INTRODUCTION

Local civil service agencies in New York State serve an important purpose in the administration of local government services and programs. They possess the legal authority as provided in Civil Service Law, section 17, to administer the merit system for all public sector employers under their agency's jurisdiction in accordance with the New York State Constitution, the Civil Service Law and their agency's civil service rules. Local government employers must work closely with their local civil service agencies to ensure effective merit system administration.

Each year, as required by section 26(1) of the Civil Service Law, New York State's local civil service agencies report their merit system activities to the State Civil Service Commission. The following is a summary of those reports for the 2025 calendar year.

All positions in local government are included in the civil service in New York State. The civil service is divided into the classified service and the unclassified service. Positions in the classified service include those in the competitive, non-competitive, exempt and labor classes. Positions in the unclassified service include elected positions, certain appointed positions and positions responsible for teaching and supervision of teaching in public schools and community colleges. Unclassified service positions are not included in this report.

The purpose of the merit system is to ensure that candidates receive positions in government based on their merit (through competitive examination where practicable) and receive permanent appointments to provide those employees with certain rights and protections. Competitive class employees who have received non-permanent appointments because they have not yet taken competitive examinations are referred to as "provisional". During the pandemic, testing schedules were inhibited and provisional rates rose.

Notable in the reports of local civil service agencies in 2025 is the reduction of provisional rates. From 2024 to 2025 the number of provisionally appointed employees at local civil service agencies decreased by 3,586 even while the number of overall employees increased by 13,358. Provisional rates are down to pre-pandemic levels in 2025.

The New York Hiring Emergency Limited Placement Program Statewide (NY HELPS) is a powerful contributing factor to these reductions for participating agencies. Traditionally, the titles filled under the NY HELPS Program have required job candidates to compete in a competitive examination to be considered for employment. For the duration of the temporary NY HELPS program certain titles are being filled via non-competitive appointment, which streamlines the appointment process. Participation in NY HELPS is optional for local civil service agencies. A list of participating agencies can be found at the end of this Summary on Table V. While the provisional rate has reduced overall, the agencies which participated in NY HELPS effectuated significantly greater reductions than those who did not participate.

Also included in this report is data from New York City Department of Citywide Administrative Services, the New York City School Construction Authority, and the City University of New York. These agencies do not use examinations developed by the NYS Department of Civil Service and are not eligible to participate in NY HELPS. The information for these agencies is not included in the compilation of totals for the Summary of Annual Reports; it is compiled in separate tables following the summarization of the totals for the 95 other municipal civil service agencies. (See Tables M through U).

OVERVIEW

Total Classified Service Employees

In 2025, there were 95 municipal civil service agencies (56 counties, 35 cities, 3 suburban towns and 1 regional commission) responsible for civil service administration for local government employees. The breadth of responsibilities for the local agencies varies based on the number of classified service employees under the agency's jurisdiction, which ranges from 152 to 48,195 total classified positions.

In 2025, New York State had a total of 376,509 employees serving in the classified service in local government. This reflects a 3.7% increase (13,358 employees) from 2024. The number of employees in the classified service under local civil service administration has increased in the last three reporting years (2023, 2024 and 2025).

The largest share, about 44%, of local government employees (165,172) work in school districts, followed by 23.1% (84,903) who are county employees and the third largest group at 13.1% (56,401) are town employees. The remainder work in cities, special districts, and villages.

Civil service was administered for these employees as follows:

Agency Type:	County	City	Regional	Town	Totals
Number of Civil Service Agencies:	56	35	1	3	95
Classified Employees in Local Government:	333,254	37,393	2,866	2,996	376,509

The classified service is made up of employees in the following four (4) jurisdictional classes, differentiated by how employees are selected for appointment:

Non-Competitive Class Employees

- Non-competitive class positions are those for which competitive examination has been determined impracticable, but for which a set of skills or body of knowledge is required to successfully perform the duties of the position and serves as the basis of an objective test of candidate fitness.
- The number of non-competitive employees in the classified service increased in 2025. There were 165,104 non-competitive class employees (an increase of 7,831 employees from 2024), or 4.74% more employees in this class.

Labor Class Employees

- Labor class positions are those for which no skill set, or body of knowledge exists to readily assess the relative merit and fitness of candidates for appointment.
- The number of labor class employees increased in 2025. There were 55,933 labor class employees (an increase of 443 employees from 2024), or 0.80% more employees in this class.

