Offeror’s Affirmation of Understanding and Agreement

Instructions:

Pursuant to State Finance Law §§139-j and 139-k, this solicitation imposes certain procurement lobbying limitations. Offerors are restricted from making contacts during the procurement’s “Restricted Period” (from the earliest written notice, advertisement or solicitation of a request for proposal, invitation for bids, or solicitation of proposals, or any other method for soliciting a response from Offerors intending to result in a procurement contract with a governmental entity and ending with the final contract award and approval by the governmental entity and, where applicable, approval by the State Comptroller) to other than designated staff, unless the contact falls within certain statutory exceptions (“permissible contacts”). the Department’s employees are required to obtain certain information from Offerors and others whenever there is a contact about the procurement during the Restricted Period, and are required to make a determination of the Offeror’s responsibility that addresses the Offeror’s compliance with the statutes’ requirements. Findings of non-responsibility result in rejection for contract award, and if an Offeror is subject to two non-responsibility findings within four years the Offeror also will be determined ineligible to submit a proposal on or be awarded a contract for four years from the date of the second non-responsibility finding.

Further information about these requirements can be found at:

2. Sponsor shall promptly notify NVA in writing of any Cardmember termination or retirement. NVA will terminate coverage effective the first (1st) day of the month subsequent to the date on which the notice of termination or retirement is received, or at a future date, if specified by the Sponsor. Cardmember and Dependent eligibility may not be terminated retroactively. Terminated Cardmembers and/or Dependents electing coverage under COBRA may continue coverage under the Plan. NVA does not administer eligibility or collect payments, directly or indirectly, from COBRA participants or third party administrators.

3. Coverage for a Dependent will end when the Cardmember's coverage ends, or on the last day of the benefit month in which the individual fails to meet the definition of a Dependent, or in the case of a child, **(until the day of attainment of age XX or XX if a full time student)** on the last day of the **month (calendar year)** during which the termination age of **XX** is reached **or XX if a full time student**. D. Change in Benefits. Sponsor agrees to notify NVA's account executive in writing of all changes in vision benefits including the addition or deletion of Plan Descriptions to Appendix A. Such changes will be validated by exchange and acknowledgement of emails or other writings without the need to amend this Agreement. NVA will advise Sponsor of the anticipated implementation dates of the proposed benefit changes, and such benefit changes, which are so implemented, shall be deemed incorporated into this Agreement as of the date of implementation. If any change in benefits materially affects NVA's duties or obligations or cost of performance under this Agreement, then at NVA's request, the parties will work toward mutually acceptable modifications of this Agreement. If the parties are unable to agree upon mutually acceptable modifications, then either Sponsor or NVA may terminate this Agreement upon not less than sixty (60) days' written notice; provided, notice is given prior to the original anticipated date of the changes in Sponsor's benefits.

E. Control of Plan. Sponsor is the plan administrator for purposes of this Agreement. NVA will invoice Sponsor twice a month for all claims on or about the 17th of the month, and at month's end. Sponsor agrees to have cleared funds in NVA's possession two (2) times monthly on the billing date(s) specified by NVA and in amounts sufficient to reimburse NVA for its Claims Payments. If Sponsor fails to transfer sufficient, cleared funds to NVA on a timely basis, then NVA will notify Sponsor in writing or by telephone, and Sponsor will transfer the requested funds within two (2) working days of receipt of such notice. If such funds are not received by NVA within two (2) working days of Sponsor's receipt of such notice, then NVA may cease the processing of claims, notify Participating Providers, apply any deposit received from Sponsor against its account and otherwise suspend performance under this Agreement until NVA receives sufficient, cleared funds from Sponsor. The parties will establish the procedure by which such cleared funds will be received by NVA. Sponsor further agrees that the Claims Payment account into which Sponsor's money may be deposited may contain money from one or more other clients receiving NVA services. Sponsor further agrees that NVA may retain interest earnings not in excess of market rates pending clearance of funds for the payment of Claims.

B. Compensation. Sponsor acknowledges that it has had an opportunity to review NVA's qualifications and services in relation to the marketplace and Sponsor's Plan and has determined the reasonableness of NVA's compensation in connection with the services provided under this Agreement.

C. Administrative Charges. On or about the last working day of each month, NVA will submit to Sponsor an invoice setting forth the administrative charges pursuant to this Agreement, including Appendix B, covering services for the month. Sponsor will pay this invoice prior to the end of the month the invoice is dated. On or after the close of the initial term of this Agreement, NVA may revise the administrative charges upon not less than sixty (60) days' written notice to Sponsor. If any revision in the administrative charges is not acceptable, then Sponsor shall so notify NVA not less than thirty (30) days prior to the anticipated, effective date of such administrative charges. If the parties are unable to agree upon mutually acceptable administrative charges, then either Sponsor or NVA may terminate this

Agreement upon not less than sixty (60) days' written notice; provided, notice is given prior to the original anticipated date of the new administrative charges.

D. Collections. Sponsor agrees to pay all out-of-pocket expenses of collection and enforcement of judgments, including attorneys' fees and costs, incurred by NVA including the maximum interest on unpaid funds allowed by law. The rights and remedies set forth in this paragraph shall survive the termination of this Agreement and are in addition to the rights and remedies available to NVA under law or in equity.

[E. Financial Assurances. Sponsor will provide a deposit of \$_____ to be applied to claims or administrative charges. Such a deposit will be maintained by NVA in a separate bank account. The deposit will be used by NVA to satisfy claims and administrative charges until two weeks before its expected depletion, at which time Sponsor will comply with Sections A and C.]

ARTICLE 5 TERM OF AGREEMENT AND TERMINATION

A. Term. This Agreement shall become effective on _____ and shall continue in full force and effect for an initial term of four (4) years, and may be renewed for additional one (1) year terms as provided in this Agreement. If either Sponsor or NVA desires not to continue this Agreement beyond any such term, then that party shall so notify the other party in writing not less than ninety (90) days prior to the expiration of such term. If neither Sponsor nor NVA so notifies the other party, then this Agreement shall continue for an additional term.

B. Termination. Either Sponsor or NVA may terminate this Agreement, at any time, upon not less than sixty (60) days' written notice if:

3. Sponsor modifies its benefits as provided in Article 3.D. of this Agreement; or

4. A change in law occurs, as provided in Article 9.H. of this Agreement.

NVA may terminate this Agreement, at any time, upon not less than ten (10) days' written notice if Sponsor fails to transfer requested funds within two (2) working days of Sponsor's receipt of notice from NVA, as provided in Article 4.A. of this Agreement or immediately, if a deposit, information or assurances are not provided to NVA within ten (10) days of request or are not satisfactory in NVA's reasonable judgment, as provided in Article 4.D. of this Agreement. The rights and remedies set forth in this paragraph are in addition to the rights and remedies available to each party under law or in equity.

C. Effect of Termination. The rights and obligations of the parties arising as a result of services provided prior to termination of this Agreement or termination of an Eligible Person shall remain in full force and effect following termination. In addition, Sponsor must pay claims and associated administrative fees for all services rendered within 45 days of an NVA prior authorization for such services.

D. Survival. Termination of this Agreement shall not affect the continuing obligations of either party while this Agreement is in effect. Article 6.B. and C. (Ownership and Use of Records; NVA's Programs and Procedures), Article 7 and 8 (Non-Liability; Indemnification), Article 9.E. (Civil Action), Article 9.F. (Arbitration), Article 9.I. (Statute of Limitations) and Appendix C shall survive the termination of this Agreement.

E. Claims Processing after Termination; Return of Deposit. Subject to Sponsor's performance, including, but not limited to the funding of claims and payment of administrative charges and expenses, in accordance with this Agreement, NVA will process and pay Claims and Direct Reimbursement Claims covering Vision Care Services dated prior to the effective termination of this Agreement for a period of six (6) months following such termination. NVA will return to Sponsor any unapplied deposit previously received from Sponsor within thirty (30) days following such six (6) month period.

