SECTION V: COST PROPOSAL REQUIREMENTS

A. GENERAL:

The purpose of this section of the RFP is to set forth the duties and responsibilities required of the Offeror as regards to its cost quotes and to pose questions (i.e., the information and documentation required under the Confirmations and Required Submissions sections) concerning those duties and responsibilities. The Offeror's Cost Proposal must contain responses to all questions in the format requested, as well as, the cost exhibits required in Section C.1., below. The Cost Proposal evaluation will analyze the relative impact of each Offeror's Cost Proposal on the Programs' claims costs and administration costs and net savings that will result for the Offeror's Pharma Revenue Guarantee. Each Offeror may submit **ONLY ONE** Cost Proposal. Each Cost Proposal will be evaluated with the following goal in mind: the lowest possible total combined Program cost over the term of the Agreements resulting from this RFP while being responsive to the requirements of the RFP.

Informational Claim Data Files

To assist Offeror's in the development of their Cost Proposal, the Procuring Agencies have produced informational claim data files containing claims paid for the period January 1, 2017 through December 31, 2017 (DCS) and for the period January 1, 2016 through December 31, 2017 (NYSIF). The informational claim file data layouts for the DCS (Exhibit V.B) and NYSIF (Exhibit V.B.1) Programs can be obtained by prospective Offerors by following the instructions and meeting the requirements specified in Section III.F. of this RFP.

B. EVALUATION PROCESS – GENERAL

The evaluation of Cost Proposals will be conducted by applying each Offeror's cost quotes to normalized claim data. In particular, the evaluation will involve the following:

1. Analysis of the impact of proposed Guaranteed Discounts and dispensing fees, and the Offeror's per final paid claim Pharma Revenue Guarantee on combined Program claim costs;
2. Analysis of the impact of the Offeror's proposed Claims Administration Fees for administering the Programs; and
3. Analysis of the impact of the Offeror's proposed Vaccine Administration Fees.

C. ANALYSIS OF COST COMPONENTS

1. COST EXHIBITS TO COMPLETE

The Offeror must complete the following cost exhibits in strict accordance with the directions set forth in this RFP and submit them as part of their Cost Proposal:

Exhibit V.A Proposed Claim Reimbursement Quote

Exhibit V.D Specialty Pharmacy Program Dispensing Fees

Exhibit V.E Pharma Revenue Guarantee Quote

Exhibit V.F Claims Administration Fee(s) Quotes

Exhibit V.G Vaccination Administration Fees

2. COST EXHIBITS – INFORMATIONAL

The following exhibits are provided for informational purposes only in order to assist Offerors in submitting their Cost Proposal:

Exhibit V.B Layout Specifications for DCS Program Informational Claims Data File

Exhibit V.B.1 Layout Specifications for NYSIF Program Informational Claims Data File

Exhibit V.B.2 Designated Specialty Pharmacy Identifiers

Exhibit V.C Retail and Mail Service Pharmacy Generic Drugs – MAC List Costs Per GPI

Exhibit V.E.1 Documentation to Support Pharma Revenue Guarantee Quote

Exhibit V.H DCS Classified Generic Drugs

3. CLAIM INGREDIENT COST - GENERAL

The Procuring Agencies require full transparency of claim ingredient costs in the Retail Pharmacy Network. The Offeror is required to propose an overall Guaranteed Minimum Discount off the aggregate AWP of all Brand Drugs dispensed through the Retail Pharmacy Network. The Offeror is required to propose overall Guaranteed Minimum Discounts off the aggregate AWP of all Generic Drugs dispensed through the Retail Pharmacy Network and Mail Service Pharmacy Process. In addition, the Offeror is required to propose a Guaranteed Discount off the aggregate AWP of Brand Drugs dispensed to Enrollees/Claimants through the Mail Service Pharmacy Process and a Guaranteed Discount off the aggregate AWP of Specialty Drugs/Medications dispensed to Enrollees/Claimants through the Specialty Pharmacy Program. The Offeror must also propose a pricing methodology for Compound Drugs dispensed to Enrollees/Claimants that will be utilized for both retail claims and Mail Service Pharmacy Process claims. This section sets forth the Program requirements related to those guarantees.

a. Duties and Responsibilities – Claim Ingredient Cost - General

- (1) All proposed discounts and dispensing fees for Brand and Generic Drugs must be guaranteed for the entire term of the Agreements without qualification or condition. In addition, the selected Offeror's proposed Compound Drug pricing methodology must be guaranteed for the entire term of the Agreements without qualification or condition.

Confirmed.

- (2) All proposed discounts and dispensing fees for Specialty Drugs/Medications apply only to Enrollees/Claimants who participate in and have drugs dispensed through the Specialty Pharmacy Program and must be guaranteed for the entire term of the Agreements without qualification or condition.

Confirmed.

- (3) The Contractor shall utilize the Medi-Span field coded R028 entitled "AWP unit price" as the source of Average Wholesale Price (AWP) information for purposes of calculating Ingredient Cost.

Confirmed.

- (4) During the term of the Agreements, in the event the Medi-Span reporting service changes its methodology related to any of the information fields used in the Procuring Agencies' classification of Brand and Generic Drugs, or its methodology for coding drugs in connection with these information fields, the Contractor shall be obligated to inform the Procuring Agencies in writing of such changes within 30 Days of learning of such changes. Upon written notification, the Contractor and the Procuring Agencies will meet and agree in writing to any Brand and/or Generic Drug classification changes that may be necessary to enable each to maintain the same economic position and obligations as are set forth in the Agreements.

Confirmed.

- (5) If, during the term of the Agreements, industry events have caused the Contractor's source of AWP to become obsolete or no longer available, the Procuring Agencies and the Contractor shall agree on revised pricing terms. In no event shall the Programs' actual costs for drugs increase as the result of new pricing terms. The Contractor shall notify the Procuring Agencies in writing as soon as any information indicating a problem with the future use of the Contractor's AWP source is received. Within two weeks of the initial notification, the Contractor shall submit a detailed written proposal to the Procuring Agencies for effectively revising pricing terms including but not limited to a file containing the Contractor's pricing for all drugs dispensed during the prior six months utilizing the current AWP source and the Contractor's revised pricing for such drugs using the proposed methodology. The Contractor's Proposal should ensure continued alignment of the Contractor's interests with those of the Programs.

Confirmed.

- (6) To protect Enrollees/Claimants from disruption due to reclassification of drugs, during the term of the Agreements, and to assure that Offeror's Proposals are evaluated consistently, drugs shall be classified for pricing purposes in accordance with current Program Brand /Generic Drug classifications and in accordance with the definitions in the Contract Provisions, Section VII.A and VII.B (see Article I, entitled "Definition of Terms") of this RFP.

