The Empire  
Plan

**If you are an enrollee or health care provider, please contact CVS Specialty at 1-855-264-3238 or visit [Empireplanrxprogram.com](https://www.empireplanrxprogram.com)**

1. Lowercase type indicates generic name and availability; lowercase type within parentheses indicates trademark generics listed only when no brand is available; products in all capital letters within parentheses indicate brand names of generic products.
2. Multiple dosage formulations and/or injectable devices are available.
3. Call CVS Specialty at 1-855-264-3238 for specific medications available through CVS Specialty. Listing is subject to change.
4. Certain specialty drugs may be obtained at your local retail network pharmacy or through CVS Specialty.
5. Certain products do not require approval through Specialty Guideline Management (SGM).

**B4G** Brand for generic medication. Brand-name product is dispensed at the generic copayment. Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

\* Indicates Limited Distribution products distributed by CVS Specialty.

† Indicates products exclusively distributed by Coram CVS Specialty Infusion Services.

Most specialty drugs must be approved through Specialty Guideline Management (SGM), a clinical prior authorization review required to determine coverage under the prescription benefit to promote their safe, appropriate, and cost-effective use.

The first fill ("Grace Fill") of a specialty prescription medication may be dispensed from a pharmacy other than the CVS Specialty Pharmacy.

Subsequent fills must be dispensed through the CVS Specialty Pharmacy.

Products distributed by CVS Specialty, as well as products covered by a plan member's prescription and medical benefit plan, may change from time to time. In addition, a member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance on this document at any time. This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Specialty.