Such modifications may include, but are not limited to, changes in the benefit design, coverages and to the extent that these changes affect the cost of performance, changes to administrative fees and charges. If Sponsor and NVA are unable to agree upon mutually acceptable modifications, then either Sponsor or NVA may terminate this Agreement upon not less than sixty (60) days' prior written notice.

I. Statute of Limitations. Any claim or controversy arising out of or relating to this Agreement, whether based in tort or contract, and whether statutory or common law, must be filed within one (1) year of the date the factual basis for the claim or controversy occurs. Failure to file such a claim within that time period shall bar a party from asserting that claim.

Neither Sponsor nor NVA shall be construed to be the agent, partner, employee, fiduciary or representative of the other and neither party shall have the right to make any representations concerning the duties, obligations or

NYS Vision Plan

EXECUTIVE SUMMARY

For over 37 years, National Vision Administrators, L.L.C. dba NVA Vision Services & Administrators Agency (NVA) has worked only for our clients, lowering vision care costs while ensuring members receive quality care and choice through our nationwide network of Eye Care Professionals.

NVA, a wholly-owned subsidiary of Benecard Holdings, Inc., administers vision care plans to over 4,300 clients and approximately 7.5 million members nationwide. Our clients include Fortune 500 companies, school systems, municipalities, state and federal government agencies, unions, managed care organizations and healthcare coalitions.

We have thoroughly reviewed New York State's (the State) Request for Proposal, and our proposal clearly exhibits that NVA has the operations, network and experience to administer the products and services as requested with the best results. NVA understands the State's need to cost-effective employee benefits during this ever changing health care landscape. Our vast experience successfully working with public sector clients gives us the knowledge and insight to administer the State's vision program.

Items of particular interest to the State, its employees and their dependents available only through NVA are:

- **Public Sector domain expertise.** Public sector groups of all sizes and types are among NVA's core competency, providing services to many Municipalities such as the Commonwealth of Pennsylvania (a client for over 30 years with over 177,000 covered lives) and the State of Missouri; many different Counties, Cities, Towns, Boards of Education (Montgomery County Government, Milwaukee Public Schools, City of Baltimore Public Schools), Public Universities and literally hundreds of other large and small public entities. We understand the unique challenges of providing a comprehensive benefit package to diverse populations – represented and unrepresented. We would work diligently with the State to ensure stakeholders' satisfaction with our proposed vision plan.
- **We answer only to the State.** NVA is not beholden to any manufacturer, retail parent or provider group. Clients are our sole source of revenue. We are paid to deliver the highest quality vision benefit plans at the best possible prices. Serving only clients enables us to have aggressive provider contracts yielding the lowest unit cost of any vision benefit provider in the market.
- **Long term cost stability.** The strength of our contract is long term. Fees offered in our proposal are guaranteed for 5 years.
- **Exceptional client service team.** NVA's commitment to service starts with assigning a client service team with over 60 years of combined experience. NVA would assign Ms. Francisca Suazo as NYS' Account Executive. With over 15 years in client service, she would be the single point of contact from the award of the contract through the implementation process and for the duration of the program. She would oversee all daily

functions (i.e., customer service, enrollment management, reporting, network management, claims processing, regulatory/legislative monitoring and implementation, etc.) including those outsourced to our minority/women-owned suppliers. With a successful track record for responsiveness, attention to detail and project management, Francisca would ensure seamless implementation and management of the State's vision program.

Francisca reports directly to Mr. Kevin Filippelli, Vice President of Operations, who would also be available to the State if NVA is awarded the State's Vision Plan. Kevin is responsible for the general management of the NVA business operations. He oversees all implementation activities and ongoing management of vision accounts from the award of the contract through the duration of the program.

In addition to the above team, Carl Moroff, O.D., Executive Vice President and Chief Vision Officer, would be the executive sponsor for the State. Dr. Moroff, a managed vision care veteran with almost 40 years of experience in the vision and eye care field (including, serving as Chief Operating Officer of Davis Vision and Chief Vision Officer of eyeQuest) would provide clinical oversight as well as ultimate authority over NVA's management of the State's plan.

- **Utilization of New York-based minority/women-owned businesses.** Diversity is one of NVA's key strengths. NVA seeks every opportunity to partner with minority-owned, women-owned and/or disadvantaged vendors (when feasible) who provide valuable services that augment our vision program administration. In our proposal, we proposed to outsource attendance at a portion of the State's enrollment meetings/health fairs and the design and printing of custom member communication materials to local, New York-based suppliers to assist the State in meeting its diversity goal. NVA would oversee and be responsible for all services provided by these vendors to ensure adherence to established timelines and the service excellence for which we are known.
- **Lower costs for members and benefits beyond the benefit schedule.** NVA empowers members with web tools that educate informed decisions on materials and other options available, before buying. Our Upgrade Program includes fixed pricing on lens options that cap costs and ensures members know exactly what they pay and a broad discount plan when funded benefit is exhausted.
- **Any Question /Any Time.** The State employees and dependents have access to live, U.S.-based Member Service Representatives 24/7/365, for quick answers to questions. Thus our motto: ***Any question/any time.***
- **Large, diverse, credentialed, flexible network of quality providers.** NVA's diverse Provider Network is comprised of over 50,000 provider location combinations nationwide in private practice and at national and regional optical retailers. Members enjoy the option of having optical retailers in the network for evening and weekend access such as Wal-Mart and Sam's Club. All NVA eye care professionals are credentialed using NCQA guidelines and perform comprehensive CPT-based eye examinations that provide early detection of serious diseases—improving members' health and helping control overall health plan costs.
- **Disruption and recruiting.** NVA is willing to recruit qualified providers around the State's employee's needs in advance of enrollment, as requested by the State. NVA will help identify provider network mismatches or disruption.

NVA's vision care plan can have a positive impact on the State's employee satisfaction and health, and can have a direct impact on clients' bottom-line by reducing overall benefit claims costs.

NYS Vision Plan

GENERAL QUALIFICATIONS

For over 37 years, National Vision Administrators, L.L.C. dba NVA Vision Services & Administrators Agency (NVA) provides managed vision care to approximately 7.5 million lives and over 4,300 public and private sector clients. Clients include Fortune 500 companies, school systems, municipalities, state and federal government agencies, unions (over 60 unions), managed care organizations, healthcare coalitions and various populations.

Founded in 1979, NVA is a wholly-owned subsidiary of Benecard Holdings, Inc. (BHI). BHI, headquartered in New Jersey, is also the owner of Benecard Services, LLC, Benecard Services, Inc. d/b/a BeneCard PBF, and Contact Fill, LLC. Affiliated entities include the Heartland Fidelity Insurance Company, an association captive insurance company. NVA was incorporated as a separate entity in February 2002. NVA's management and operations are generally independent of Benecard's operations with the exception of certain shared resources.

NVA's corporate headquarters is located in Clifton, New Jersey, and employs approximately 100 associates – approximately 10% of which have been represented by AFSCME District Council 13, Local 3246 for over 25 years. Our local presence provides us with firsthand knowledge of the vision provider community, the current trends in vision fashion, the demographics of the populations we serve and the changing regulatory environment which we would bring to the administration of the State of New York (the State) vision program.

NVA believes our core competencies listed below make us unique in the Marketplace.

- NVA offers broad access to high quality eye care. NVA's National Eye Care Professional (ECP) Network has over 50,000 provider location combinations in private practice and optical retailers. Network ECPs perform comprehensive CPT-based exams (including dilation, when professionally indicated), which can provide early detection of serious chronic diseases-improving members' health and helping control overall health plan costs.
- NVA does not outsource any major services. NVA is based in the U.S. and has a represented work force. We control all areas of service delivery.

NVA helps control member out-of-pocket costs with unique cost-saving member educational tools. NVA's Smart Buyers[®] Guide is located on the NVA website and helps our members become better shoppers of eyewear. Our Vision Benefit Maximizer[®] assists our members with the price points of eyeglass frames at each provider location.

NVA has the expertise and is willing to provide the Vision Benefits Management functions as indicated as well as the services listed below:

- Quality Assurance
- Network Recruiting and Credentialing
- Claims Processing and Payment

- Network Development and Management
- Member Services
- Performance Reporting
- Appeals and Grievances (communications, as directed)

NVA follows all applicable guidelines such as NCQA, State and CMS requirements in all activities.

