Promotion examination open to all qualified employees of the New York State Department of Labor.

Minimum Qualifications: On or before February 7, 2026, you must be a qualified employee of the **New York State Department of Labor** and have had three months of permanent competitive, non-competitive NY HELPS*, or 55-b/55-c service as a Senior Industrial Hygienist, Industrial Hygienist Trainee 2, Industrial Hygienist Trainee 1, Industrial Hygienist Apprentice 2, or Industrial Hygienist Apprentice 1. If you have received a permanent appointment to a qualifying title listed and served provisionally** in that title immediately preceding your permanent appointment, such provisional service may be counted towards meeting the time in title required for this examination.

Only the title or titles listed are qualifying.

If you were permanently appointed to a qualifying title on or before November 7, 2025, and have served continuously in this title since that date, you are eligible to file for this examination.

**If you were permanently appointed via the New York Hiring for Emergency Limited Placement Statewide (NY HELPS) program to a qualifying title in the non-competitive class on or before November 7, 2025, and have served continuously in this title since that date, you may apply for this examination.*

***If you were permanently appointed to a qualifying title and had provisional service in the same title immediately preceding the permanent appointment, such provisional service may be counted towards meeting the time in title required to apply for this examination. Your provisional appointment must have been on or before November 7, 2025, to qualify for this examination.*

Qualifying Experience For Appointment From The Eligible List: After one year of service at the Full Performance Level, successful candidates will be qualified for appointment from the eligible list.

Employees appointed to a non-competitive position via the NY HELPS program to a qualifying title in the non-competitive class will have their names restricted from appointment from the eligible list until their position is covered-in to the competitive class by action of the New York State Civil Service Commission or otherwise obtain permanent competitive status in the position.

If you have received a permanent appointment to a qualifying title listed and served provisionally in that title immediately preceding your permanent appointment, such provisional service may be counted towards meeting the one year time in title required for appointment from the eligible list.

The Positions: These positions exist in the New York State Department of Labor and are located Statewide.

Duties: As an **Associate Industrial Hygienist**, you would handle complex health inspections and consultations at work sites to determine and advise upon compliance with applicable state and federal standards and to identify health violations and/or health hazards, particularly those associated with exposure to toxic or explosive chemicals and substances in the form of dusts, fibers (including asbestos), fumes, mists, vapors, gases, metals, and pathogenic organisms. You would also identify hazards such as noise and vibrations, light of various types, and other physical energies including electromagnetic emissions and non-ionizing and ionizing radiation. Based upon the results of the field testing and/or laboratory analyses from on-site inspections, you might confer with management and employee representatives and/or take appropriate enforcement or consultative action. You may be responsible for directing, supervising, and reviewing the technical activities of hygiene staff engaged in inspections and/or consultations. You may conduct training for staff or public and private sector employers and employees.

Subject of Examination: To be considered for appointment to this title, you must pass the **multiple-choice test**. The **multiple-choice test** evaluates your knowledge, skills, and/or abilities in the following areas:

1. **Organic and inorganic chemistry related to industrial hygiene activities** - These questions test for knowledge of principles and practices involved in both organic and inorganic chemistry as related to industrial hygiene activities, including such areas as terminology, units, and measurements; fundamental concepts of organic and inorganic chemistry; chemical reactions; properties and characteristics of substances related to industrial hygiene activities; and safe and proper procedures for working with chemical substances.
2. **Operation and calibration of instruments used to measure and analyze environmental factors in work settings to evaluate health conditions** - These questions test for knowledge of the techniques, equipment, and instrumentation used to sample, measure, and analyze various substances and conditions in the work environment to detect unsafe health conditions, and may include testing and analyzing for metals, dusts, particulates, fibers, solvents, gases, pathogens, electromagnetic radiation, noise, and similar types of potential work site environmental contaminants.
3. **Abatement of unsafe health and working conditions related to processes, operations, materials, and pathogens found in the working environment** - These questions test for knowledge of the principles and practices involved in the identification and abatement of unsafe health and working conditions, including such areas as characteristics of hazards and unsafe work site environments; consequences resulting from unsafe health and working conditions; safety procedures and equipment used to abate unsafe health and working conditions; and preventive and corrective control strategies and measures.
4. **Inspection and interviewing techniques** - These questions test your ability to select the proper course of action in situations which might occur during routine inspections. Question topics may cover, but will not be limited to, such areas as interviewing, gathering information and evidence, maintaining proper attitude, and handling irregularities and violations with integrity and sound judgment. Some questions may be in a situational format while others may deal with the proper principles and practices of inspection.
5. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.

Test Guide: A General Guide to Multiple-Choice Tests is available at <http://www.cs.ny.gov/testing/testguides.cfm>.

If you pass, your seniority credit(s), if any, will be included in the computation of your final score. Your final score on the eligible list will be determined after adding any Veterans' credits.

Credit For Seniority: Seniority is credited at the rate of one credit for each five-year period (or fraction thereof), excluding the first year of service.

Admission To The Test: If approved for a multiple-choice test, you will receive an admission notice which will indicate your assigned test date and the way your test will be administered. Your test may be administered with paper and pencil or online at a state test site. ***You cannot request to change your scheduled day or request a specific type of test administration.***
