Background

The New York State Health Insurance Program (NYSHIP) was established by the New York State Legislature in 1957 to provide essential health insurance protection to New York State (NYS) employees, retirees, and their eligible Dependents. Civil Service Law allows the NYSHIP the option to be self-funded, which occurred in 2014. Public authorities, public benefit corporations, and other quasi-public entities, such as the NYS Thruway Authority and the Dormitory Authority may choose to participate in NYSHIP; those that do are called Participating Employers (PEs). Article XI of the NYS Civil Service Law also allows local units of government such as school districts, special districts, and municipal corporations to participate in NYSHIP; those local government units which choose to participate in NYSHIP are called Participating Agencies (PAs). At present, there are roughly 100 Participating Employers and about 800 Participating Agencies in NYSHIP. Under Article XI of the Civil Service Law, as amended and 4 New York Code of Rules and Regulations (NYCRR) Part 73, as amended, the President, who also serves as the Commissioner of the Department, through the Department's Employee Benefits Division (EBD) is responsible for the ongoing administration of NYSHIP. NYSHIP currently covers over 625,000 NYS, PA and PE Employees and Retirees. Eligible covered Dependents bring the total number of covered lives to about 1,211,000.

The largest health plan option under NYSHIP is The Empire Plan, a Participating Provider Organization (PPO), which is available to New York State Employees and Retirees, PAs, and PEs. The Empire Plan benefit design has four (4) main parts including:

1. Hospital Program benefits that include coverage for hospital inpatient stays, hospice care, emergency care, skilled nursing facilities, infertility services and the Transplants Program. This program is currently administered by Anthem Blue Cross;
2. Medical Program benefits that include coverage for medical and surgical services under the Participating Provider and the Basic Medical Program. This program is currently administered by UnitedHealthcare Insurance Company (UHC) of New York;

3. Mental Health and Substance Use Program benefits administered by Carelon Behavioral Health;
4. Prescription Drug Program benefits that include coverage for prescription drugs dispensed through retail network pharmacies, through the Mail Service Pharmacy Process, through the Specialty Pharmacy Program, and through non-network pharmacies. This program is currently administered by CVS Caremark.

The benefit design of The Empire Plan is the result of collective bargaining between NYS and the various unions representing its employees. Benefits are administratively extended to non-represented NYS employees, employees of PAs and PEs, and retirees. Therefore, the benefit design is subject to change from time-to-time as the result of those negotiations, and there are variations in The Empire Plan's benefit design among the bargaining units. The benefit design cannot deviate from that which has been collectively bargained. Most of the active workforce is represented by various unions, and union participation in the design and oversight of NYSHIP is active and ongoing.

NYSHIP is governed by the Council on Employee Health Insurance (CEHI). The Council is composed of the President of the Civil Service Commission, the Director of the Office of Employee Relations (OER), and the Director of the Division of the Budget (DOB). The Department is responsible for the administration and oversight of NYSHIP including the contracts with the DCS Programs third party administrators. All components of the DCS Programs are self-funded.

Section 162 of the Civil Service Law was amended by *Chapter 703* of the Laws of 2023 and chapter amendment, *Chapter 4* of the Laws of 2024 further amended Section 162 of Civil Service Law. These amendments require the Department to collect and analyze Empire Plan hospital pricing data. This report excludes optional Health Maintenance Organization (HMO) coverage offered under the New York State Health Insurance Program (NYSHIP), and claims for Medicare primary individuals.