Senior Management of NVA is drawn from industry leaders, possessing over 100 years of hands on experience in the management of vision programs. From management, marketing clinical and regulatory perspectives, this dedicated team represents the hallmark in experience in vision administration.

Our mission, vision and objectives are:

- Leveraging our clinical background to fully understand the unique vision needs of each segment of the population we serve.
- Providing the highest quality benefits to **all** recipients.
- Ensuring that vision benefits are delivered consistently in terms of clinical excellence and eyewear quality. This includes:
 - Contracting with providers for CPT-defined vision examinations
 - Use of extensive Clinical Guidelines and Standards of Care
 - Comprehensive Monitoring System including On-Site visits
 - Professional oversight by clinical staff
- Managing costs and utilization to deliver value to our clients:
 - Lowest unit costs in the industry
 - Extensive utilization and financial controls – pricing edits, provider audits
 - Aggressive administrative fees
- Providing members with *any question, any time 24/7/365* access to information from **live**, U.S.-based member service representatives.

Through NVA's robust systems and comprehensive procedures, we are confident our fully integrated vision care program will result in streamlining administrative processes for the State. NVA provides complete flexibility in order to effectively accommodate the State's individual needs.

NVA is committed to supporting the State in your efforts to improve the quality of clinical care and service provided to your members. Accordingly, we will collaborate with the State to recruit and educate additional providers in your service area. In addition, NVA is available to support the State with your member educational efforts.

Reduced Administrative Costs

NVA unit costs are amongst the lowest in the industry. These low unit costs (examinations, frames, lenses, etc.) coupled with our competitive administrative fees will reduce the State's exposure to both the high cost of care and to the cost of administration.

NVA's full eye care benefit will encompass routine vision care (examination and dispensing of eyewear), as well as an occupational vision program, a funded laser correction program, a medical exception program and an upgrade program. Through NVA, State employees will be free to choose the types and brands that fit their preferences and their provider's prescription. NVA does not use frame towers, frame collections or contact lenses formularies. NVA does not limit, restrict, or direct our members to certain selections, brands, manufacturers or towers.

Vision Service Network

NVA has a strong National Network consisting of over 50,000 provider location combinations and consists of private practitioners and optical retailers including Optometrist, Ophthalmologists and Opticians.

NVA's proposed New York-based network has over 3,000 provider location combinations.

Credentialing/Accreditation of Service Providers

It is the policy of NVA to certify and recertify the credentials, patient care quality and other factors of all network providers of vision care services using the standards set out in our policy and in accordance with applicable state laws. Compliance Program

NVA is committed to maintaining the highest ethical standards in the conduct of your business and offer our personnel’s vast experience working within the NY State guidelines to deliver fully compliant services. NVA participates in a comprehensive, corporate wide compliance program as required for the administration of your commercial and federal vision care programs. NVA’s compliance program incorporates the key elements for an effective compliance plan including the following: written policies, procedures and standards of conduct; designation of a Chief Compliance Officer and Compliance Committee that meets monthly and reports to the Compliance Subcommittee of the NVA Board of Directors; effective training and education of officers, directors, employees, providers, subcontractors and agents; effective lines of communication ensuring confidentiality and/or anonymity; well-publicized disciplinary standards; an effective system of routine monitoring and identification of compliance risks; a system for promptly responding to compliance issues as they are raised, and prompt correction of problems.

HIPAA Privacy: NVA is compliant with all finalized privacy, security and electronic data interchange HIPAA requirements including the HITECH Act and regulations. A Chief Compliance Officer, as well as a privacy and security officer has been appointed to oversee privacy and security compliance. Policies have been implemented to address the minimum necessary standard, reporting of disclosures, access to PHI, requirements for amendment and accounting of disclosures; as well as breach notification provisions pursuant to HITECH. NVA, as a business associate, maintains business associate agreements with our self-funded clients’ health plans and insurance partners.

Fraud Monitoring: We utilize a robust set of internal reports to identify instances of fraud or abuse. These include both prospective and retrospective review of live claim data to identify potential patterns of abuse. Items that we look at include: age appropriate services, matching of ICD and CPT codes, patterns of services (CPT), and patterns of ICD coding. Through this process, we are often able to identify outliers. We then utilize this data to request examination records on a selected population of patient records which are reviewed for completeness, accuracy and appropriateness of the care provided by a Peer Optometrist.

In instances in which it appears that either fraud or abuse has taken place, a second Peer Reviewer will make an independent assessment against the same criteria. If our inter-rater reliability requirement is matched, then we move to the next step. Generally, this includes first counseling the provider and

seeking an agreement on a Corrective Action Plan (CAP). If we are unable to agree to a CAP, then additional action, up to and including suspension of privileges, pursuit of restitution and appropriate reporting, may be taken. In instance in which the fraud or abuse is deemed to put the patient's welfare at risk, immediate suspension is within the right of the Chief Vision Officer.

Implementation Process and Timeline

The implementation for the State would be managed by Francisca Suazo, National Account Executive and Kevin Filippelli, Vice President of Operations. These two individuals have vast experience in the design, implementation and ongoing management of vision programs.

As our client references will attest, NVA has vast experience implementing large groups including Capital Blue Cross and ShelterPoint. After contract award, a customized plan is created that includes all the items needed to implement the program. The responsible parties and timeline for completion will be drafted and distributed to the implementation team.

NVA will work closely with the State by establishing a cross functional team (professional services, credentialing, systems, finance, clinical services, operations, etc.) to manage the implementation process and maintain an open line of communication throughout the timeline. The timeframe and project specifications will be determined by the State in coordination with NVA to ensure that all aspects of the implementation meet with approval and are on schedule.

Comprehensive Eye Examinations and Disease Management

NVA is concerned with the early detection of those who have developed risk factors or preclinical disease particularly those diseases with significant latent periods (e.g., diabetes, hypertension and hyperlipidemia).

Dilated eye examinations are excellent screening tools to identify the early signs of glaucoma, cataracts, retinopathy as well as diabetes and hypertension. NVA captures diagnosis codes provided by all of our network providers and are able to make that information available to the State subject to HIPAA requirements. Clinical information garnered during an eye examination, subject to all confidentiality requirements, will be provided wherever relevant as defined by our policies and procedure, and can be provided to the State clinical review staff or member's primary care physicians.

NVA is also concerned with minimizing the negative effects of already diagnosed disease. Once a diagnosis has been made, addressing the gaps in care is critical. Yet, only we offer this industry leading program, including:

- Addressing Prescription drugs with ocular side effects – an often ignored but potentially serious gap in care are the ocular side effects of a variety of common prescription drugs. We provide a one-of-a kind program option to address these problems through our **Vision Intersect®** program (at an additional cost). Vision Intersect® uses the State's prescription claim information to identify patients at risk and cross references that information with eye examination histories. Direct personalized contact with at-risk patients alerts them to the need for an eye examination.
- Diabetes – It is common knowledge that the complications of diabetes require regular dilated eye examinations. NVA offers programs for diabetics that provide regular direct patient eye examination reminders. We can also work with disease management vendors to identify diabetics who are not obtaining regular eye examinations. Where indicated, we have the ability to provide more than one eye examination over a benefit period to individuals who can benefit

by this expanded benefit and to conduct outreach programs to encourage services (additional fees may apply)

- Glaucoma, Cataracts, Age-related macular degeneration, diabetic retinopathy – additional dilated eye examinations per year can be made available to your covered members for these sight-challenging diseases. Personalized messaging is available to remind these patients of the need to get an eye examination and availability of their vision benefit to pay for it. In addition, disease-specific information for these patients is available on our website.

Service Team

NVA's Client Services Model includes a dedicated Account Executive to oversee implementation, operations and reporting. From the award of the contract (including the implementation process) and for the duration of the program, our dedication to Service and Support to our clients is evident in everything we do. For the entire contract term, all aspects of the program will be handled by the same dedicated Account Manager assigned to you at the start of the implementation process.