Confirmed.

- (7) Offerors must use the Programs current Brand/Generic classification methodology, which is primarily based on a particular set of Medi-Span indicators.

The following methodologies shall be used by Offerors and will be used by the Procuring Agencies in their evaluation of Offerors' Proposals to determine the appropriate Brand /Generic Drug classification so as to comply with the contractual definitions set forth in the Contract Provisions, Sections VII.A and VII.B (see Article I, entitled "Definition of Terms") of this RFP.

Section V: Cost Proposal
Requirements

(a) Classification Methodology General

- (i) **Drugs shall be classified for pricing purposes during the term of the Agreements in accordance with the Programs' classification determinations based on the definitions contained in Section VIII of this RFP. No later than November 15th of each Plan Year, the Contractor shall submit for the Programs' written approval a file containing all NDCs dispensed through the Program during the prior year and the classification of each NDC derived from application of the Contractor's electronic classification process. To the extent the Contractor's electronic process results in classifications inconsistent with the Programs' determinations, the Contractor commits to modify its classification methodology to replicate the results of the Programs' determination, including the steps set forth in V.C.3.a(7)(a)(ii) below. The Programs' determination shall be final.**

Confirmed.

- (ii) **To the extent the electronic process fails to comprehensively replicate drug classifications specified by the DCS Program in Exhibit B, the Requests for Proposals entitled "Pharmacy Benefit Services for The Empire Plan, Excelsior Plan, Student Employee Health Plan, and the New York State Insurance Fund Workers' Compensation Prescription Drug Programs," of this RFP consistent with the definitions of Brand and Generic Drugs set forth in Section VIII of this RFP, the Contractor agrees to modify to the extent possible its electronic processing system before January 1, 2019, including setting appropriate Copayment levels as required, and to undertake all other necessary manual steps to ensure that the result of the prescription processing process from a cost basis to both Enrollee and Plan is in accordance with the DCS determination of classification.**

Confirmed.

- (iii) **The Contractor shall conduct a year end reconciliation each Plan Year to ensure that the claim amount charged to the Plan is in accordance with the definition of Brand and Generic Drugs set forth in Section VIII this RFP. The reconciliation will include claims paid during the Plan Year and is to be completed by February 15th of the following year. If DCS's review of the Contractor's reconciliation indicates an adjustment is required, then DCS reserves the right to make an adjustment to the Contractor's submitted reconciliation. The Contractor shall credit or debit the Plan as applicable no later than 30 Days following the date of reconciliation and reflect the result in the Annual Financial Statement.**

Confirmed.

(b) Brand Name Drug Determination Methodology

A drug labeled with the identifier "M" or "O" in the Medi-Span Multi-Source code shall be processed as a Brand Drug unless the same drug is identified as "G" in the Medi-Span Brand-Name code.

In addition to drugs identified as "M" or "O" in the Medi-Span Multi-Source code, a drug that is identified as "N" in the Medi-Span Multi-Source code shall be designated a Brand Drug if the drug is identified as "T" in the Medi-Span Brand-Name code.

Confirmed.

(c) Generic Drug Determination Methodology

A drug identified as “Y” in the Medi-Span Multi-Source code shall be designated as a Generic Drug.

In addition to drugs identified as “Y” in the Medi-Span Multi-Source code, a drug identified as “N” in the Medi-Span Multi-Source Code shall be designated as a Generic Drug if the corresponding Medi-Span Brand-Name code for such drug is “B” or “G.”

In addition, a drug identified as “G” in the Medi-Span Brand-Name Code shall be designated as a Generic Drug, regardless of the identifier designated in the Medi-Span Multi-Source code.

Confirmed.

As stated in the definition, as set forth in the Contract Provisions, Sections VII.A and VII.B, (see Article I, entitled “Definition of Terms”) of this RFP, no drug approved through an FDA Generic Drug approval process, including any FDA approval process established for approving generic equivalents of biologic drugs, shall be processed as a Brand Drug regardless of the assigned Medi-Span indicators or the result of the Offeror/Contractor’s proposed methodology for determining the appropriate classification of a drug. Furthermore, the DCS Program classifies a small list of drugs as Generic Drugs that are classified by Medi-Span as Brand Drugs. See Exhibit V.H for listing of these Generic Drugs. The drugs listed in Exhibit V.H must be classified as Generic Drugs during the term of the agreement with DCS, unless a change to the list is requested by DCS in writing.

Exhibit III.E Current Brand-Generic Classification presents a listing of the NDC’s dispensed to DCS Program Enrollees/Claimants in 2017 and the required brand name/generic drug classification assigned to each NDC.

Confirmed.

(d) Compound Drug Determination Methodology

A Compound Drug is a drug with two or more ingredients (solid, semi-solid or liquid), where the primary active ingredient is an FDA approved covered drug with a valid NDC requiring a Prescription for dispensing, combined together in a method specified in a Prescription issued by a medical professional. The end result of this combination must be a Prescription medication for a specific patient that is not otherwise commercially available in that form or dose/strength from a single manufacturer. The Prescription must identify the multiple ingredients in the Compound, including active ingredient(s), diluent(s), ratios or amounts of product, therapeutic use and directions for use. The act of compounding must be performed or supervised by a licensed Pharmacist. Any commercially available product with a unique assigned NDC requiring reconstitution or mixing according to the FDA approved package insert prior to dispensing will not be considered a Compound Prescription by the Programs.

Confirmed.

- (8) The selected Offeror shall be required to submit a file containing the NDC's dispensed to Enrollees/Claimants in 2017 and the resulting brand/generic classification of each NDC derived from application of the Contractor's electronic classification process. If, at that time, the Procuring Agencies determine that the selected Offeror's proposed classification methodology does not replicate the results of the Programs' methodology for determining the brand name/generic classification of drugs, the selected Offeror must modify its classification methodology to replicate the results of the Programs' methodology, either automatically through the claims adjudication system or through an annual claims reconciliation process. The Procuring Agencies determination shall be final.

Confirmed.

- (9) The Programs' Lesser of Logic, as defined in Section VIII (Glossary of Terms), shall apply to all claims processed under the Programs.

Confirmed.

b. Confirmation – Claim Ingredient Cost - General

- (1) Offerors must confirm their agreement to perform/fulfill and comply with the Duties and Responsibilities contained within "Claim Ingredient Cost - General" section above including, but not limited to:

- (a) The guarantee that all discounts and dispensing fees shall remain in effect during the entire term of the Agreements, without qualification or condition;

Confirmed.

- (b) Pricing for Specialty Drugs/Medications, shall apply only to Enrollees/Claimants who participate in and fill a prescription through the Specialty Pharmacy Program. Specialty Drugs/Medications for all other Enrollees/Claimants and/or claims shall be priced using the Offeror's proposed pricing for retail and mail service drugs;

Confirmed.