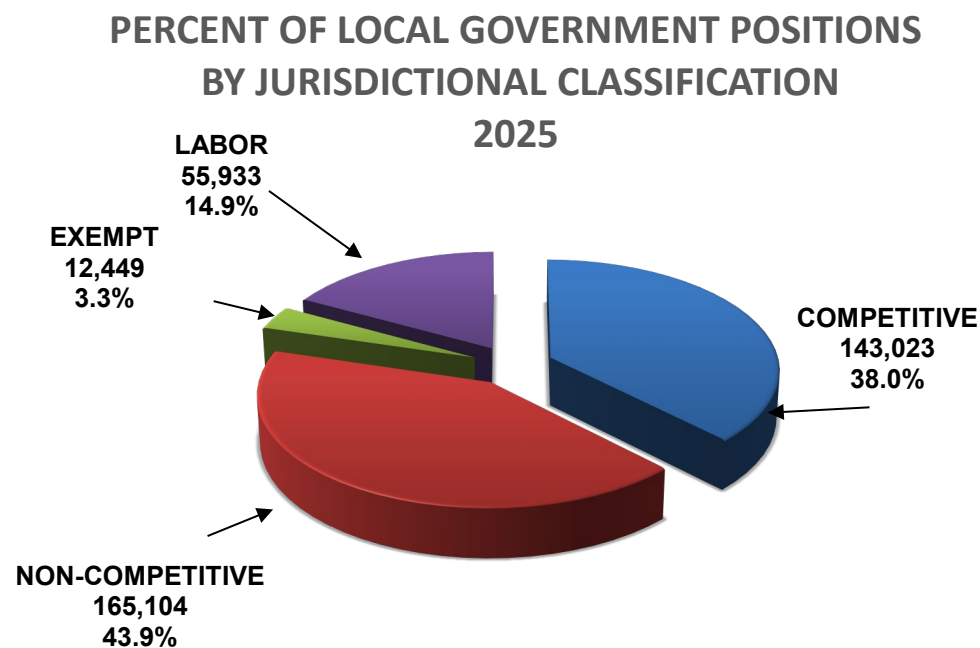

Exempt Class Employees

- Exempt class positions are those requiring attributes that cannot be measured by competitive or non-competitive means.
- In 2025, there were 12,449 exempt class employees reported, (a decrease of 154 employees from 2024), or 1.22% fewer employees in this class.

Competitive Class Employees

- Positions in the competitive class can be filled by competitive examination, transfer, reinstatement, or promotion.
- In 2025 the number of competitive class employees totaled 143,023 which is a 3.39% increase (4,688 employees) from the number of employees reported in the competitive class in 2024.