The implementation and ongoing support for the State would be managed by Francisca Suazo, National Account Executive, and Kevin Filippelli, Vice President of Operations. These two individuals have vast experience in the design, implementation and ongoing management of vision programs. NVA's Executive Sponsor, Carl Moroff, O.D. would provide clinical oversight as well as ultimate authority over NVA's management of the State's plan.

Accordingly, we will collaborate with the State to recruit and educate additional providers in your service area. Reduced Administrative Costs

NVA unit costs are amongst the lowest in the industry. These low unit costs (examinations, frames, lenses, etc.) coupled with our competitive administrative fees will reduce the State's exposure to both the high cost of care and to the cost of administration.

NVA's full eye care benefit will encompass routine vision care (examination and dispensing of eyewear), as well as an occupational vision program, a funded laser correction program, a medical exception program and an upgrade program. Through NVA, State employees will be free to choose the types and brands that fit their preferences and their provider's prescription. NVA does not use frame towers, frame collections or contact lenses formularies. NVA does not limit, restrict, or direct our members to certain selections, brands, manufacturers or towers.

Vision Service Network

NVA has a strong National Network consisting of over 50,000 provider location combinations and consists of private practitioners and optical retailers including Optometrist, Ophthalmologists and Opticians.

NVA's proposed New York-based network has over 3,000 provider location combinations.

Credentialing/Accreditation of Service Providers

It is the policy of NVA to certify and recertify the credentials, patient care quality and other factors of all network providers of vision care services using the standards set out in our policy and in accordance with applicable state laws. All ECPs are credentialed/re-credentialed following NCQA guidelines and must meet our primary source verification requirements before admittance to our panel.

Compliance Program

NVA is committed to maintaining the highest ethical standards in the conduct of your business and offer our personnel's vast experience working within the NY State guidelines to deliver fully compliant services. NVA participates in a comprehensive, corporate wide compliance program as required for the administration of your commercial and federal vision care programs. NVA's compliance program incorporates the key elements for an effective compliance plan including the following: written policies, procedures and standards of conduct; designation of a Chief Compliance Officer and Compliance Committee that meets monthly and reports to the Compliance Subcommittee of the NVA Board of Directors; effective training and education of officers, directors, employees, providers, subcontractors and agents; effective lines of communication ensuring confidentiality and/or anonymity; well-publicized disciplinary standards; an effective system of routine monitoring and identification of compliance risks; a system for promptly responding to compliance issues as they are raised, and prompt correction of problems.

HIPAA Privacy: NVA is compliant with all finalized privacy, security and electronic data interchange HIPAA requirements including the HITECH Act and regulations. A Chief Compliance Officer, as well as a privacy and security officer has been appointed to oversee privacy and security compliance. Policies have been implemented to address the minimum necessary standard, reporting of disclosures, access to PHI, requirements for amendment and accounting of disclosures; as well as breach notification provisions pursuant to HITECH. NVA, as a business associate, maintains business associate agreements with our self-funded clients' health plans and insurance partners.

Fraud Monitoring: We utilize a robust set of internal reports to identify instances of fraud or abuse. These include both prospective and retrospective review of live claim data to identify potential patterns of abuse. Items that we look at include: age appropriate services, matching of ICD and CPT codes, patterns of services (CPT), and patterns of ICD coding. Through this process, we are often able to identify outliers. We then utilize this data to request examination records on a selected population of patient records which are reviewed for completeness, accuracy and appropriateness of the care provided by a Peer Optometrist.

In instances in which it appears that either fraud or abuse has taken place, a second Peer Reviewer will make an independent assessment against the same criteria. If our inter-rater reliability requirement is matched, then we move to the next step. Generally, this includes first counseling the provider and seeking an agreement on a Corrective Action Plan (CAP). If we are unable to agree to a CAP, then

additional action, up to and including suspension of privileges, pursuit of restitution and appropriate reporting, may be taken. In instance in which the fraud or abuse is deemed to put the patient's welfare at risk, immediate suspension is within the right of the Chief Vision Officer.

CUSTOMER SERVICE

- (1) Confirm that the Offeror will maintain a call center located in the United States employing a staff of fully trained customer service representatives and supervisors available, at a minimum, between the hours of 8 a.m. and 8 p.m. ET, Monday through Friday and between the hours of 9 a.m. and 4 p.m. ET on Saturday, except for legal holidays observed by the State. If additional hours are proposed please state.**

National Vision Administrators, L.L.C. dba NVA Vision Services & Administrators Agency (NVA) confirms. NVA provides all of our members with live, U.S.-based customer service 24 hours a day/7 days a week/365 days a year from our Corporate Headquarters in Clifton, NJ and our Mechanicsburg, PA locations. NVA's 40 highly trained Customer Service Representatives (CSR) is one of the many reasons NVA has been able to experience a 99% membership retention rate over the past 37 years, a benchmark in the industry.

- (2) Describe the training that will be provided to customer service representatives before they go "live" on the phone with Members/Providers. Include:**

All NVA CSRs have a minimum of five years customer service experience, with at least two years dedicated to call center experience and training. All candidates undergo NVA's six-week training program and must pass our test in order to be admitted into the NVA Customer Service Unit.

During the first week, the representatives would have a Team Leader seated with them to help them navigate the NVA system and to assist with additional questions, if needed. This "shadowing" would continue for a minimum of one week and beyond that point, if deemed necessary by the Customer Service Manager or Team Leader.

Once the training program curriculum has been completed, the customer service representative would be tested and must receive a passing grade before going live.

All representatives, whether new or tenured, are monitored and receive additional training on a regular basis. Monthly reports are given to each representative to ensure they have met the goals set by the Department Manager. Each representative can see their standing/ranking as it relates to others within their department. Opportunities for improvement are reviewed, if necessary. An overview of our training program has been included as Exhibit 3.1.

During implementation, all CSR would attend a series of training on the all aspects of the State's vision plan. After each training session, CSRs are tested and scored. Each representative would be required to score with 90% or greater accuracy in order to handle calls from State members.

(a) A description of the internal reviews that are performed to ensure quality service is being provided to Members/Providers;

NVA uses the below performance indicators to measure quality provided by our customer service unit. NVA's Customer Service manager and supervisors daily monitor these indicators to ensure that our members are experiencing timely service.

	Standard	2015
Average speed of answer	30 seconds	24 seconds
Abandonment rate	3%	2.07%
First call resolution	98%	99%
Blockage rate	3%	0%

In addition, member calls and any resolution are recorded and randomly monitored for accuracy, representative status and queue performance to measure complete participant satisfaction. Tracking is done directly to the member file and is viewed by NVA management to ensure Quality and Performance Measures are met on each call. Monitoring and tracking results are then incorporated into training goals based on the specific needs of each representative. Reports are produced to provide historical perspective, allowing NVA to measure call performance and modify as necessary.

NVA Customer Service supervisors also generate monthly reports indicating the number of calls in each category. These reports are reviewed to determine if technological improvements are available to alleviate the high volume calls (e.g., Interactive Voice Response (IVR) system or website enhancements).

NVA's regular Member Satisfaction surveys also include questions regarding member satisfaction with NVA Customer Service Representatives and our IVR system.

(b) The first call resolution rate for the proposed call center;

NVA's first call resolution rate is 99%.

(c) The call center location, average staff and turnover rate for call center employees;

Our average, customer service representatives tenure is 9 years, and the average CSR turnover rate is less than 1%.

(d) Ratio of management and supervisory staff to customer service representatives and;

NVA's ratio of management/supervisory staff to customer service representatives is 1:8.

(e) Proposed staffing levels including the logic used to arrive at the proposed staffing levels.

Kevin Filippelli, NVA's Vice President of Operations, and our Customer Service Manager constantly review the staffing levels of our customer service department to ensure proper coverage for all new and current clients. NVA's IVR and website are also available 24/7/365 and provide the same information that members receive from our CSRs. However, in periods of high volume or emergencies, we can draw upon additional representatives from our sister company, Benecard, if needed, who have been cross trained to accept vision related calls.

(f) A description of the orientation and training materials provided to employees to guide them in the administration of the program.