- (c) AWP will be determined by Medi-Span utilizing the field coded R028 entitled "AWP unit price;"

Confirmed.

- (d) Confirmation that if the Procuring Agencies determine that industry events have caused the Contractor's proposed source of AWP to become inflated against new industry standards, obsolete, or unavailable, the Contractor agrees to negotiate revised pricing terms ensuring that the Programs' actual costs for drugs in no event increase as the result of new pricing terms, in accordance with Section V.C.3.a.(5) above;

Confirmed.

- (e) Drugs will be classified as brand name, generic, or compound consistent with Section V.C.3.a.(7) above;

Confirmed.

- (f) Prescriptions shall be processed consistent with the Programs' classification of drugs on an NDC basis. Confirmation that, if selected, the Offeror agrees to submit a file containing the NDC's dispensed to Enrollees/Claimants in 2017 and the resulting brand/generic classification of each NDC utilizing the Offeror's proposed methodology for determining the brand name/generic classification of drugs. Confirmation that, if the Procuring Agencies determine that the Offeror's proposed classification methodology does not replicate the results of the Programs' methodology for determining the brand name/generic classification of drugs, the Offeror shall agree to modify its classification methodology to replicate the results of the Programs' methodology either automatically through the claims adjudication system or through an annual claims reconciliation process; and

Confirmed.

- (g) Applying the Programs' Lesser of Logic to all claims.

Confirmed.

c. Required Submission – Claim Ingredient Cost - General

- (1) Confirm the Offeror's agreement to utilize the Medi-Span field coded R028 entitled "AWP unit price" as the source of AWP information for calculating Ingredient Cost.

Confirmed.

4. MANDATORY GENERIC SUBSTITUTION AT RETAIL AND MAIL

Encouraging utilization of cost-effective clinically equivalent Generic Drugs is an integral component of the Programs' benefit design. To promote the use of Generic Drugs, the Programs have a mandatory generic substitution requirement that mandates that FDA approved A-rated Generic Drugs and authorized Generic Drugs be substituted for equivalent Brand Drugs or the Enrollee/Claimant pays the applicable Level 3 Drug Copayment plus an "Ancillary Charge." Under the NYSIF Program, there are no Copayments or Ancillary Charges collected from the Enrollee/Claimant. The Offeror must apply this requirement on a consistent basis at the retail network pharmacies and through the Mail Service Pharmacy Process.

a. Duties and Responsibilities

To ensure strict adherence to the Programs' Mandatory Generic Substitution Requirement and protect the financial interests of the Programs, the Contractor shall be required to:

- (1) Apply mandatory generic substitution to all specific NDC's of Brand Drugs for which there is an FDA- approved A-rated Generic Drug (including but not limited to, Generic Drugs rated AA, AB, AN, AO, AT, etc.) or an authorized Generic Drug as permissible by NYS law. Retail network pharmacies shall comply with all state laws related to mandatory generic substitution. The Programs' mandatory generic substitution provisions shall apply to any claim where the A-rated or authorized Generic Drug is required or permitted to be substituted under state law. Mandatory generic substitution provisions will not apply to B-rated or unrated Generic Drugs or in the unlikely event that state law prohibits dispensing of the A-rated or authorized Generic Drug.

Confirmed.

Section V: Cost Proposal
Requirements

- (2) **(Exclusive to DCS) Establish the Ancillary Charge by calculating the difference in the Discounted Ingredient Cost of the Brand Drug and the Discounted Ingredient Cost of the equivalent A-rated Generic Drug or authorized Generic Drug based on the Programs' MAC List price assigned when a Brand Drug for which an A-rated or authorized Generic Drug has been introduced in the market is dispensed to the Enrollee. In such cases, the Enrollee shall be responsible for paying the applicable Level 3 Drug Copayment plus Ancillary Charge not to exceed the cost of the drug to the DCS Program. The Ancillary Charge shall be assessed even in the event a doctor has specifically directed a Pharmacist to dispense the Brand Drug rather than the A-rated or authorized Generic Drug through DAW notation.**

Confirmed.

- (3) **Monitor the pharmaceutical industry on behalf of the Procuring Agencies to identify Generic Drugs expected to enter the market. Prior to the actual introduction of the Generic Drug to market, the Contractor shall inform the Procuring Agencies of anticipated shipping dates of the first generic introduced into the market for one or more strengths of a particular Brand Drug.**

Confirmed.

- (4) **(Exclusive to DCS) Following the first shipment of a first Generic Drug for one or more strengths of a particular Brand Drug, the Contractor shall be required to:**
- (a) **Inform the Department as soon as practicable but in no event later than fourteen (14) Days after the first date of shipment, (from manufacturer to wholesaler or retailer) of the financial impact of enforcing mandatory generic substitution via the "MAC Alert Notice" detailed in Section IV of this RFP under "Reporting;"**

Confirmed.

- (b) **For those drugs that will result in a lower net cost to the Programs by enforcing mandatory generic substitution, the Contractor shall provide the "MAC Alert Notice" as described in (a) above. The Contractor shall add the GPI to the Programs' MAC List and begin enforcement as soon as practicable but in no event later than fourteen (14) Days after the first date of shipment provided that the participating retail network pharmacies are able to obtain the Generic Drug;**

Confirmed.

New York Department of Civil Service and State Insurance Fund

Section V: Cost Proposal
Requirements

July 13, 2018

- (c) For those drugs that could potentially result in a higher net cost to the Programs by enforcing mandatory generic substitution, the Contractor shall provide the “MAC Alert Notice” as described in (a) above. The Contractor shall also notify the Department whether the drug should be included in the Brand for Generic strategy. The Department, in its sole discretion, may determine that enforcement is contrary to the best financial interests of the Programs and shall inform the Contractor whether Mandatory Substitution shall be applied. If the Contractor does not receive a formal response to the information provided via the “MAC Alert Notice,” enforcement shall commence and the GPI shall be added to the Programs’ MAC List effective on the 21st day after shipment of the first A-rated generic equivalent drug or authorized Generic Drug provided that the pharmacies are able to obtain the Generic Drug. In the event the Department decides to exercise its discretion not to enforce mandatory generic substitution, the Contractor shall apply MAC pricing to the Generic Drug when dispensed;

Confirmed.

- (d) To assist the Department in determining whether or not mandatory generic substitution should be enforced within 21 Days, the Contractor shall survey its Retail Pharmacy Network to identify the pharmacies that are unable to obtain the new Generic Drug within 21 Days. The Contractor shall submit this information to the Department and provide any additional information as required by the Department to reach a determination. The DCS, in its sole discretion, shall determine based on such evidence how the Programs’ mandatory generic substitution provisions will be applied. The Programs will not consider and the Contractor shall not act on availability information provided by third party sources, including but not limited to Medi-Span;

Confirmed.

