Promotion examination open to all qualified employees of the New York State Department of Health.

Minimum Qualifications: On or before June 13, 2026, you must be a qualified employee of the New York State Department of Health and have had three months of permanent competitive, non-competitive NY HELPS*, or 55-b/55-c service as a Laboratory Specialist 1, Laboratory Specialist Trainee 1, or Laboratory Specialist Trainee 2. If you have received a permanent appointment to a qualifying title listed and served provisionally** in that title immediately preceding your permanent appointment, such provisional service may be counted towards meeting the time in title required for this examination.

Only the title or titles listed are qualifying.

If you were permanently appointed to a qualifying title on or before March 13, 2026, and have served continuously in this title since that date, you are eligible to file for this examination.

**If you were permanently appointed via the New York Hiring for Emergency Limited Placement Statewide (NY HELPS) program to a qualifying title in the non-competitive class on or before March 13, 2026, and have served continuously in this title since that date, you may apply for this examination.*

***If you were permanently appointed to a qualifying title and had provisional service in the same title immediately preceding the permanent appointment, such provisional service may be counted towards meeting the time in title required to apply for this examination. Your provisional appointment must have been on or before March 13, 2026, to qualify for this examination.*

Qualifying Experience For Appointment From The Eligible List: After one year of service at the Full Performance Level, successful candidates will be qualified for appointment from the eligible list.

Employees appointed via the NY HELPS program to a qualifying title in the non-competitive class will have their names restricted from appointment from the eligible list until their position is covered-in to the competitive class by action of the New York State Civil Service Commission or otherwise obtain permanent competitive status in the position.

If you have received a permanent appointment to a qualifying title listed and served provisionally in that title immediately preceding your permanent appointment, such provisional service may be counted towards meeting the time in title required for appointment from the eligible list.

Additional Requirements for Appointment:

- Depending on assignment, appointees may, at the time of appointment and continuously thereafter, be required to meet all applicable state and federal requirements for qualification.

The Positions: These positions exist in the New York State Department of Health and are located in Albany.

Duties: As a **Laboratory Specialist 2 (Biology)**, you would, under general direction and in the area of expertise in which assigned, plan and oversee the work of the laboratory and/or plan and conduct experiments to advance research. You would supervise Laboratory Specialists 1 and other subordinate laboratory staff in specific laboratory program areas and may direct one or more of the following laboratory activities: the analysis of environmental and clinical specimens for the purpose of isolation and identification of infectious agents; the development of diagnostic tests and assays; the analysis of proficiency samples for establishing and/or maintaining certification of the laboratory by various regulatory entities; the analysis of samples prepared for use in proficiency testing programs; the production of diagnostic reagents and biologic products; the performance of image production and analysis; the performance of genetic analyses for diagnostic and epidemiologic efforts; the development and/or implementation of new technologies and techniques that will address newly identified needs and/or requirements to keep the laboratory's capabilities current; may prepare reports, publications, or standard operating procedures (SOP) etc.; and consult with outside agencies.

As a **Laboratory Specialist 2 (Chemistry)**, you would, under general direction and in the area of expertise in which assigned, plan and oversee the work of the laboratory and/or plan and conduct experiments to advance research. You would supervise Laboratory Specialists 1 and other subordinate laboratory staff in specific laboratory program areas and may direct one or more of the following laboratory activities: the analysis of environmental samples and/or clinical specimens for the purpose of identifying and quantifying levels of chemical constituents; the analysis of samples prepared for use in proficiency testing programs to validate the chemicals present, both qualitatively and quantitatively; the analysis of proficiency samples for establishing and/or maintaining certification of the laboratory by various regulatory entities; the preparation for sampling materials and reagents used in the collection and analysis of both environmental samples and clinical specimens; the development and/or implementation of new technologies and techniques that will address newly identified needs and/or requirements to keep the laboratory's capabilities current; and may consult with outside agencies.

Subject of Examination: To be considered for appointment to this title, you must pass the **multiple-choice test**. The **multiple-choice test** evaluates your knowledge, skills, and/or abilities in the following areas:

1. **Preparing written material** - These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.
2. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
3. **Analyzing and interpreting written technical material** - These questions will require you to read passages that deal with technical laboratory issues and procedures, not necessarily specific to your field, and then will ask you to base your answers on a comprehension of the passages presented. In some cases, you may be further required to incorporate basic background knowledge in order to answer correctly.
4. **Analysis and interpretation of laboratory results** - These questions test for the knowledge needed to interpret laboratory results including the identification of common problems which may affect results; quality assurance and quality control requirements; and basic statistics as they relate to interpretation and validation of quality control procedures.

Test Guide & Sample Test Material: A General Guide to Multiple-Choice Tests is available at <http://www.cs.ny.gov/testing/testguides.cfm>. If Sample Test Material is available for a subject area described above, it can be found at <http://www.cs.ny.gov/testing/sampletestmat.cfm>.

If you pass, your seniority credit(s), if any, will be included in the computation of your final score. Your final score on the eligible list will be determined after adding any Veterans' credits.

Credit For Seniority: Seniority is credited at the rate of one credit for each five-year period (or fraction thereof), excluding the first year of service.

Admission To The Test: If approved for a multiple-choice test, you will receive an admission notice which will indicate your assigned test date and the way your test will be administered. Your test may be administered with paper and pencil or online at a state test site. **You cannot request to change your scheduled day or request a specific type of test administration.**

Applicants are required to have a Personal NY.gov account and keep their email address up to date. The Department of Civil Service and other state agencies will communicate with you through email correspondence. This may include notification of your application status, your test arrangements, examination results, and canvassing you for interest in appointment. It will be important for you to keep your email address, phone number, and mailing address current by logging into <https://www.cs.ny.gov/home/myaccount>.
