Specialty Drugs (7)	Guaranteed Minimum Discount off of Aggregate AWP:			Quote Guaranteed Dispensing Fees in Attachment 89		

Compound Drug Pricing Methodology(ies) (8)

Proposed pricing methodology(ies)

Compound Drug Pricing Level of Effort Fee if applicable (9)

Level of Effort Code	Description	Fee
11	Single Ingredient batched capsule; any combination of commercially available products; or	
12	Two or three ingredient batched capsule; transdermal gel; or	
13	Four or more ingredient batched capsule; three or less ingredient cream/ointment/gel; suppository; two or less ingredient capsule; noncomplex suspension; tablet triturate; or	
14	Topical containing controlled ingredient; three or more ingredient troche; four or more ingredient capsule; complex suspensions (e.g., pediatric); custom capsule (includes rapid dissolution preparations); chemotherapy cream/ointment/gel; hormone therapy (capsules, troches, and suppositories); or	
15	Sterile product	

Source of Therapeutic Category

Provide the source of the therapeutic category classification on system you use for preferred drug list development.

If different, specify the source of the category classification on system utilized in negotiating pharmacy revenue agreements.

- (1) Brand Name Drugs dispensed in a Retail Network Pharmacy as well as Brand Name Vaccines dispensed and administered in a Vaccination Network Pharmacy shall be billed to the Programs using Lesser of Logic incorporating Pass-through Pricing contracted with the dispensing pharmacy. Enter the Offeror's Guaranteed Minimum Discount off of Aggregate AWP for Brand Name Drugs and Vaccines and the Guaranteed Maximum Dispensing Fee for Brand Name Drugs and Vaccines. The amounts quoted will be subject to an annual reconciliation to verify that the Guaranteed Minimum Discount and Guaranteed Maximum Dispensing Fee are achieved.
- (2) Generic Drugs dispensed in a Retail Network Pharmacy as well as Generic Vaccines dispensed and administered in a Vaccination Network Pharmacy shall be billed to the Programs using Lesser of Logic incorporating the Programs MAC list for Retail and Mail Service Pharmacies and Pass-through Pricing contracted with the dispensing pharmacy. Enter the Offeror's Guaranteed Minimum Discount off of Aggregate AWP for Generic Drugs and Vaccines and the Guaranteed Maximum Dispensing Fee for Generic Drugs and Vaccines. The amounts quoted will be subject to an annual reconciliation to verify that the Guaranteed Minimum Discount and Guaranteed Maximum Dispensing Fee are achieved. The Guaranteed Minimum Discount reconciliation will be combined for Retail and Mail Service Pharmacy dispensed Generic Drugs.
- (3) Compound Drugs dispensed in a Retail Network Pharmacy shall be billed to the Programs incorporating Pass-through Pricing contracted with the dispensing pharmacy. Enter the Offeror's Guaranteed Maximum Dispensing Fee for Compounds. The amount quoted will be subject to an annual reconciliation to verify that the Guaranteed Maximum Dispensing Fee is achieved. Compound Drug ingredient costs will be priced using the Offeror's proposed pricing methodology as set forth on this Attachment 83.
- (4) Brand Name Drugs dispensed in a Mail Service Pharmacy shall be billed to the Programs using Lesser of Logic incorporating guaranteed contracted pricing. Enter the Offeror's Guaranteed Discount off AWP for Brands and the Guaranteed Dispensing Fee for Brands.
- (5) Generic Drugs dispensed in a Mail Service Pharmacy shall be billed to the Programs using Lesser of Logic incorporating the Programs MAC List for Retail and Mail Service Pharmacies and guaranteed contracted pricing. The Offeror's Guaranteed Minimum Discount off of Aggregate AWP for Generic Drugs must be the same as the amount quoted for Retail Network Pharmacies (footnote 2). The Guaranteed Minimum Discount reconciliation will be combined for Retail and Mail Service Pharmacy dispensed Generic Drugs.
- (6) Compound Drugs dispensed in a Mail Service Pharmacy shall be billed to the Programs using Lesser of Logic incorporating guaranteed contracted pricing. Enter the Offeror's Guaranteed Dispensing Fee for Compounds. Compound Drug ingredient costs will be priced using the Offeror's proposed pricing methodology as set forth on this Attachment 83.
- (7) Specialty Drugs dispensed through the Specialty Pharmacy Program shall be billed to the Program using Lesser of Logic incorporating guaranteed contracted pricing. Enter the Offeror's Guaranteed Discount off AWP for Specialty Drugs dispensed through the Specialty Pharmacy Program. The Offeror may propose a guaranteed contracted dispensing fee on an NDC basis for each drug proposed to be included in the Specialty Pharmacy Program on Attachment 89.
- (8) The Offeror must propose a pricing methodology(ies) utilizing Pass-through Pricing to be applied to Retail Pharmacy Network and Mail Service Pharmacy Process Compound Drug claims that meet the Programs' definition of a Compound Drug as defined in Attachment 15 Glossary of defined Terms. Offerors may propose multiple pricing methodologies utilizing Pass-through Pricing for the Procuring Agencies' review and selection.
- (9) For Offerors proposing the use of NCPDP transaction standards for Compound Drugs enter the Offeror's Level of Effort Fee for each claim level of effort code listed.
- (10) Guaranteed Maximum Prescribing Fee would only apply to certain medications (e.g., self-administered oral hormonal contraceptives per Ch. 128 Laws of 2023) where there is statutory authority for pharmacists, licensed pharmacy technicians or those named in the law to prescribe select medications. The Department is aware of several bills in the 2024 NYS legislative session (including but not limited to: S5263, S5304, S3297/A5995; A2732/S1855; A825) which - if signed into law - would give prescribing powers for certain medications or statutory authority to order tests to pharmacists and DCS would like to allow for the possibility of future laws giving this authority to pharmacists.

