**Subject of Examination:** To be considered for appointment to this title, you must pass the **multiple-choice test**. The **multiple-choice test** evaluates your knowledge, skills, and/or abilities in the following areas:

1. **Preparing written material** - These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. 3. **Applying written information in a safety and security setting** - These questions evaluate your ability to read, interpret and apply rules, regulations, directives, written narratives and other related material. You will be required to read a set of information and to appropriately apply the information to situations similar to those typically experienced in a public safety and security service setting. All information needed to answer the questions is contained in the rules, regulations, etc. which are cited.
4. **Principles and practices of safety and security** - These questions test for a knowledge of the proper principles and practices in the field of safety and security. The questions will cover such areas as selecting the best course of action to take in a safety or security related situation.
5. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