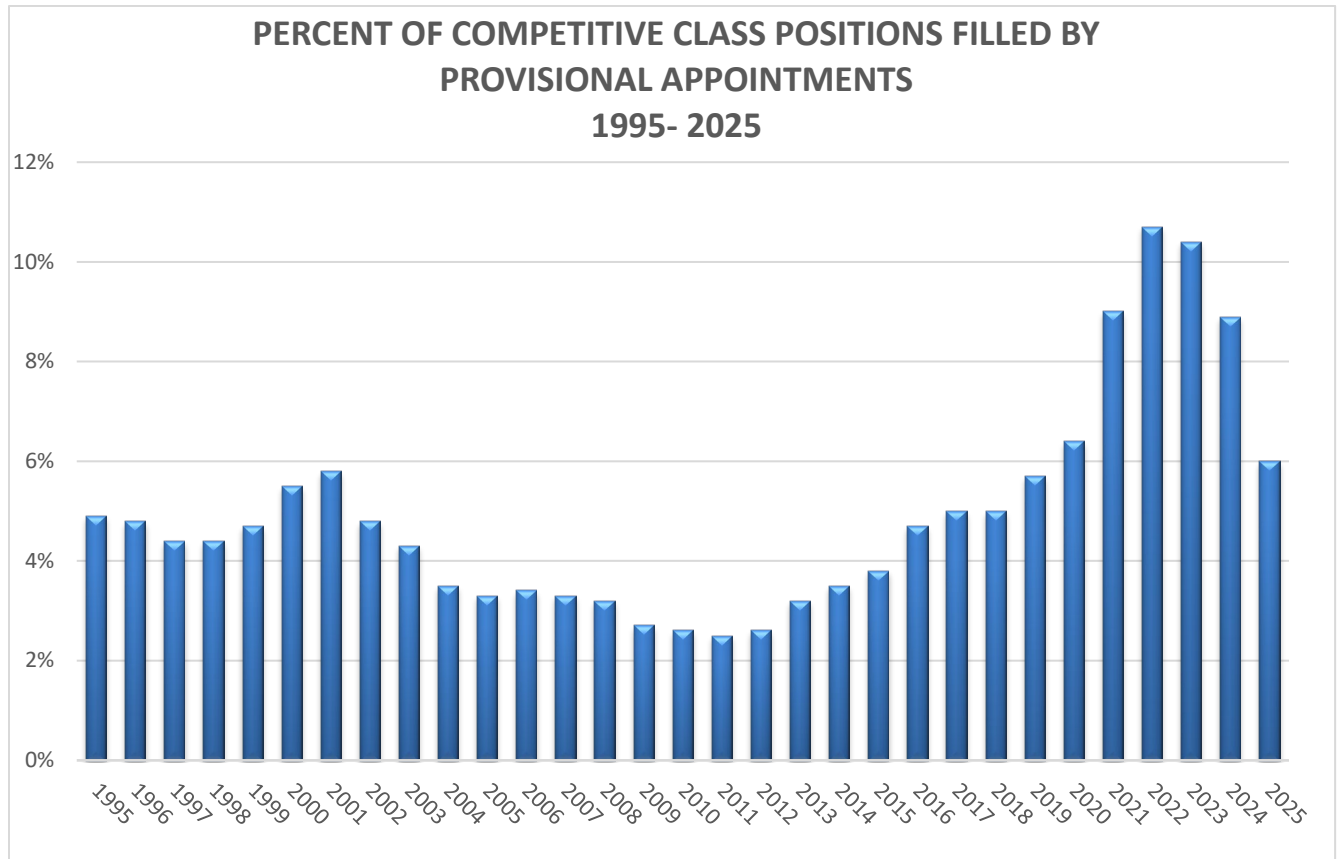

The following graph shows the percentage of local government positions by jurisdictional classification in 2025:

Provisional Appointments

- Among competitive class employees are those appointed provisionally pursuant to section 65 of the Civil Service Law, who have not yet taken an exam to measure their merit and fitness for the position.
- The total number of employees reported as serving provisionally in 2025 was 8,588 statewide, a 30.6% decrease of 3,780 employees from 2024.

- The average provisional rate for all agencies statewide was 6% in 2025, which is a decrease from 8.9% reported in 2024.
- Ideally, 5% or less of all competitive class employees will be provisional for each civil service agency.
- Provisional rate changes, by agency type, were as follows:
 - The county provisional rate decreased from 8.1 % to 5.1%.
 - The city provisional rate decreased from 13.7 % to 11.8 %.
 - The town provisional rate decreased from 10.7 % to 7.2 %.
 - The regional provisional rate decreased from 9.4 % to 4.5 %.

Forms of Civil Service Administration

Pursuant to Section 15 of the Civil Service Law, local governments may opt to administer civil service using either a local Civil Service Commission or a Personnel Officer. The following table shows the form of merit system administration chosen by local governments:

Types of Local Civil Service Agencies					
Type of Agency	County	City	Regional	Town	Total
Personnel Officers	48	4	0	2	54
Commission	8	31	1	1	41
Total Agencies	56	35	1	3	95

Examinations

As provided for in section 23(2) of the Civil Service Law, the New York State Department of Civil Service (NYSDCS) provides examination services to municipal civil service agencies upon request. Of the 87,254 total 2025 local examination candidates, 86.7% participated in examinations prepared by NYSDCS indicating a reliance by local civil service agencies on the Department's examination programs. The remaining 13.3% of candidates participated in examinations prepared by the local civil service agency, which is authorized by section 17(4) of the Civil Service Law.

Centralized Examinations

- Centralized exams are prepared, scheduled, and rated by the New York State Department of Civil Service. These exams account for 71.6% of all local government examination candidates.
- The implementation of NY HELPS has reduced the need for centralized examinations.
- In 2025, the New York State Department of Civil Service prepared and rated 5,347 examinations for local government jurisdictions, a decrease of 12.0% (726 examinations) from 2024.
- Local civil service agencies approved 62,508 candidates to take the 5,347 examinations held in 2025, a decrease of 4.4% (2,894 candidates) from 2024.

Decentralized Examinations

- Decentralized examinations are prepared by the NYSDCS but are scheduled and rated by local civil service agencies. These exams accounted for 15.1% of all local government exam candidates.
- The implementation of NY HELPS has reduced the need for decentralized examinations.
- In 2025, municipal civil service agencies used 371 decentralized examination programs. This was a 19.5% decrease (90 decentralized exams) from 2024.
- 13,156 candidates participated in decentralized examinations in 2025, which is a decrease of 25.7% of the number of candidates reported in 2024. All civil service agencies experienced a decrease in decentralized examination candidates from 2024.

Locally Prepared Examinations

- Locally prepared examinations are prepared, scheduled, and rated by local civil service agencies as provided for in section 17(4) of the Civil Service Law.

- In 2025, nine municipal civil service agencies independently prepared and rated 112 examinations (mostly for various public safety titles). This was a 7.4% decrease (9 examinations) from 2024. The 112 examinations were taken by 11,590 candidates, a decrease of 64.3% (20,838 fewer) from 2024.