Retail and Mail Service Pharmacy Generic Drugs - MAC List Costs per GPI - RFP entitled: "Pharmacy Benefit Services for The Empire Plan, Student Employee Health Plan, and NYS Insurance Fund Workers' Compensation Prescription Drug Programs"

Attachment 88 Instructions: Submit in Excel format on a USB Storage Device.

- 1) For each GPI provide the proposed Empire Plan MAC List for Retail and Mail Service Pharmacy unit cost as of 5/1/2024 in the Retail and Mail Service Pharmacy MAC Unit Cost column. These figures should support the Offeror's proposed guaranteed minimum discounts off the aggregate AWP for all generic drugs dispensed by Retail and Mail Service Pharmacies for the Program.
- 2) For each GPI indicate with a "Y" (Yes) or "N" (no) whether the MAC price is applicable to all NDCs within the GPI, including any brand NDC in the GPI.
- 3) If any NDCs within a GPI are exempted from MAC pricing for reasons other than being B-rated or unrated, list the GPI, all excluded NDCs and drug names and the reason for the exclusion in a separate worksheet labeled "excluded NDCs"
- 4) For each GPI indicate with a "Y" (Yes) or "N" (No) whether a therapeutically equivalent generic (A-rated or Authorized) is available.

ATTACHMENT 89

**Specialty Pharmacy Program Dispensing Fees - RFP entitled:
“Pharmacy Benefit Services for The Empire Plan, Student Employee
Health Plan, and NYS Insurance Fund Workers’ Compensation
Prescription Drug Programs”**

Instructions: Offerors must submit a completed Attachment 89, including all fields listed below, on a USB Storage Device in Excel form, as part of their Financial Proposal. Propose a Dispensing Fee for each drug. The Dispensing Fee quoted is for the entire duration of this Agreement (1/1/2025 - 12/31/2029).

ATTACHMENT 90

**Department of
Civil Service**

**Pharma Revenue Guarantee Quote - RFP entitled:
"Pharmacy Benefit Services for The Empire Plan, Student
Employee Health Plan, and NYS Insurance Fund Workers'
Compensation Prescription Drug Programs"**

Pharma Revenue Guarantee (1)	Per Final Paid Claim (DCS Program)	Per Final Paid Claim (NYSIF)
2025	\$ [REDACTED]	[REDACTED]
2026	\$ [REDACTED]	[REDACTED]
2027	\$ [REDACTED]	[REDACTED]
2028	\$ [REDACTED]	[REDACTED]
2029	\$ [REDACTED]	[REDACTED]

(1) The quote above represents the guaranteed minimum amount due the Programs.

- The State shall receive all (100%) of Pharma Revenue as defined in this RFP.
- The amount must be quoted on a per Final Paid Claim basis, as defined in Attachment 15, *Glossary of Defined Terms*.
- No separate administrative fee to manage the Pharma Revenue process shall apply.