- (e) For preferred Brand Drugs for which an A-rated or authorized Generic Drug has been introduced into the market for one or more strengths of a Brand Drug, the status of the Brand Drug shall be changed from preferred to Non-Preferred status concurrent with the commencement of the enforcement of mandatory generic substitution. Enrollees prescribed strengths of the Preferred Brand Drug for which an A-rated or authorized Generic Drug has been introduced shall receive the Generic Drug and be charged the Level 1 Copayment. If the prescribing Physician requires that the Brand Drug be dispensed, the Enrollee will be charged the applicable Level 3 Drug Copayment and Ancillary Charge. Enrollees prescribed strengths of the preferred Brand Drug for which no A-rated or authorized Generic Drug has been introduced shall continue to receive the prescribed drug at the applicable Level 2 Copayment and mandatory generic substitution provisions shall not apply;

Confirmed.

New York Department of Civil Service and State Insurance Fund

Section V: Cost Proposal
Requirements
July 13, 2018

- (f) **For Non-Preferred Brand Drugs for which an A-rated or authorized Generic Drug has been introduced into the market for one or more strengths of a Brand Drug, the status of the Brand Drug shall remain Non-Preferred for all strengths. Concurrent with enforcement of mandatory generic substitution, Enrollees prescribed strengths of the Non-Preferred Brand Drug for which an A-rated or authorized Generic Drug has been introduced shall receive the Generic Drug and be charged the Level 1 Copayment. If the prescribing Physician requires that the Brand Drug be dispensed, the Enrollee will be charged the applicable Level 3 Drug Copayment and Ancillary Charge. Enrollees prescribed strengths of the Non-Preferred Brand Drug for which no A-rated or authorized Generic Drug has been introduced shall continue to receive the prescribed drug at the applicable Level 3 Drug Copayment and mandatory generic substitution provisions shall not apply; and**

Confirmed.

- (g) **The Contractor shall cause the dispensing Network Pharmacy to inform the Enrollee prior to dispensing the Brand Drug, that an Ancillary Charge would be applied in addition to the applicable Level 3 Drug Copayment. If the prescribing Physician requires the Brand Drug be dispensed, the Contractor shall cause the dispensing Network Pharmacy to collect the applicable Level 3 Drug Copayment plus the calculated Ancillary Charge. However, under no circumstances shall the Enrollee's total cost exceed what the actual cost of the Brand Drug would have been to the DCS Program after application of the Programs' Lesser of Logic provisions.**

Confirmed.

- (5) **Charge the Programs based on the Programs' MAC List price assigned to the GPI of the dispensed Brand Drug plus the applicable dispensing fee as set forth in "Programs' Claims Reimbursement" of the Contract Provisions, Sections VII.A and VII.B of this RFP;**

Confirmed.

- (6) **Receive written approval from the Procuring Agencies for any and all exceptions to the Programs' mandatory substitution provisions, beyond the approval of specific generic appeals or approval through the Medical Exception Program. Following commencement of mandatory generic substitution, the Contractor must receive Procuring Agencies' written approval prior to suspending enforcement of the Programs' mandatory generic substitution provisions; and**

Confirmed.

- (7) **Maintain an electronic claims processing system capable of obtaining information from Network Pharmacies to ensure consistent enforcement of the Programs' mandatory generic substitution provisions. In particular, the claims processing system must be capable of capturing information concerning the availability of the Generic Drug at the Network Pharmacy submitting the electronic claim. If a Generic Drug is available to be dispensed by the Network Pharmacy, the Programs' mandatory generic substitution rules shall be applied. If the Network Pharmacy does not have the A-rated or authorized Generic Drug in stock, mandatory generic substitution provisions will not apply and the Enrollee/Claimant shall receive the Brand Drug, be charged the applicable Generic Drug Copayment and the Plan charged based on Generic Drug pricing. Currently, the Programs reject, with appropriate messaging, claims for Brand Drugs subject to mandatory generic substitution that are submitted with a DAW 0-code and require resubmission of the claim (since a DAW 0-code provides no indication of Generic Drug availability in the Network Pharmacy). Similar rules can be applied to other DAW submission codes as necessary to ensure consistent, accurate application of the Programs' mandatory generic substitution requirements.**

Confirmed.

b. Confirmation - Mandatory Generic Substitution at Retail and Mail

Confirm the Offeror's agreement to perform/fulfill and comply with the Duties and Responsibilities contained within Section V.C.4.a "Mandatory Generic Substitution at Retail and Mail" section above.

Confirmed.

5. RETAIL PHARMACY NETWORK CLAIMS

The cost of all Covered Drugs dispensed at network pharmacies shall be charged to the Programs consistent with the requirements set forth in this RFP, including but not limited to the Lesser of Logic set forth in Section V.C.3.a.(9) above and Pass-through Pricing.

Confirmed.

General Provisions

The following general provisions apply to all claims submitted by Retail Pharmacy Networks:

a. Duties and Responsibilities - Retail Pharmacy Network Claims - General

- (1) **The Contractor shall ensure that the Network Pharmacy collects the appropriate Copayment specified in Exhibit II.C DCS / NYSIF Prescription Drug Program Copayment Matrix (plus Ancillary Charge, if applicable) from the Enrollee/Claimant and will charge the Programs the Discounted Ingredient Cost as determined through the application of the Lesser of Logic detailed in Section V.C.3.a.(9) above plus the Contractor's applicable pharmacy contracted dispensing fee minus the applicable Copayment for all drugs dispensed through a Network Pharmacy.**

Confirmed.

Section V: Cost Proposal
Requirements

- (2) **(Exclusive to DCS) If the current Discounted Ingredient Cost plus the dispensing fee or the submitted cost is less than the applicable Copayment, then the Contractor shall ensure that the Network Pharmacy charges the Enrollee the lesser amount.**

Confirmed.

- (3) **The Contractor shall implement a control process at point of service intended to protect the Programs from any inflated AWP costs associated with “repackaged” drugs charged to the Programs.**

Confirmed.

b. Confirmation – Retail Pharmacy Network Claims - General

Confirm the Offeror’s agreement to perform/fulfill and comply with the Duties and Responsibilities in Section V.C.5. of this RFP, under subheading “General Provisions.”

Confirmed.

c. Required Submission – Retail Pharmacy Network Claims - General

- (1) **The Offeror is required to describe the process it proposes to utilize to ensure that the Programs’ financial interests are protected from any inflated AWP costs associated with “repackaged” drugs charged to the Program.**

We block retail claims submitted with repackaged NDCs so our retail network pricing logic is based on originator NDCs only. For retail, mail service and specialty prescriptions, AWP is based on the actual package size of the full 11-digit NDC dispensed and serves as the basis for the AWP and discount calculation.