Specifically, subdivision (i) of paragraph (b) of Section 162 of Civil Service Law requires that the Department report in and out-of-network allowed amounts for each hospital facility located in the State of New York based on the following service categories: 1) inpatient hospital, 2) outpatient hospital, 3) emergency room services, and 4) physician services. These services are to be reported in connection with inpatient hospital admissions and as part of an outpatient or emergency room visits, except to the extent that the Department determines that it is not technically feasible to include physician services in the report. For purposes of this report, the Department is only able to include

physician services that are associated with an inpatient visit and is unable to include physician services associated with an emergency room or outpatient service. The reason is because when professional claims are billed, they often are billed under the specific physician doing the service; not linked to the facility. Even for inpatient visits, the Department must rely on its consultant's proprietary methodology to group physician claims with an inpatient stay. Subdivision (ii) of paragraph (b) of Section 162 of Civil Service Law requires that the Department report on the top twenty services by volume for each hospital facility using the above service categories. These reporting attributes are to include the prior two years of utilization and allowed amounts. In addition, subdivision (ii) requires that the report include, to the best of the Department's ability, a comparison of the Empire Plan's in-network allowed amounts to the Medicare fee schedule (i.e., "similar services reimbursed under title eighteen of the social security act"). At this time, the Department does not have the Medicare fee schedule readily available in its data warehouse to offer such a comparison.

Methodology

The Department notes that while the statute requires that the report be based on services, which we interpret to mean procedure codes, we have instead used Diagnosis Related Groups (DRGs) for inpatient claims and revenue codes for outpatient and emergency room claims. Procedure codes are not always populated on hospital-based claims, so that was not a viable option for purposes of this report. Even this methodology has its limitations. The top twenty revenue codes for outpatient and emergency room claims often have very broad descriptions (e.g., "Lab/Chemistry" and "Emergency Room").

To that end, the Department is providing supplemental reporting that goes beyond the statutory requirements. These supplemental reports provide a breakdown of the top 20 DRGs for inpatient claims, and the top 20 diagnoses for outpatient and emergency room claims. Specifically, the Department is using its consultant's proprietary methodology that, for inpatient claims, includes all services and payments associated with a single stay in a facility. It must include an overnight stay; it combines professional and facility components with valid service dates into one admission record (room and board flags are used to determine which claims have "valid service dates" for the admission); diagnosis and procedure level information from the individual claims are analyzed and categorized to assign a DRG and primary procedure to each admission; and financials are assigned to the specific year based upon if the admission started during the year; not necessarily a specific claim occurred in said year.

For outpatient claims and emergency room claims, Service Categories are a claim categorization methodology that assigns claims to standard categories based upon the

type of service provided. Service categories are mutually exclusive. Categories are based upon more than ten standard fields such as Place of Service, Claim Type, Procedure Code, Revenue Code, and Provider Type. Claims are categorized based on the service date of the claim.

Summary of Findings (Statutory Reporting Requirements)

- In 2023, of the top 20 DRGs in terms of inpatient admissions, *790 Extreme immaturity or respiratory distress syndrome, neonate* had the highest total allowed amount at \$59.5 million. This same DRG didn't register in the top 20 DRGs in terms of inpatient admissions in 2022. In 2022, of the top 20 DRGs in terms of inpatient admissions, *871 Septicemia or severe sepsis w/o MV >96 hours w MCC*, had the highest total allowed amount at \$46.3 million. (Table 5)
- In 2023, of the top 20 outpatient revenue codes in terms of visits, *0360 Operating Room Services* had the highest total allowed amount at \$359.3 million. In 2022, of the top 20 outpatient revenue codes in terms of visits, this code also had the highest total allowed amount at \$306.9 million. (Table 6A)
- In 2023, of the top 20 emergency room revenue codes in terms of visits, *0450 Emergency Room* had the highest total allowed amount at \$197.8 million. In 2022, of the top 20 emergency room revenue codes in terms of visits, this code also had the highest total allowed amount at \$172.9 million. (Table 7A)
- There were no out-of-network services in New York for this reporting period.
- In 2023, the top DRG in terms of inpatient admissions was *807 Vaginal delivery w/o sterilization/D&C w/o CC/MCC*, with 2,225 inpatient admissions. In 2022, this was also the top DRG in terms of inpatient admissions totaling 2,462 admissions. (Table 2)
- In 2023, the top outpatient revenue code in terms of visits was *0301 Lab Chemistry*, with 283,197 visits. This compares to 277,653 visits in 2022. In 2022, the top outpatient revenue code in terms of visits was *0300 Laboratory* with 277,673 visits. (Table 3A)
- In 2023, the top emergency room revenue code in terms of visits was *0450 Emergency Room*, with 116,081 visits. In 2022, this was also the top emergency room revenue code in terms of visits with 117,602 visits. (Table 4A)