The Offeror's Minimum Per Final Paid Claim Pharma Revenue Guarantee Quote is not contingent upon specific formulary strategies. Formularies are custom and are subject to the Department's approval. The Offeror's Minimum Per Final Paid Claim Pharma Revenue Guarantee Quote is not contingent upon the Programs' participation in any of the Offeror's formulary management or intervention programs, including step therapy and Brand for Generic (B4G) strategies. The Offeror may not make such quotes contingent upon use of their Book of Business Formulary. Nor shall the Offeror's Minimum Per Final Paid Claim Pharma Revenue Guarantee Quote be contingent or dependent on the timing of any patent expirations and/or introduction of generic equivalent drugs, including but not limited to early and/or at risk generic launches. Any B4G strategy proposed must be financially advantageous to the State.

Note:

Offerors must provide adequate documentation as determined by the Procuring Agencies, to support the Offeror's proposal relative to pharma revenue. Documentation should be provided as Attachment 91 of the Offeror's proposal.

Attachment 91

MedImpact uses rebate management strategies to deliver an overall low net cost strategy for our clients. We use rebates intelligently to manage costs effectively while providing appropriate formulary access. MedImpact's formularies are fine tuned to deliver low net cost.

We have proven experience managing Drug List and negotiating agreements with manufacturers for direct discounts off of the cost of drugs dispensed. MedImpact will negotiate the best deal off of the cost of drugs dispensed to members to maximize savings to the DCS and NYSIFs Programs.

Strategies MedImpact uses to drive to low net cost include:

- Utilization management edits
- Brand over Generic programs
- Prior authorizations
- Quantity level limits
- Referring clinically effective low ingredient cost agents
- Leveraging the value of pharmaceutical rebates

MedImpact analyzed the State of New York's DCS & NYSIF data, current and proposed formularies (Flexible, Advanced, Excelsior, wrap, and Workers' Compensation), and projections to determine the pharma revenue guarantee. The pharma revenue guarantee is subject to the following caveats.

- The pharma revenue guarantee is based on the proposed formularies and plan designs provided.
- In the event market factors outside of MedImpact's control cause brand name medications to unexpectedly become available as a generic, authorized generic, or biosimilar, or cause a significant price decline of a brand name medication, or the State of New York prefers a generic at a higher net cost than the brand, MedImpact may adjust the Rebate guarantees.

The State of New York can access quarterly rebate reporting through MedImpact's MedOptimize® reporting tool. Reports can be accessed 24 hours a day in MedOptimize and include:

- Client distribution report: Current and cumulative amounts collected and payments and credits distributed, by pharmaceutical manufacturer, for the month we issue the credit broken out by the quarter for which we invoiced it
- Client historical analysis: Across historical periods, amounts invoiced to pharmaceutical manufacturers and subsequently received and distributed to the client breaking out by quarter (summary) and optionally pharmaceutical manufacturer (detail)
- Plan contract rebate detail estimate: Estimated rebate details by group for each rebate contract and manufacturer for the selected quarter
- Plan contract rebate summary estimate: Estimated rebate details by rebate contract and manufacturer for the selected quarter
- Plan contract summary estimate: Estimated rebate details by rebate contract and manufacturer for the selected quarter

Attachment 91

- Plan group rebate detail estimate: Rebate amounts by manufacturer for each group for the selected quarter
- Plan group rebate summary estimate: Claim counts, paid amounts, and rebate amounts at the group level for the selected quarter
- Plan rebate summary estimate: Therapeutic level, claim counts, paid amounts, and rebate amounts at the group level for the selected quarter

Claims Administration Fee(s) Quotes (Period: 1/1/2025-12/31/2029) - RFP entitled: "Pharmacy Benefit Services for The Empire Plan, Student Employee Health Plan, and NYS Insurance Fund Workers' Compensation Prescription Drug Programs"

Claims Administration Fees (2)

DCS Program Claims (3)

Retail, Mail, Specialty Pharmacy Network, and Vaccination Network - Claims Admin. Fee

Quote (1)

Basis of Charge

Medicare Rx Program Claims

Retail, Mail, Specialty Pharmacy Network, and Vaccination Network - Claims Admin. Fee

New York State Insurance Fund Program

Retail, Mail, and Specialty Pharmacy Network - Claims Admin. Fee

(1) These quotes are made in accordance with the requirements of Sections 3, 5 and 6 of the RFP.

The quotes must be guaranteed for the period 1/1/2025-12/31/2029.

Changes to these quotes not under the control of the Offeror may be negotiated solely at the Procuring Agencies' discretion.

(2) Offeror must include the cost for administering all project services applicable to the respective Program below. Refer to Attachment 97 for a listing of Program Services applicable to each Claims Administrative Fee component.

(3) Non-Medicare Rx Program Claims