SECTION I

Comparative Summary of Data-Charts and Graphs

Charts 1, 2 and 3 provide a compilation of the totals reported in 2025, summarizing employees in the classified service, examinations held and municipal civil service finances and personnel. Chart 1 summarizes the totals and percentages of employees in the classified service by jurisdictional classification for all counties, cities, towns, and regional civil service agencies. Chart 2 summarizes the totals of examinations held and the number of candidates tested for all counties, cities, towns, and regional civil service agencies. Chart 3 summarizes local government finances and personnel for all counties, cities, towns, and regional civil service agencies.

Charts 4, 5, 6 and Graphs 1, 2, and 3 show a comparison of data reported in 2025 to data reported since 1995. Graph 4 shows the number and percent of local government employment by civil division and by city and county civil service agency administration. Graph 5 shows the number and percent of local government positions in the classified service by jurisdictional classification.

SECTION II¹

Employees in the Classified Service

Tables A, B, C and D contain data on the number of employees by county, city, town and regional agencies. For each jurisdictional classification (i.e., competitive, non-competitive, exempt and labor), the number of employees and percentages of total classified service is provided.

SECTION III

Examinations and Decentralized Programs

Tables E, F, G and H show data on State prepared examinations, locally prepared examinations and examinations included in decentralized programs. The data for State prepared examinations show examinations held and the total number of candidates examined for each jurisdiction.

The data for locally prepared examinations show how many locally prepared and rated examinations were completed and the number of candidates rated.

¹ Sections II, III and IV of this report are arranged to facilitate comparisons among agencies of similar size by number of classified service employees in descending order. Cities whose civil service programs are administered by the county in which they are located are identified by a footnote referring to that county and are included in the county's totals.

The State Department of Civil Service makes 12 decentralized programs available to local agencies. They use these programs to administer and score examinations for positions in the title areas indicated below, in descending order of number of candidates from program.

The decentralized examination data in Tables E, F, G and H indicate the number of New York State Department of Civil Service decentralized programs used by each jurisdiction and how many candidates were rated. Numbers of separate examinations held within each decentralized program are not reflected.

Decentralized Program	# of Agencies Participating	# of Candidates from Program
Entry Level Clerical/Typist Series	60	3,175
Senior-Level Stenographer/Typist Series	33	2,300
Health Care Professionals Training and Experience Exam Series	44	1,851
Information Technology Training and Experience Exam Series	26	1,262
Entry Level Clerical/Typist Series	20	1,074
Entry Level Audit/Account Clerk Series	44	782
Entry -Level Caseworker Series	23	623
Entry-Level Custodian/Janitor Series	42	586
Water and Wastewater Treatment Plant Operator and Trainee Series	33	577
Entry-Level Public Health Technician Series	10	434
Other	8	244
Data Base Clerk Series	3	122
Medical and Public Health Social Worker Series	4	77
Attorney Training and Experience Exam Series	13	45
Data Entry Machine Operator Series	3	4
Totals:	366	13,156

Decentralized examinations are available for certain positions in local government. Such examinations are prepared by the New York State Department of Civil Service; however, local civil service agencies are responsible for administering them on either a fixed date or continuous recruitment basis whereby candidates are tested when they are available or needed. The decentralized exam programs help to minimize appointment delays for difficult to fill positions and provide flexibility in examination planning for the titles included. If such programs are properly managed, exams may be held in anticipation of vacancies and eliminate the need for provisional appointments to positions in these titles.

SECTION IV¹

Civil Service Finances and Personnel

The personnel and finance information outlined in this section includes the amount expended on all civil service-related activities such as position classification, payroll certification, examinations and roster record maintenance. Agencies were asked to report their expenditures for merit system administration and not to include costs related to other human resource functions such as administering health benefits.

Tables I, J, K and L contain personnel and fiscal information for municipal civil service agencies. For the purposes of this report, part-time employees are defined as employees working 20 hours or less per week on merit system administration responsibilities.

SECTION V

Summary of Classified Service Employees for New York City, CUNY, and the NYC School Construction Authority

Tables M, N and O contain the totals of employees in New York City, the City University of New York, and the New York City School Construction Authority by jurisdictional classification.

Tables P, Q and R contain the totals of completed examinations in New York City, the City University of New York, and the New York City School Construction Authority. These examinations are not prepared or rated by the New York State Department of Civil Service.

Tables S, T and U contain the totals of civil service finances and personnel in New York City, the City University of New York, and the New York City School Construction Authority.

NOTE: This information is not included in the compilation of totals for the Summary of Annual Reports.

SECTION VI

NY HELPS Program - Local

Table V contains a list of the name of every municipal civil service agency which was participating in the NY HELPS Program - Local as of December 31, 2025.

SECTION I