- In 2023, the hospital with the largest total allowed amount was NYU Langone Hospital at \$396.5 million. In 2022, this was also the hospital with the largest total allowed amount at \$374.1 million. (Table 1)

Summary of Findings (Supplemental Reporting on Diagnosis Codes)

- In 2023, of the top 20 outpatient diagnosis codes in terms of visits, *Z5111 Encounter for antineoplastic chemotherapy* had the highest total allowed amount at \$62.7 million. In 2022, of the top 20 outpatient diagnosis codes in terms of visits, this code also had the highest total allowed amount at \$61.6 million. (Table 6B)
- In 2023, of the top 20 emergency room diagnosis codes in terms of visits, *R0789 Other chest pain*, had the highest total allowed amount at \$19.4 million. This compares to \$14.7 million in 2022. In 2022, of the top 20 emergency room diagnosis codes by visits, *U071 COVID-19* had the highest total allowed amount at \$19.6 million. (Table 7B)
- There were no out-of-network services in New York for this reporting period.
- In 2023, the top outpatient diagnosis code in terms of visits was *Z1231 Encounter for screening mammogram for malignant neoplasm of breast*, with 31,871 visits. In 2022, this was also the top outpatient diagnosis code with 31,944 visits. (Table 3B)
- In 2023, the top emergency room diagnosis code in terms of visits was *R0789 Other chest pain* with 4,138 visits. This compares to 3,862 visits in 2022. In 2022, the top emergency room diagnosis code in terms of visits was *U071 COVID-19*, with 7,064 visits. (Table 4)

Table 1: Summary of 2022 and 2023 In-Network Allowed Amounts for NY Facilities – Non-Medicare Empire Plan Population

Table 1 provides the total allowed amounts for each facility in New York State for Inpatient Hospital Claims, Outpatient Hospital Claims, Emergency Room Claims, and Physician Services for Plan Years 2022 and 2023.

The total allowed amount was \$3.9 billion for 2022 and \$4.0 billion for 2023, an actual increase of \$113.7 million or 2.9%. Inpatient hospital claims represent the highest portion of spending for both 2022 and 2023, and decreased \$7.3 million from \$1.679 billion in 2022 to \$1.672 billion in 2023.

The top 5 hospitals in terms of total allowed amounts for 2022 are NYU Langone Hospital (\$374.1 million), Memorial Sloan Kettering Cancer Center (\$270.5 million), New York Presbyterian Weill Cornell Medical Center (\$234.8 million), Stony Brook University Hospital (\$215.3 million), and Long Island Jewish Medical Center (\$178.4 million). In 2023, the same top 5 hospitals had the highest total allowed amounts which are NYU Langone Hospital (\$396.5 million), Memorial Sloan Kettering Cancer Center (\$280.5 million), New York Presbyterian Weill Cornell Medical Center (\$246.1 million), Stony Brook University Hospital (\$238.3 million), and Long Island Jewish Medical Center (\$182.9 million).

¹ Data based upon Merative's admission methodology. All claims associated with admissions starting in the reporting year are included.

² Data based upon Merative's admission methodology and professional components associated with physician services occurring at the facility.

³ Facilities must have at least 20 patients and incurred at least \$10,000 in allowed amount to be included.

Table 2: Empire Plan Top DRGs by Admissions

Table 2 provides the total admissions by DRG for inpatient claims. The total admissions were 37,778 admissions for 2022 and 35,495 admissions for 2023, a decrease of 6.0%.