Call center staff are provided with numerous online resources to assist them in the administration of all NVA vision programs. Policy and procedures, scripts, plan summaries, request forms and contact lists are stored on SharePoint for easy access to the most recent tools.

(3) Describe the information, resources and capabilities that will be available for the customer service representatives to address and resolve member inquiries. Include:

(a) Whether any Interactive Voice Response (IVR) system is proposed;

Members calling NVA's toll-free member service number can access the following information through NVA's Interactive Voice Response (IVR) system:

- Benefit Eligibility Status
- Direct Reimbursement Claims Data
- Participant and/or Dependent Eligibility
- Participating Eye Care Professionals in their ZIP Code

At any point in the call, members can exit to speak with a member service representative, as our corporate philosophy is to allow members to self-serve but not require it.

(b) A sample of the IVR script and a description of customizable options, if any, the Offeror is proposing for the Plan;

Please refer to Exhibit 3.2 for NVA's IVR script.

(c) A description of the management reports and information that will be available from the system including any key statistics the Offeror is proposing to report;

NVA would provide the State with our Customer Service Tracking Report that list our monthly key performance indicator statistics. Please refer to Exhibit 3.3 for a sample report.

(d) A description of the capabilities of the phone system to track call types, reasons and resolutions.

Calls are monitored and recorded through NVA's ShoreTel 230 System. Supervisors can get a clear picture of agent status and queue performance. Reports are produced to provide historical perspective, allowing us to measure call performance and make changes accordingly. Customer service supervisors randomly monitor incoming calls on a daily basis. Daily logs and customer satisfaction surveys are also used to determine the service level provided by customer service representatives.

Supervisors review calls daily with the customer service representative while the call and the outcome are still fresh in their minds for complete recall.

At this time, all concerns and opportunities for additional training (if any) are presented.

(4) Describe the Offeror's proposed back-up systems for its proposed primary telephone system which would be used in the event the primary telephone system fails or is

unavailable. Indicate the number of times the back-up system has been utilized over the past two (2) years.

Prompt, accurate assessment of a disaster's severity is essential to providing thorough recovery in minimal time. NVA maintains two separate operating facilities and functioning data centers in Clifton, NJ and Mechanicsburg, PA. Both have the equipment necessary to rapidly resume operations in the event of a major problem.

In the event of any type of service interruption, the managers on duty immediately notify the disaster recovery management team and inform affected department managers. The team then assesses the damage, determines which systems and operational capabilities are still operative and identifies functions that will require the use of backup facilities. If backup procedures are necessary, the disaster recovery management team notifies backup site personnel and begins emergency operations. NVA has utilized our backup system twice over the past two (2) years.

(5) Describe the information and capabilities the Offeror’s proposed website will provide to Members/Providers. Does the Offeror currently have customized websites for its clients? If so, describe the process utilized by the Offeror to establish customized websites for its clients.

NVA's website, www.e-nva.com, offers clients, members and providers the following capabilities:

NVA empowers members to control their own out-of-pocket costs with two unique online educational tools. NVA’s *Smart Buyers*® Guide provides members with the critical education needed to be better shoppers of eyewear. The *Vision Benefit Maximizer*® provides members with pricing and availability knowledge about eyeglass frames at a provider location in advance of a provider visit!

- NVA's Vision Benefit Maximizer® adds completely unique, but absolutely critical, data to the traditional network provider search. Added to search results is the number of frames available to the member at no out-of-pocket cost based on member's specific benefits. This data empowers the member to select providers in a way that maximize their buying power. No other vision vendor offers this critical data to its members.

Vision Benefit Maximizer network provider searches are accomplished using zip code radius, state and city and/or by provider name. Vision Benefit Maximizer returns a list of network providers matching member entered search criteria. The list provides the member with the following information:

- Provider Name, address and phone number
 - Service Level (exam only, eyewear only, or full service)
 - Number of Frames Available at no out-of-pocket cost (if applicable)
 - Location map with distance in miles
 - Hours of operation
 - Handicap accessibility
- NVA's Smart Buyers® Guides to Eyeglass Frames and Lenses. These are easy to use guides explaining all relevant factors a member might consider when selecting frames and lenses. Understanding the differences and similarities in frame and lens options before buying empowers the member to ask the right questions, know the quality and cost alternatives so that he or she can buy the right materials at the right price such as:
 - Eyeglasses frames, based on face shape, skin/hair/eye color, strength of prescription, frame fit, hinge type, frame material, etc.
 - Eyeglass lenses, with detailed information on specific lens types and coatings which are rapidly becoming the most expensive components of a pair of glasses