Retail Pharmacy Network Brand Name Drug Pricing

a. Duties and Responsibilities – Brand Name Drug Pricing

- (1) **The Contractor shall charge the Program utilizing Pass-through Pricing for all Brand Name Drugs dispensed to Enrollees/Claimants through the Network Pharmacies. The Contractor’s pharmacy contracted discount off of AWP and pharmacy contracted dispensing fee(s) for Brand Drugs shall be applicable to the aggregate AWP for all Brand Drugs dispensed to Enrollees/Claimants from a Network Pharmacy;**

Confirmed.

Section V: Cost Proposal
Requirements

July 13, 2018

- (2) **Guarantee an overall minimum discount off of the aggregate AWP for all Brand Drugs dispensed at Retail Network Pharmacies as defined in the RFP. The Contractor shall guarantee the Programs that its management of Brand Drug costs dispensed by pharmacies shall result in each Program achieving the Contractor's overall Guaranteed Minimum Discounts during each Program Year as proposed by the Contractor in its Proposal. The discounts achieved off of the aggregate AWP for all Brand Drugs as a result of Pass-through Pricing will be calculated utilizing the following formula: 1 minus (Sum of Ingredient Costs of dispensed Brand Drugs divided by sum of the AWP of dispensed Brand Drugs). The aggregate discount calculation will be based on Final Paid Claim Pharmacy Prescriptions filled with a Brand Drug including Empire Plan Medicare Rx claims. Claims submitted for secondary payer consideration, Compound Drug claims, powders, subrogation claims, long term care pharmacy claims, nursing home pharmacy claims, Veterans Affairs hospital pharmacy claims, NYSIF Program non-network claims and claims submitted by governmental entities must be excluded from the aggregate discount calculation. In addition, claims with a calculated AWP discount greater than 50% must be verified by the Offeror that the quantity and the validity of the calculated discount is correct, subject to the approval of the Procuring Agencies; and**
- Confirmed.
- (3) **If the overall aggregate discounts obtained, as calculated utilizing the formula set forth in the prior paragraph, are less than the Guaranteed Minimum Discounts proposed, the Contractor shall reimburse each Program the difference between the Ingredient Cost each Program was charged utilizing Pass-through Pricing and the Ingredient Cost the Programs would have been charged if the Guaranteed Minimum Discount off of the aggregate AWP had been obtained. The Programs will be credited annually for this difference in Ingredient Cost. The Programs shall retain the benefit of any cost savings, in excess of the Contractor's Guaranteed Minimum Discounts off the aggregate AWP for all Brand Drugs dispensed by pharmacies.**
- Confirmed.
- (4) **This calculation shall be performed for each Program Year based on claims paid for each incurred year. Specifically, the Contractor shall perform a reconciliation to include claims incurred in each Program Year and paid through June of the following Program Year. The reconciliation shall be submitted to the Procuring Agencies on July 31st. Contractor shall pay/credit each Program the applicable amount, if any, within 30 Days of the reconciliation due date. If the Procuring Agencies' review of the Contractor's calculations indicates an adjustment to the calculation is required, then the Procuring Agencies reserve the right in their sole discretion to make an adjustment to the Contractor's calculations and adjust the amount due to the Programs or to the Contractor.**
- Confirmed.
- (5) **The Programs shall retain the benefit of any cost savings, in excess of the Contractor's Guaranteed Minimum Discount off the aggregate AWP set forth in duties and responsibilities of Section V.C.5 entitled "Retail Pharmacy Network Claims." Any shortfall in the Guaranteed Minimum Discount set forth in Section V.C.5. cannot be recovered by the Contractor in subsequent years.**

Confirmed.

b. Confirmation – Brand Name Drug Pricing

- (1) **Confirm the Offeror’s agreement to perform/fulfill and comply with the Duties and Responsibilities in Section V.C.5. of this RFP, under subheading “Retail Pharmacy Network Brand Name Drug Pricing.”**

Confirmed.

- (2) **The Offeror agrees that it has an obligation to maximize the discounts achieved on behalf of the Program for Brand Drugs dispensed by network pharmacies.**

Confirmed.

c. Required Submission – Brand Name Drug Pricing

The Offeror is required to provide its Guaranteed Minimum Discount in Exhibit V.A as a percent off of the aggregate AWP for all Brand Drugs dispensed at Network Pharmacies in Exhibit V.A.

Confirmed.

Retail Pharmacy Network Generic Pricing

a. Duties and Responsibilities – Generic Pricing

- (1) **The Contractor shall charge the Programs utilizing Pass-through Pricing for all Generic Drugs dispensed to Enrollees/Claimants through the Network Pharmacies.**

Confirmed.

- (2) **To maximize savings for the Programs on Generic Drugs dispensed through a Network Pharmacy, the Contractor is required to:**

- (a) **Create and maintain a single, Programs specific Maximum Allowable Cost (MAC) List called the Programs’ MAC List for Retail and Mail Service Pharmacies, setting the maximum price the Programs will be charged, and the amount the dispensing Network Pharmacy will be paid, for the Ingredient Cost for the drugs required to be included on the Programs’ MAC List. The MAC price assigned shall not exceed the Discounted Ingredient Cost to the Programs achieved through Pharmacy submitted pricing or pricing achieved by using the Contractor’s highest contracted Retail Pharmacy Brand Discount off of AWP applied to the AWP of the dispensed Generic Drug.**

NOTE: Each Procuring Agency, respectively, reserve its rights for the Contractor to create and maintain a second MAC List should industry or programmatic events necessitate the use of a second list. The use of a second MAC List will be at the sole discretion and approval of each Procuring Agency, respectively. The Guaranteed Minimum Discounts and the overall maximum dispensing fee guarantees for generic drugs will be subject to negotiation if a second MAC List is utilized.

Requirements

- (b) Assign a MAC price to all NDCs of drugs included within a GPI, including NDCs of all Brand Drugs, containing an A-rated or authorized Generic Drug form of the original Brand Drug in the GPI. The Contractor shall add the GPI to the Programs' MAC List and set a MAC price for the GPI in accordance with Section V.C.4.a. The provisions of these paragraphs require that MAC pricing be applied in no event later than 21 Days after the first shipment of the first Generic Drug from the manufacturer to a wholesaler or retailer. All A-rated or authorized Generic Drugs shall be placed on the MAC List in all instances including, but not limited to circumstances in which the Department in its sole discretion decides not to enforce mandatory generic substitution of the Brand Drug in that GPI. There shall be one MAC price applicable to all NDCs included in the GPI on the Programs' MAC List. However, depending on particular market factors, it may be in the best interests of the Programs, and therefore appropriate, for more than one MAC price to be assigned within a GPI. Such situations would require that the Contractor provide any information the Procuring Agencies deem necessary to support such action and obtain prior written approval from the Procuring Agencies;

Confirmed.