The top 5 DRGs for inpatient admissions for 2022 are *807 Vaginal delivery w/o sterilization/D&C w/o CC/MCC (2,462)*, *795 Normal newborn (2,329)*, *794 Neonate w other significant problems (2,158)*, *885 Psychoses (1,262)* and *788 Cesarean section w/o sterilization w/o CC/MCC (1,224)*. This compares to the top 5 DRGs for 2023 of *807 Vaginal delivery w/o sterilization/D&C w/o CC/MCC (2,225)*, *794 Neonate w other significant problems (1,987)*, *795 Normal newborn (1,878)*, *788 Cesarean section w/o sterilization w/o CC/MCC (1,209)*, and *885 Psychoses (1,129)*.

Table 3A: Empire Plan Top Revenue Codes for Outpatient Hospital (Non-Emergency Room) by Visits

Table 3A provides the visits by revenue code for outpatient hospital claims (non-emergency room). The total visits were 859,270 visits for 2022 and 816,462 visits for 2023, with an actual decrease of 43,328 visits or 5.0%.

The top 5 revenue codes for 2022 are *0300 Laboratory* (277,673 visits), *0301 Lab/Chemistry* (277,653), *0305 Lab/Hematology* (199,657), *0636 Drugs Requiring Detailed Coding* (168,829), and *0306 Lab/Bacteriology/Microbiology* (154,933). This compares to the top revenue codes for 2023 of *0301 Lab/Chemistry* (283,197 visits), *0300 Laboratory* (260,936), *0305 Lab/Hematology* (203,440), *0636 Drugs Requiring Detailed Coding* (177,357), and *0306 Lab/Bacteriology/Microbiology* (101,006).

Table 5: Empire Plan Top 20 DRGs by Hospital by Admissions

Table 5 provides admissions and allowed amounts for the Top 20 DRGs for inpatient claims by Hospital located in New York State.

As also seen in Table 2, Table 5 outlines the top 5 DRGs for inpatient admissions for 2022 and 2023. The associated facility allowed amounts for these DRGs in 2022 are *807 Vaginal delivery w/o sterilization/D&C w/o CC/MCC (\$42.6 million)*, *795 Normal newborn (\$17.4 million)*, *794 Neonate w other significant problems (\$20.9 million)*, *885 Psychoses (\$30.5 million)*, and *788 Cesarean section w/o sterilization w/o CC/MCC (\$29.8 million)*. In 2023, the top 5 DRGS for inpatient admissions with the associated facility allowed amounts are *807 Vaginal delivery w/o sterilization/D&C w/o CC/MCC (\$42.0 million)*, *794 Neonate w other significant problems (\$21.8 million)*, *795 Normal newborn (\$14.9 million)*, *788 Cesarean section w/o sterilization w/o CC/MC (\$30.8 million)*, and *885 Psychoses (\$33.1 million)*.

For the top DRGs of 2022, the top 5 hospitals in terms of facility allowed amounts are NYU Langone Hospital (\$32.2 million), North Shore University Hospital (\$23.7 million), Stony Brook University Hospital (\$23.5 million), Long Island Jewish Medical Center (\$19.4 million), and Vassar Brothers Medical Center (\$9.8 million). In 2023, the top 5 hospitals for the DRGs were NYU Langone Hospital (\$40.3 million), Stony Brook University Hospital (\$38.4 million), Long Island Jewish Medical Center (\$23.5 million), North Shore University Hospital (\$22.1 million), and New York Presbyterian Weill Cornell Medical Center (\$19.7 million).

Table 5 also provides further breakdowns of allowed amounts per admission and per day by both professional and facility.

Table 6A: Empire Plan Top 20 Revenue Codes for Outpatient Hospital (Non-Emergency) by Visits

Table 6A provides visits and allowed amounts by revenue code for outpatient claims by Hospital located in New York State.