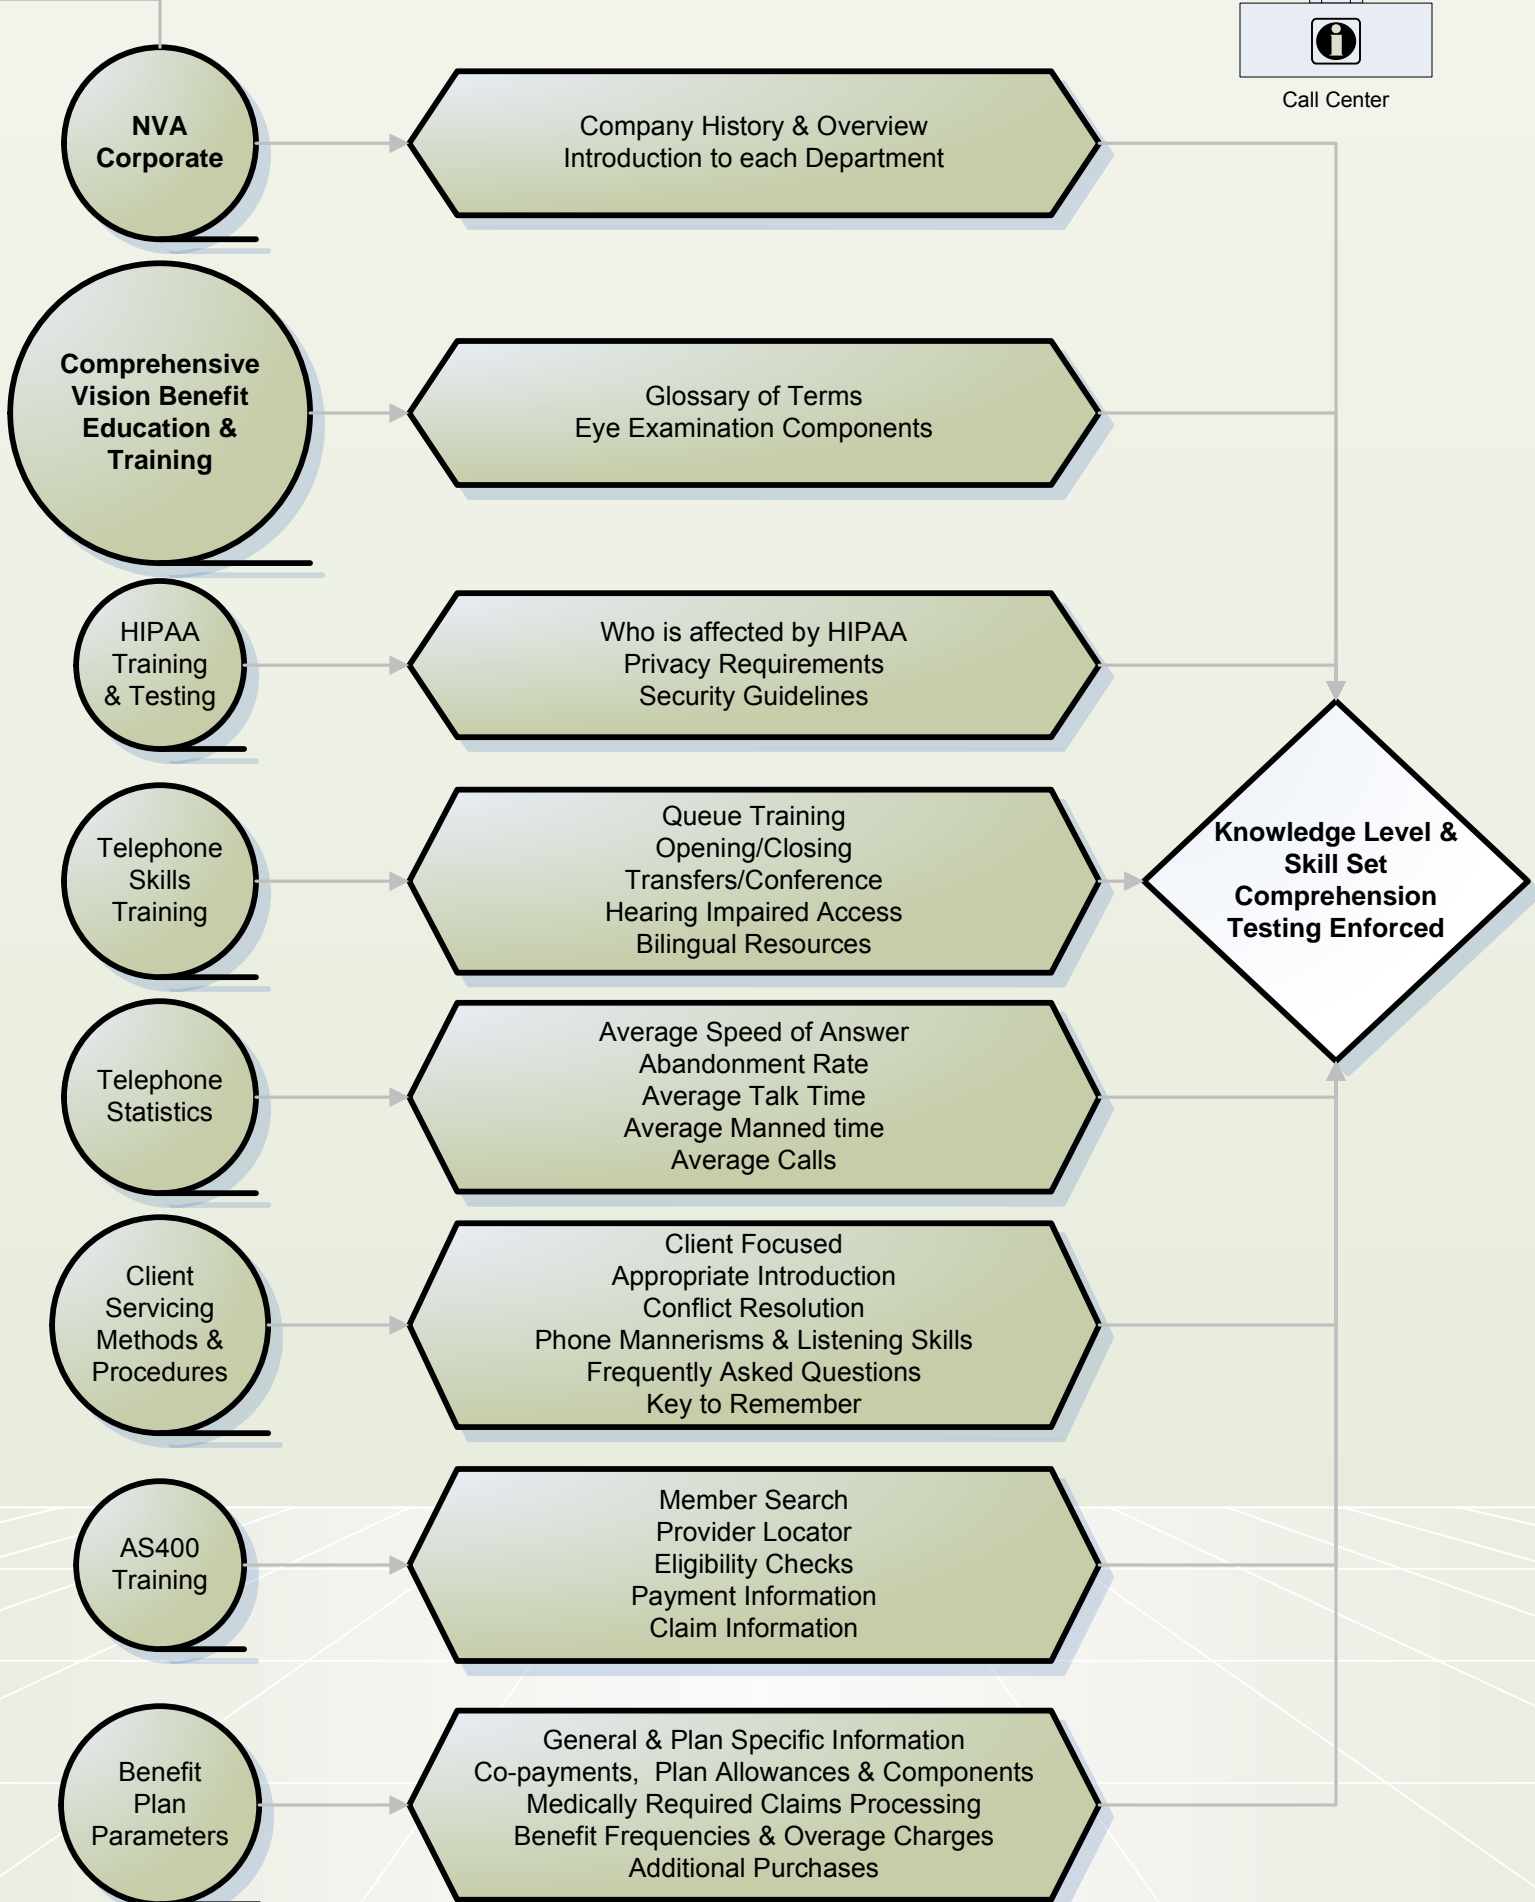

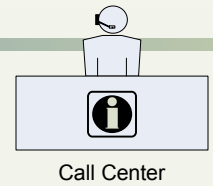

Yes. NVA offers custom website to clients. NVA's welcomes the opportunity to determine the State's requirements. Once the specifications have been outlined, NVA would develop an implementation timeline and hold weekly meetings with all relevant parties until the website has been launched.

(6) Describe what resources will be available to non-English speaking and hearing impaired enrollees to address and resolve their inquiries.

