction procedures, including:
  - Microsurgical Epididymal Sperm Aspiration (MESA), and
  - Testicular Sperm Extraction (TESE)
- Sperm, egg and/or inseminated egg procurement and processing and banking of sperm or inseminated eggs. This includes expenses associated with cryopreservation (that is, freezing and storage of sperm, eggs or embryos).

#### **Maximum lifetime benefit**

Benefits paid for Qualified Procedures under the Empire Plan are subject to a lifetime maximum of \$25,000 per covered individual. This maximum applies to all covered hospital, medical, travel, lodging and meal expenses that are associated with Qualified Procedures.

#### **Infertility: Exclusions and limitations**

Charges for the following expenses are not covered or payable:

- Experimental infertility procedures. (Infertility procedures performed must be accepted as non-experimental by the American Society of Reproductive Medicine.)
- Fertility drugs prescribed in conjunction with Assisted Reproductive Technology and dispensed by a retail pharmacy are not covered under this benefit. Benefits for infertility-related drugs are payable on the same basis as for any other prescription drugs payable under the Empire Plan.
- Medical expenses or other charges related to genetic selection
- Medical expenses or any other charges in connection with surrogacy
- Any donor compensation or fees charged in facilitating a pregnancy
- Any charges for services provided to a donor in facilitating a pregnancy
- Psychological evaluations and counseling. See the GHI/ValueOptions Certificate for coverage that may be provided for psychological evaluations and counseling.

Other exclusions and limitations that apply to this benefit are included under Exclusions in the General Provisions section of this Certificate.