The top 5 revenue codes for outpatient visits for 2022 are *0300 – Laboratory* (277,673 visits at \$37.6 million), *0301 - Lab/Chemistry* (277,653 visits at \$61.7 million), *0305- Lab/Hematology* (199,657 visits at \$9.6 million), *0636 - Drugs Requiring Detailed Coding* (168,829 visits at \$245.9 million) and *0306- Lab/Bacteriology/Microbiology* (154,933 visits at \$25.9 million). The top 5 revenue codes for outpatient visits for 2023 are *0301- Lab Chemistry* (283,197 visits at \$61.5 million), *0300- Laboratory* (260,936 visits at \$37.3 million), *0305- Lab/Hematology* (203,440 visits at \$9.5 million), *0636 - Drugs Requiring Detailed Coding* (177,357 visits at \$263.5 million) and *0306 - Lab/Bacteriology/Microbiology* (101,006 visits at \$18.0 million).

In 2022, for the top revenue code of *0300 - Laboratory*, the following hospitals were in the top 5 in terms of allowed amounts: NYU Langone Hospital (\$8.3 million), Cayuga Medical Center (\$2.5 million), Stony Brook University Hospital \$2.4 million), Long Island Jewish Medical Center (\$1.5 million), and North Shore University Hospital (1.0 million). In 2023, for the top revenue code of *0301- Lab Chemistry*, the following hospitals were in top 5 in terms of allowed amounts: Memorial Sloan Kettering Cancer Center (\$11.4 million), Stony Brook University Hospital (\$6.2 million), Montefiore Nyack Hospital (\$2.9 million), New York Presbyterian Weill Cornell Medical Center (\$2.8 million), and Albany Medical Center (\$2.8 million).

Table 6A also provides further breakdowns of allowed amounts per visit.

Table 6B: Empire Plan Top 20 Diagnosis Codes for Outpatient Hospital (Non-Emergency) by Visits

Table 6B provides visits and allowed amounts by diagnosis code for outpatient claims by Hospital located in New York State.

The top 5 diagnosis codes for outpatient visits for 2022 are *Z1231 Encounter for screening mammogram for malignant neoplasm of breast* (31,944 visits at \$22.0 million), *Z20822 Contact with and (suspected) exposure to COVID-19* (27,904 visits at \$6.1 million), *Z0000 Encounter for general adult medical examination w/o abnormal findings* (22,808 visits at \$8.6 million), *Z01812 Encounter for preprocedural laboratory examination* (13,173 visits at \$3.0 million), and *Z01818 Encounter for other preprocedural examination* (12,579 visits at \$5.8 million). The top 5 diagnosis codes for outpatient visits for 2023 are *Z1231 Encounter for screening mammogram for malignant neoplasm of breast* (31,871 visits at \$23.0 million), *Z0000 Encounter for general adult medical examination w/o abnormal findings* (23,084 visits at \$7.6 million), *I10 Essential (primary) hypertension* (13,160 visits at \$5.3 million), *Z1211 Encounter for screening for malignant neoplasm of colon* (9,713 visits at \$43.5 million), and *Z01818 Encounter for other preprocedural examination* (9,508 visits at \$5.8 million).

In 2022, for the top diagnosis code of *Z1231 Encounter for screening mammogram for malignant neoplasm of breast* the following hospitals were in the top 5 in terms of allowed amounts: St. Peters Hospital (\$1.5 million), Stony Brook University Hospital (\$1.4 million), Memorial Sloan Kettering Cancer Center (\$1.3 million), North Shore University Hospital (\$1.2 million) and White Plains Hospital (\$1.1 million). In 2023, for the top revenue code of *Z1231 Encounter for screening mammogram for malignant neoplasm of breast*, the following hospitals were in top 5 in terms of allowed amounts: St. Peters Hospital (\$1.5 million), Stony Brook University Hospital (\$1.4 million), White Plains Hospital (\$1.3 million), Memorial Sloan Kettering Cancer Center (\$1.3 million), and North Shore University Hospital (\$1.3 million).