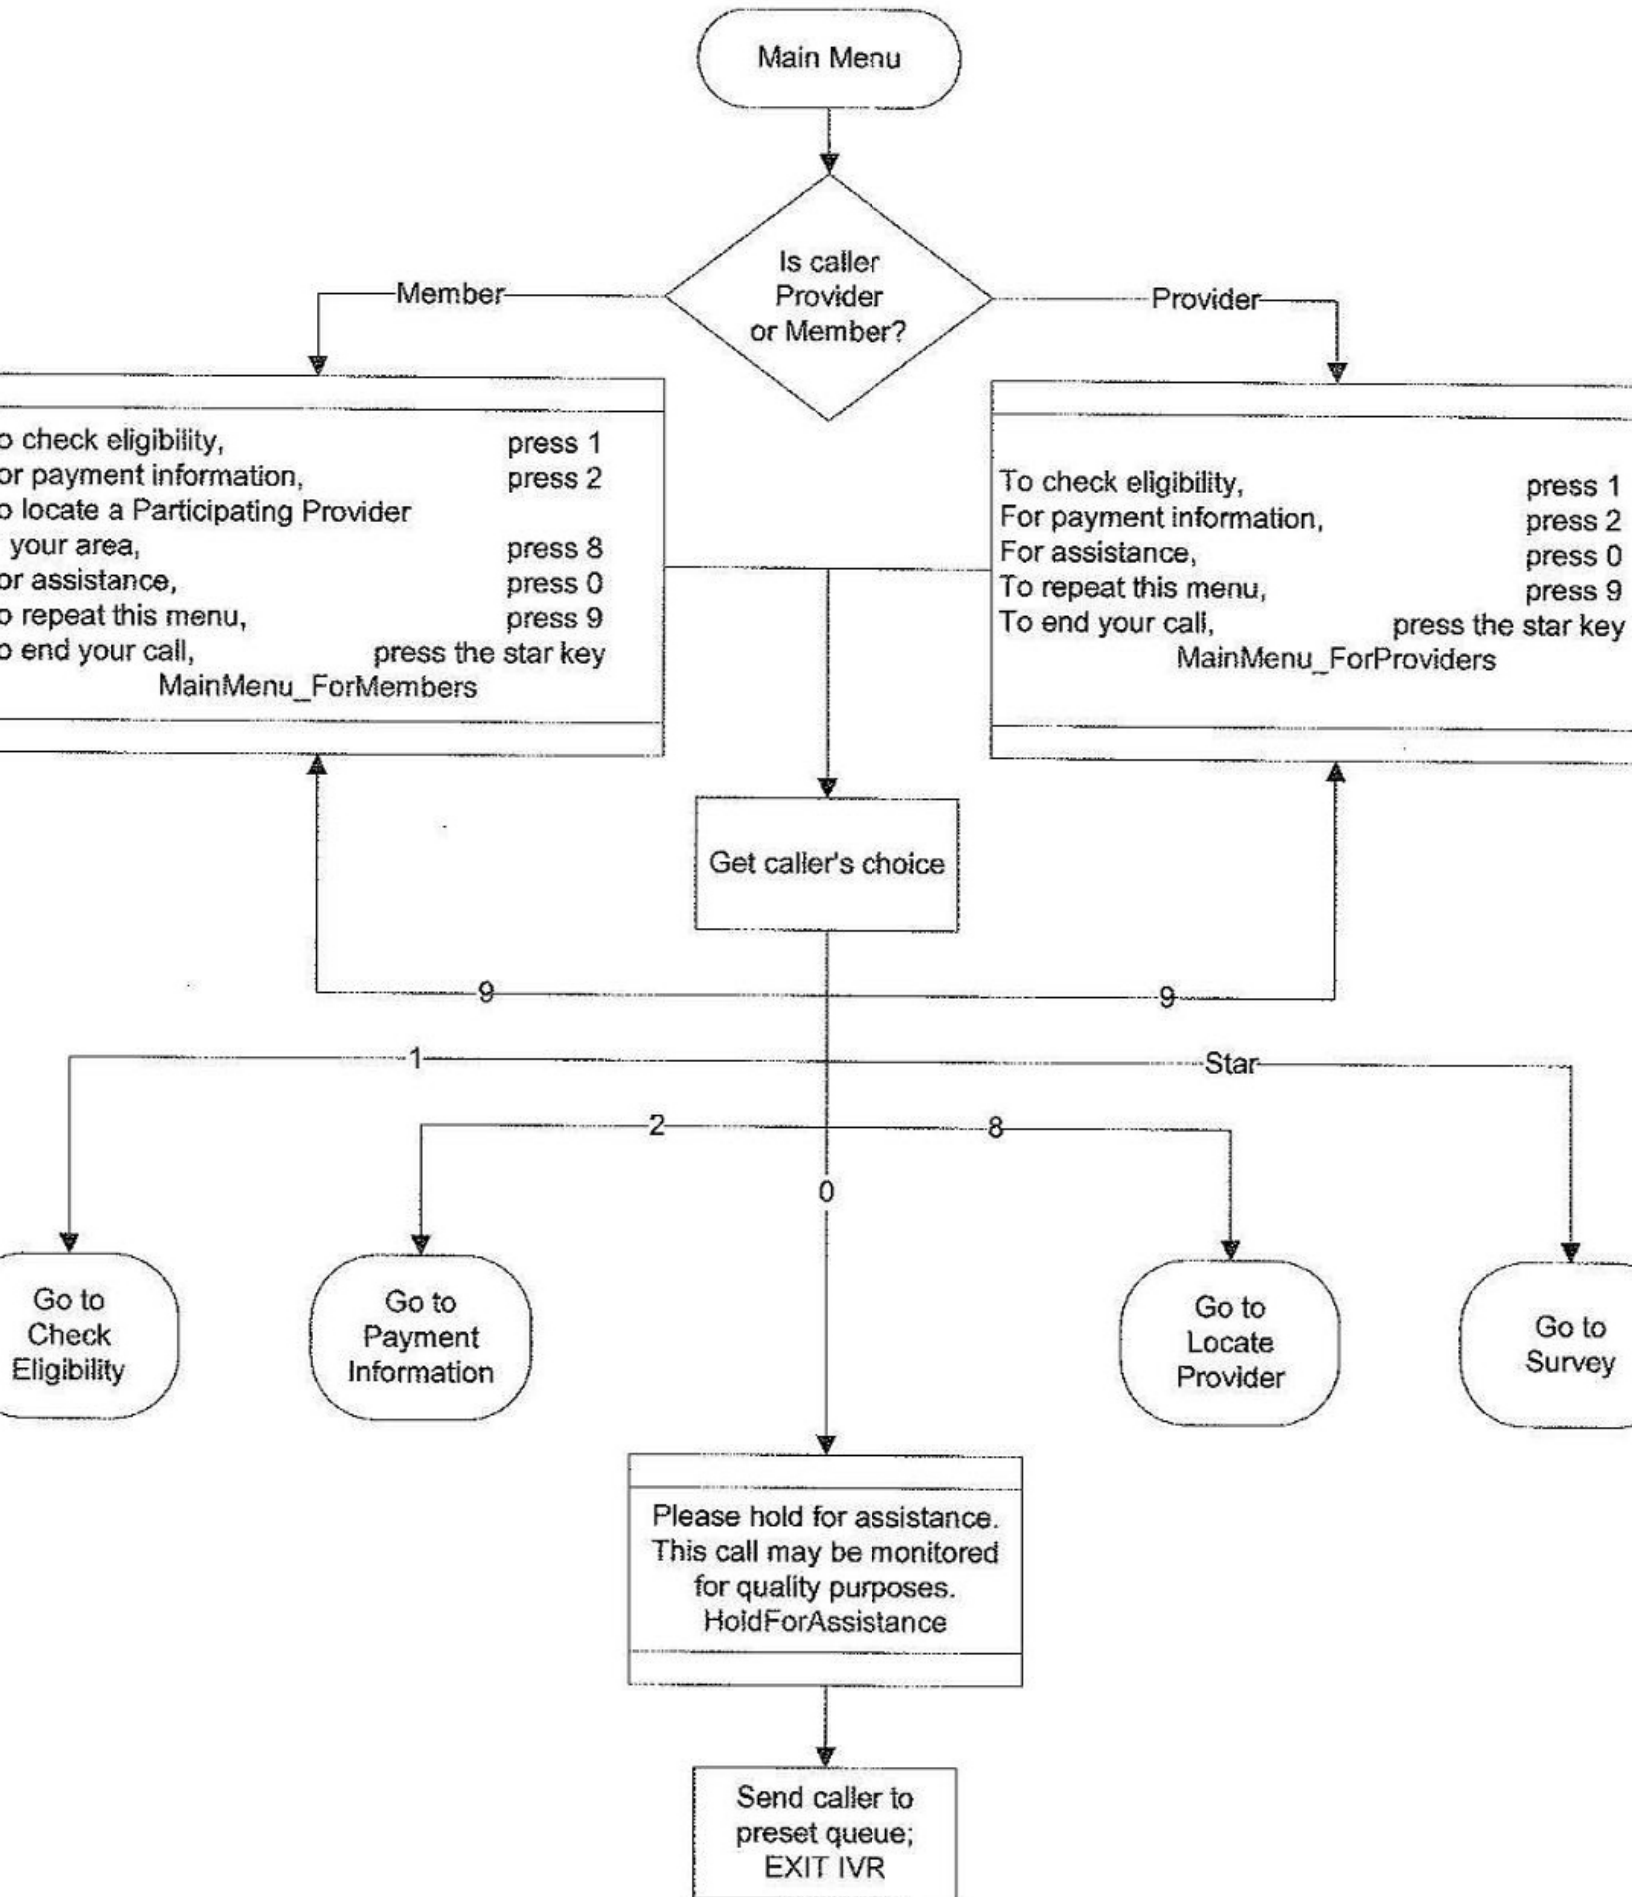

NVA provides additional languages support through live representatives (e.g. Spanish) and technology enhancements, such as a telephone translation service, (AT&T Language Line). NVA also provides a TDD line to assist hearing-impaired members.