- (c) Assign a MAC price to the NDCs of B-rated or unrated Generic Drugs included within a GPI that does not include an A-rated or authorized Generic Drug. The Offeror shall add the GPI to the Programs' MAC List and set a MAC price for the Generic Drug NDCs included in the GPI as soon as practicable, but in no event later than 21 Days after the first shipment of the first Generic Drug from the manufacturer to a wholesaler or retailer concurrent with transmission of the MAC alert notice. The Contractor shall not apply the MAC price to the NDC(s) for Brand Drugs dispensed in the GPI and shall not enforce the Programs' mandatory generic substitution provisions for Brand Drugs dispensed in this GPI. There shall be one MAC price applicable to all Generic Drug NDCs included in the GPI on the Programs' MAC List. However, depending on particular market factors, it may be in the best interests of the Programs, and therefore appropriate, for more than one MAC price to be assigned within a GPI. Such situations would require that the Contractor provide any information the Procuring Agencies deem necessary to support such action and obtain prior written approval from the Procuring Agencies;

Confirmed.

- (d) Charge the Programs for Generic Drugs not on the MAC list dispensed, utilizing pass-through pricing at the Contractor's pharmacy contracted discount applied to the AWP of the dispensed Generic Drug as proposed by the Contractor in its Proposal. The only Generic Drugs not on the MAC list will be Generic Drugs included in GPIs required to be on the Programs' MAC List but which have not yet been assigned a MAC price within the required time frame;

Confirmed.

- (e) The Contractor shall inform the Department of any market based condition which makes the strict compliance with paragraphs (a)-(d) above contrary to the financial interests of the Programs. The Contractor shall agree that, in cases where the Department, at its sole discretion, determines that the above requirements are contrary to the best financial interests of the Programs, the Department may waive such requirements;

- (h) **Provide to the Department full access to the Programs' MAC List used to price Generic Drugs dispensed by Network and Mail Service Pharmacies for the Programs. Following selection, the successful Offeror shall manage the content of the Programs' MAC List consistent with the requirements of the RFP. Prices assigned to required new additions to the Programs' MAC List shall be equivalent to the selected Offeror's most aggressive MAC price for that drug. To ensure compliance with these requirements, the successful Offeror shall notify the Department on a monthly basis of all changes, additions, and deletions made to the Programs' MAC List in the format specified in Exhibit II.F.4, Cycle Claims Report, and the requirements specified in Section IV, entitled "Reporting." Compliance with these requirements as noted herein shall be a condition of contract award. Should the selected Offeror fail to comply with the requirements noted herein, the State reserves the right to deem the selected Offeror non-responsive and withdraw said conditional award. The Contractor shall guarantee the Programs that its management of Generic Drug costs dispensed by pharmacies, including maintenance of the Programs' MAC List, and application of pricing provisions related to Generic Drugs that do not meet the requirements for inclusion on the Programs' MAC List, shall result in the Programs achieving the Contractor's overall Guaranteed Minimum Discounts during the Program Year as proposed in the Contractor's Proposal. The discount achieved off of the aggregate AWP for all Generic Drugs as a result of Pass-through Pricing will be calculated utilizing the following formula: 1 minus (Sum of Ingredient Costs of dispensed Generic Drugs at Retail and Mail Service Pharmacies divided by sum of the AWP of dispensed Generic Drugs). The aggregate discount calculation will be based on Final Paid Claim Pharmacy Prescriptions filled with a Generic Drug including Empire Plan Medicare Rx claims. Claims submitted for secondary payer consideration, Compound Drug claims, powders, subrogation, long term care pharmacy claims, nursing home pharmacy claims, Veterans Affairs hospital pharmacy claims, NYSIF Program non- network claims and claims submitted by governmental entities must be excluded from the aggregate discount calculation. In addition, claims with a calculated AWP discount greater than 90% and a total AWP greater than \$500 must be verified by the Offeror that the quantity and validity of the calculated discount is correct, subject to the approval of the Procuring Agencies. Confirmed.

- (k) **If the overall aggregate discount obtained, as calculated utilizing the formula set forth in the prior paragraph, is less than the Contractor's Guaranteed Minimum Discounts, the Contractor shall reimburse the Programs the difference between the Ingredient Cost the Programs were charged utilizing Pass-through Pricing and the Ingredient Cost the Programs would have been charged if the Guaranteed Minimum Discount off of the aggregate AWP had been obtained. The Programs will be credited annually for this difference in Ingredient Cost. 10. SPECIALTY PHARMACY PROGRAM PRICING

NYSIF Claimants and all DCS Program Enrollee Groups participate in the Specialty Pharmacy Program, which provides an enhanced level of clinical management for Enrollees/Claimants taking Specialty Drugs/Medications. Under the current plan design, an Enrollee/Claimant is allowed to have a Grace Fill of certain Specialty Drugs dispensed from any Pharmacy. However, Specialty Drugs identified for short-term therapy for which a delay in starting therapy would not affect clinical outcomes are not eligible for this Grace Fill benefit and must be filled through the Designated Specialty Pharmacy. After the first Specialty Drug/Medication Prescription is filled through Retail or Mail Service Pharmacy, future fills are subject to a Hard Edit (DCS only), meaning that Enrollees are required to obtain the drug through the Specialty Pharmacy Process, subject to the mail service copayment (DCS only) when dispensed by the Designated Specialty Pharmacy. This requirement does not apply to enrollees in the Empire Plan Medicare Rx program.

In addition to a Grace Fill at Retail, certain Specialty Drugs/Medications available through the Specialty Pharmacy Program as well as all Specialty Medications covered under the NYSIF Program are also available through the Retail Pharmacy Network, because of their clinical requirements and/or urgent dispensing timeframe or NYS laws and regulations. All drugs filled at a Retail Pharmacy Network are subject to the Retail Network Pharmacy Pass-through Pricing and Copayments (DCS only). For those drugs available only through the Specialty Pharmacy Program, the Offeror may propose dispensing fees on a drug by drug basis, commensurate with the clinical services provided for each. All drugs shall be classified as either Brand Name, Generic, or Compound for pricing purposes based on the classification methodologies set forth in Section V.C.3.a.(7) of this RFP. The Programs shall be entitled to all manufacturer revenue derived from Specialty Drugs/Medications.