Table 6B also provides further breakdowns of allowed amounts per visit.

Table 7A: Empire Plan Top 20 Revenue Codes for Emergency Room by Visits

Table 7A provides visits and allowed amounts by revenue code for emergency room claims by Hospital located in New York State.

The top 5 revenue codes for emergency room visits for 2022 are *0450 Emergency Room* (117,602 visits at \$173.0 million), *0456 Urgent Care* (7,270 visits at \$4.3 million), *0459 Other Emergency Room* (2,165 visits at \$4.6 million), *0301 Lab/Chemistry* (112 visits at \$47.5 million), and *0305 Lab/Hematology* (104 visits at \$18.6 million). The top 5 revenue codes for emergency room visits for 2023 are *0450 Emergency Room* (116,081 visits at \$197.8 million), *0456 Urgent Care* (6,688 visits at \$3.9 million), *0459 Other Emergency Room* (2,270 visits at \$4.8 million), *0301 Lab/Chemistry* (170 visits at \$70.6 million), and *0305 Lab/Hematology* (162 visits at \$31.1 million).

In 2022, for the top revenue code of 0450 Emergency Room, the following hospitals were in the top 5 in terms of allowed amounts: Stony Brook University Hospital (\$12.3 million), NYU Langone Hospital (\$10.6 million), Long Island Jewish Medical Center (\$10.1 million), South Shore University Hospital (\$5.8 million), and Huntington Hospital (\$5.5 million). In 2023, for the top revenue code of 0450 Emergency Room, the following hospitals were in the top 5 if terms of allowed amounts: Stony Brook University Hospital (\$13.7 million), Long Island Jewish Medical Center (\$11.3 million), NYU Langone Hospital (\$10.7 million), Huntington Hospital (\$8.1 million), and South Shore University Hospital (\$7.6 million).

Table 7A also provides further breakdowns of allowed amounts per visit.

Facilities must have at least 25 visits to be shown individually

Table 7B: Empire Plan Top 20 Diagnosis Codes for Emergency Room by Visits

Table 7B provides visits and facility allowed amounts by diagnosis code for emergency room claims by Hospital located in New York State.

The top 5 diagnosis codes for 2022 are *U071 COVID-19* (7,064 visits at \$19.6 million), *R0789 Other chest pain* (3,862 visits at \$14.7 million), *R079 Chest pain, unspecified* (3,029 visits at \$10.6 million), *J069 Acute upper respiratory infection, unspecified* (2,160 visits at \$3.9 million), and *R55 Syncope and collapse* (2,084 visits at \$7.2 million). The top 5 diagnosis codes for emergency room visits for 2023 are *R0789 Other chest pain* (4,138 visits at \$19.4 million), *R079 Chest pain, unspecified* (3,132 visits at \$11.3 million), *R55 Syncope and collapse* (2,227 visits at \$9.1 million), *U071 COVID-19* (2,027 visits at \$6.2 million), and *R519 Headache, unspecified* (1,910 visits at \$6.1 million).

In 2022, for the top diagnosis code of *U071 COVID-19*, the following hospitals were in the top 5 in terms of allowed amounts: Good Samaritan University Hospital (\$2.1 million), St. Francis Hospital & Heart Center (\$1.9 million), Stony Brook University Hospital (\$1.4 million), St. Joseph Hospital (\$1.3 million), and NYU Langone Hospital (\$1.1 million). In 2023, for the top diagnosis code of *R0789 Other chest pain*, the following hospitals were in the top 5 in terms of allowed amounts: NYU Langone Hospital (\$1.8 million), St. Francis Hospital & Heart Center (\$1.7 million), Stony Brook University Hospital (\$1.1 million), South Shore University Hospital (\$1.1 million), and Long Island Jewish Medical Center (\$974 thousand).

Table 7B also provides further breakdowns of allowed amounts per visit.