Drugs to be included in the Specialty Pharmacy Program, Specialty Drugs/Medications are:

- a. "orphan drugs";**
- b. drugs requiring special handling, special administration and/or intensive patient monitoring/testing;**
- c. biotech drugs developed from human cell proteins and DNA, targeted to treat disease at the cellular level; or,**
- d. other drugs identified by the Program as used to treat patients with chronic or life-threatening diseases.**

The Offeror must provide a Special Pharmacy Program where Enrollees/Claimants receive their Specialty Drugs/Medications through one or more designated pharmacies that offer enhanced clinical management. The process must provide extensive clinical support in the most cost-effective manner possible for the Program.

Confirmed.

a. Duties and Responsibilities – Specialty Pharmacy Program Pricing

- (1) **Consistently enforce and administer all provisions of the Program (including but not limited to mandatory generic substitution, drug utilization review, prior authorization, refill too-soon edits, etc.) to the claims dispensed through the Specialty Pharmacy Process, consistent with the processing of claims through the Retail and Mail Service Pharmacy Network processes.**

Confirmed.

- (2) **Charge the Programs for those drugs dispensed to Enrollees/Claimants in original manufacturer packaging, based on the Contractor's source of AWP for the 11-digit NDC of the package size dispensed through the Specialty Pharmacy Process. If the drug is not dispensed to the Enrollee/Claimant in original manufacturer packaging (i.e., dispensed from bulk), the Programs shall be charged based on the Contractor's source of AWP for the 11-digit NDC of the package size from which the drug was originally dispensed by the Designated Specialty Pharmacy. If the drug is dispensed from a bulk package size for which no AWP is reported in the Contractor's AWP source, the Programs shall be charged based on the reported AWP for the NDC of the largest package size contained in the Contractor's AWP source. The Programs shall not be charged based on an NDC assigned to repackaged drugs or based on package sizes prepared by special arrangement with the original manufacturer unless such packaging offers a net savings to the Programs.**

Confirmed.

- (3) **Charge the Programs based on the Contractor's pricing terms and dispensing fees (if any) applicable to Brand and Generic, Specialty Drug/Medication claims as set forth in Exhibit V.A, Proposed Claim Reimbursement Quote and Exhibit V.D, Specialty Pharmacy Program Dispensing Fees, for all prescriptions submitted through the Specialty Pharmacy Program.**

Confirmed.

- (4) **Ensure that the Designated Specialty Pharmacy(ies) collects the appropriate Copayment specified by the Department (plus Ancillary Charge, if applicable) from the Enrollee and will charge the Programs the balance of the Discounted Ingredient Cost plus the Offeror's applicable guaranteed dispensing fee set forth in Section V.C.9. of the RFP, minus the applicable Copayment for all drugs dispensed through the Specialty Pharmacy Process.**

Confirmed.

- (5) **Classify Brand Drugs consistent with the definition in the Contract Provisions, Sections VII.A and VII.B, (see Articles I, entitled "Definition of Terms") as well as the methodology outlined earlier within Section V.C.3.a.(7)(b) of the RFP entitled "Brand Drug Determination Methodology."**

Confirmed.

- (6) **Classify Generic Drugs consistent with the definition in the Contract Provisions, Sections VII.A and VII.B, (see Articles I, entitled "Definition of Terms") as well as the methodology outlined earlier within Section V of the RFP entitled "Generic Drug Determination Methodology."**

Confirmed.

- (7) **Propose a fixed contracted Guaranteed Discount off of Average Wholesale Price (AWP) that will be utilized to determine the Ingredient Cost of the Prescription to charge the Programs. The Offeror's Guaranteed Discount shall be applicable to the aggregate AWP of all individual Prescriptions for Brand Drugs and Generic Drugs dispensed to Enrollees/Claimants through the Specialty Pharmacy.**

Confirmed.

- (8) **Act in the interests of the Programs when dispensing Generic Drugs through the Specialty Pharmacy Process by avoiding the dispensing of NDC's with higher AWP's unless market conditions exist making dispensing the more cost effective NDC impractical or impossible.**

Confirmed.

11. 100% PHARMA REVENUE GUARANTEE

The Empire Plan is one of the largest health insurance plans in the country. The DCS Program has adopted a three-level drug benefit structure for Enrollees to enhance the ability of the DCS Program to obtain direct discounts from manufacturers. The Contractor is required to manage the Program's Drug List and to negotiate, on the Programs' behalf, agreements with manufacturers for direct discounts off of the cost of drugs dispensed to Program Enrollees/Claimants. Manufacturer discounts related to Programs utilization can make a drug with a higher AWP competitive with clinically comparable drugs with lower AWP's. However, the Contractor's receipt of revenue related to the Programs' utilization can create a potential conflict of interest in the decision to classify a drug as Preferred, Non-Preferred or excluded.

Full transparency is critical to protecting the interests of the State, Participating Agencies and Enrollees/Claimants and ensuring alignment of the Programs' financial interests with those of the Contractor. This section details the Contractor's duties and responsibilities with regard to management of Pharma Revenue on the Programs' behalf.

Definitions

Pharma Revenue is defined as set forth in the “Glossary of Terms” Section VIII. Pharma Revenue is any and all revenues generated from agreements between the pharmaceutical manufacturers and the Contractor and/or its Key Subcontractor or any Affiliate of the Contractor or its Key Subcontractor which relate to Program utilization and/or Pharmacy benefit management services provided under the Agreements. Such revenues include, but are not limited to revenues described as: formulary rebates; market share rebates; administrative fees; AWP caps; inflation protection program; or by any other name.

A Final Paid Claim is defined as set forth in the “Glossary of Terms” Section VIII. A Final Paid Claim is a claim processed and paid by the Contractor for a Prescription drug provided to an Enrollee/Claimant, including but not limited to, claims for Prescriptions filled at a retail Pharmacy or through the Mail Service Pharmacy Process or Specialty Pharmacy Program. A claim that is denied prior to processing is not considered a Final Paid Claim. In addition, a claim that is processed and paid but is subsequently voided, reversed, or otherwise adjusted is not a Final Paid Claim. Zero balance claims are considered Final Paid Claims. Consistent with the definition of a Final Paid Claim, the Pharma Revenue guarantee per Final Paid Claim quoted applies to rebatable and non-rebatable claims.

Confirmed.

a. Duties and Responsibilities – Pharma Revenue Guarantee

The Contractor agrees to and shall:

- (1) **Negotiate Pharma Revenue agreements with manufacturers that maximize savings to the Programs, leveraging the significant enrollment of the Programs for each individual drug. The Contractor agrees that any Program specific Pharma Revenue agreement shall derive total Pharma Revenue that meets or exceeds the Pharma Revenue derived from any other Pharma Revenue agreements the Contractor uses to administer its Book of Business for each individual drug;**

Confirmed.

- (2) **Pay the Programs quarterly within 60 Days of the end of each quarter, the greater of 100% Pharma Revenue received or the minimum guaranteed amount attributable to the Programs’ combined utilization;**

Confirmed.

- (3) **Calculate and distribute Pharma Revenue to the Programs in a fully transparent and verifiable process. The Contractor agrees that all direct and indirect revenue arrangements with manufacturers, suppliers, or other vendors shall be disclosed and the revenue generated related or attributable to the Programs’ utilization shall be credited to the Programs. The Contractor acknowledges and agrees that the records, methods, and calculations utilized to total and distribute these amounts to the Programs are subject to audit by the State under the audit authority set forth in Contract Provisions, Sections VII.A and VII.B, of the RFP and Appendices A and B thereto. In addition, the Contractor shall provide all agreements as necessary for the Programs to evaluate Drug List decisions including direct access to any manufacturer contracts in unredacted form, under which the Programs is entitled to derive Pharma Revenue pursuant to the terms of the Agreements;**

Confirmed.

Section V: Cost Proposal
Requirements

- (4) **Not** enter into any agreement that has the effect of diverting, shortchanging, or trading off any form of Pharma Revenue that would otherwise be due the Programs for other consideration. There shall be no fees charged to the Programs or received from a manufacturer, separate from the Claims Administration Fees as described and authorized in the RFP, by the Contractor for rebate or other Pharma Revenue administration. The Contractor agrees that it shall not divert, shortchange, or trade off Pharma Revenue that would otherwise inure to the Programs' financial benefit for Enrollee/Claimant drug utilization in return for reduced drug acquisition costs or other monetary or non-monetary consideration from manufacturers;

Confirmed.

- (5) Upon selection of the successful Offeror and as a condition of contract award and throughout the term of the Agreements, the successful Offeror/Contractor shall provide, upon the request of the State, all information and documentation related to Pharma Revenue agreements, including but not limited to, full direct access by the Procuring Agencies staff or their agents to complete unredacted Pharma Revenue agreements pursuant to which the Programs derives Pharma Revenue;

Confirmed.

- (6) Utilize manufacturer agreements for the Programs that meet or exceed the Contractor's best existing Pharma Revenue agreements for all individual drugs. If the Contractor's business model allows for more than one Pharma Revenue agreement with manufacturers, the Contractor agrees that in no instance will the Programs receive less Pharma Revenue in any therapeutic class than other clients of the Contractor with a comparable benefit design and consistent preferred drug designations in the class, provided the Programs' utilization of the drugs generating Pharma Revenue in the class is equal to or greater than those of other clients. The Contractor, as part of its Proposal, must propose a process satisfactory to the Procuring Agencies to confirm compliance with this provision and must implement and administer said satisfactory process under the Agreements. The Programs shall receive full pass-through of 100% of Pharma Revenue derived from any Pharma Revenue agreement with a pharmaceutical manufacturer. Where any Pharma Revenue contracts allow for higher Pharma Revenue for Mail Service Pharmacy or Specialty Pharmacy Program claims, the Programs will receive the full financial benefit of those higher rates receiving 100% of the Pharma Revenue derived from those agreements on mail order claims. If manufacturer agreements provide less Pharma Revenue for Mail Service Pharmacy or Specialty Pharmacy Program claims than retail claims for the same drug, the terms of the manufacturer agreement applicable to retail claims shall be applied to Program Mail Service Pharmacy and Specialty Pharmacy Program claims for purposes of calculating the amount of Pharma Revenue due the Programs;

Confirmed.

- (7) The Contractor, as part of its Proposal, must propose a Minimum Pharma Revenue Guarantee Per Final Paid Claim that will be utilized by the Contractor in calculating the minimum annual amount due to the Programs for Pharma Revenue. The Minimum Pharma Revenue amount due the Programs on an annual basis will be calculated according to the formula: Contractor's Minimum Per Final Paid Claim Pharma Revenue Guarantee multiplied by the number of Final Paid Claims incurred for the DCS Program and the NYSIF Program for the respective Program Year;

- (8) **Ensure the Contractor's Minimum Pharma Revenue Guarantee Per Final Paid Claim is not contingent upon the Programs' participation in any of the Contractor's formulary management or intervention programs, including step therapy. The Contractor's Minimum Pharma Revenue Guarantee Per Final Paid Claim is also not contingent on the Program's use of the Contractor's book of business or standard formulary offerings, or the timing of any patent expirations and/or introduction of generic equivalent drugs, including but not limited to early and/or at risk Generic Drug launches. The Programs will review the guaranteed amount only in the event of legislative, regulatory, or judicial action excluding patent litigation not specific to the Contractor's business practices that serves to void existing Pharma Revenue agreements materially compromising the Contractor's ability to obtain contracted Pharma Revenue necessary to meet the Contractor's Minimum Pharma Revenue Guarantee Per Final Paid Claim. Further, any exclusions the Offeror is proposing as part of its Formulary must comply with the requirements of Section IV, B.15; and**

Confirmed.

- (9) **Calculate and perform an annual reconciliation of the Pharma Revenue credit to the Pharma Revenue earned. As part of this annual reconciliation the Contractor shall be required to:**
- (a) **Calculate the Pharma Revenue guarantee on all Final Paid Claims, incurred for the respective Program Year. The Pharma Revenue guarantee shall be on the aggregate level, not separated for each therapeutic class;**
- Confirmed.
- (b) **Credit the Programs an amount calculated based on the following formula: if in any Program Year, the Pharma Revenue realized and credited to the Programs by the Contractor is less than the amount due the Programs as determined utilizing the minimum Pharma Revenue credit set forth above in (7) of this Section, the amount of the credit shall be equal to the difference between the reported Pharma Revenue credited to the Programs and the Contractor's Minimum Pharma Revenue Guarantee Per Final Paid Claim;**
- Confirmed.
- (c) **Submit calculations and documentation supporting the amount of Pharma Revenue reported and credited to the Programs for the Procuring Agencies' review and written approval. The Contractor shall provide all information and documentation deemed necessary by the Procuring Agencies to verify the Programs were credited with all Pharma Revenue due it under the terms of the Agreements;**
- Confirmed.
- (d) **If at the close of any Plan Year, the Pharma Revenue credited to the Programs is greater than the higher of the amount derived through application of the Pharma Revenue guarantee formula or the actual Pharma Revenue realized by the Programs, upon notice and verification by the Procuring Agencies, the DCS Program and the NYSIF Program shall pay the Contractor the difference between the amount previously credited to each Program and the higher of the minimum Pharma Revenue guaranteed amount or actual Pharma Revenue realized during the Program Year;**