(7) Call Center Telephone Performance Guarantees: For each of the four (4) Call Center Telephone service level standards above, NVA shall propose the forfeiture of a specific dollar amount of the Administrative Fee, for failure to meet the Offeror's proposed Performance Guarantee.

- (a) **Call Center Availability Performance Guarantee:** NVA's quoted amount to be credited against the Administrative Fee for each .01 to 1.0% below the standard of ninety-nine and five-tenths percent (99.5%) that the Offeror's telephone line is not operational and available to Members and Providers during the Offeror's Call Center Hours as calculated on a calendar year basis, is \$5,000.
- (b) **Call Center Telephone Response Time Performance Guarantee:** NVA's quoted amount to be credited against the Administrative Fee for each .01 to 1.0% below the standard of ninety percent (90%) that incoming calls to the Offeror's customer service toll-free line that are not answered by a customer service representative within sixty (60) seconds, as calculated on a calendar year basis, is \$5,000.
- (c) **Telephone Abandonment Rate Performance Guarantee:** NVA's quoted amount to be credited against the Administrative Fee for each .01 to 1.0% of incoming calls to the Offeror's telephone line in which the caller disconnects prior to the call being answered by a customer service representative in excess of the standard of three percent (3%) as calculated on a calendar year basis, is \$5,000.
- (d) **Telephone Blockage Rate Performance Guarantee:** NVA's quoted amount to be credited against the Administrative Fee for each .01 to 1.0% of incoming calls to the Offeror's telephone line that are blocked by a busy signal, in excess of three percent (3%), as calculated on a Calendar Year basis, is \$5,000.

NVA would provide the State with materials to keep on hand for new enrollees as requested by the State.

Please refer to Exhibit 4.1 for NVA's draft timeline for developing, printing and mailing Enrollee and Provider Plan materials.

(2) Does the Offeror have staff within its organization or a Key Subcontractor that specializes in enrollee communications? What is their capacity to provide the communication support describe above?

ENROLLMENT MANAGEMENT

- (1) Describe the Offeror's proposed testing plan to ensure that the initial enrollment load is accurately updated to the Offeror's system and that the Offeror's enrollment system interfaces correctly with the Offeror's claims system.**

Enrollment files would be part of the implementation planning and cross functional team discussions, including layout, transmittal and testing, with specific dates and responsibilities.

Once the test enrollment file is submitted via NVA's secure SFTP site, NVA would apply the file to our system to determine if the file has any issues or errors, NVA's eligibility department would work with the State to resolve any errors in format or transmission. Additional files would be tested, as necessary until all parties were satisfied that the enrollment data could be successfully transmitted and uploaded.

- (a) Describe what quality controls will be performed before the initial and ongoing enrollment transactions are loaded into the claims adjudication system.**

Once the test enrollment file is submitted via NVA's secure SFTP site, NVA applies the file to our system to determine if the file has any issues or errors, Testing includes, format, transmission, data elements etc. Individual files that don't load are reviewed and reconciled as necessary. NVA's eligibility department would work directly with the State to resolve any errors. If needed, the State would then provide a new file.

- (b) Describe how the Offeror's system will identify transactions that will not load into the Offeror's enrollment system. What exceptions will cause enrollment transactions to fail to load into the enrollment system? What steps will be taken to resolve the exceptions, and what is the proposed turnaround time for the exception records to be added to the enrollment file?**

NVA eligibility processing modules contain edits that verify the logical integrity of the data being processed (valid dates of birth, M/F gender, etc.). Manually processed eligibility transactions that contain errors preventing them from being loaded into the database generate real-time error displays identifying the data element(s) that need to be corrected. Electronically processed eligibility transactions that contain errors preventing them from being loaded into the database are output to an exception report that is provided to the Account Manager. The Account Manager will work with the Client to resolve the data inconsistency and have the transaction(s) processed. The updated eligibility can be processed manually as soon as the data inconsistency has been corrected.

(2) Describe the Offeror's system capabilities for retrieving and maintaining enrollment information within forty-eight (48) hours of its release by the Department as well as:

NVA confirms our system capabilities for retrieving and maintaining enrollment information within 48 hours of its release by the Department.

(a) How the Offeror's system will maintain a history of enrollment transactions and how long enrollment history will be kept online. Indicate whether or not there will be a limit as to the quantity of historic transactions that can be kept online.

NVA retains all data regarding active groups on the production system with no time limits. If a group has been terminated for more than five years, all related data is removed from the production system and kept on a separate archive system.

Paper claims and eligibility requests are scanned and retained for a minimum of seven years.

(b) How the Offeror's system will handle retroactive changes and corrections to enrollment data.

NVA's standard rules for changes to eligibility are the following:

- Retroactive additions can be made up to 12 months, with administrative fee payment
- Retroactive terminations and cancellations can be made up to 30 days, with pro-rated administrative fee and billing for any charges incurred

We would be pleased to discuss the State's requirements, if different from NVA's standard rules.

(c) Confirm that the Offeror's enrollment and claims processing system has and will have the capability to administer a social security number and Employee identification number. Indicate whether or not the system has any special requirements to accommodate these Enrollee identification numbers? Explain how Dependents will be linked to the Enrollee in the enrollment and claims processing systems.

NVA confirms that our enrollment and claims processing system has and will have the capability to administer a social security number and Employee identification number. NVA does not have any special requirements to accommodate these Enrollee identification numbers.

Each Subscriber is assigned a unique internal identifier and every Subscriber and Dependent entry contains a reference to the subscriber's identification number.

(3) Describe the Offeror's ability to meet the administrative requirements for national Medical Support Orders and Dependents covered by a Qualified Medical Child Support Order (QMCSO), including storing this information in the Offeror's system so that information about the Dependent is only released to the individual named in the QMCSO.

NVA confirms our ability to meet the administrative requirements for national Medical Support Orders and Dependents covered by a Qualified Medical Child Support Order (QMCSO) including storing this information in the Offeror's system so that information about the Dependent is only released to the individual named in the QMCSO. NVA's system supports one mailing address per

Subscriber. In addition, we also support separate potential 'QMCSO' (custodial parent) addresses for each Dependent.

(4) Describe the process the Offeror will utilize to verify a dependent child's full time student status prior to authorization of Vision Plan services. Confirm whether this process is utilized for other customers.

NVA looks to the State to determine dependent eligibility and to provide updates to student status. NVA would provide the State with online access to NVA's website to generate Group Dependent Aging Report to assist with the verification.

(5) Describe how the Offeror's enrollment system data transfer and procedure for handling data are HIPAA compliant.

NVA's enrollment system data transfer and procedure for handling data are HIPAA compliant. NVA possess the flexibility to receive electronic enrollment data through a variety of methods and media – including FTP, Secure Email, Diskette, and CD. These files can be sent to NVA on a daily, weekly, monthly or quarterly schedule. Files can be sent as 'full files' (all active members are sent on each file), or 'changes only' (only members being added, terminated or having changes are sent on a particular file). For full file processing NVA would term by omission any member or dependent not on that file.

Electronic formats include, but are not limited to:

- NVA's 220 Byte Flat File Record Layout - enrollment data sent in this format is by nature compatible with NVA system and is easily loaded and processed.
- HIPAA 834 File Format - this data is easily converted into NVA's standard layout.
- NVA's Excel Spreadsheet Layout - this also contains all data elements required to successfully manage members enrollment data.

In addition to the three formats above, NVA has the capacity to work on a client-by- client basis to accept various client-specific file formats.

(6) Confirm that the Offeror will maintain a read only connection to the NYBEAS enrollment system, and that Offeror's staff will be able to access enrollment information through NYBEAS during the required hours.

NVA confirms.

(7) Describe the Offeror's backup system, process or policy that will be used in the event that enrollment information is not immediately available.

Enrollment information is available through NVA's AS400 Vision Benefit Management System, a proprietary application internally-developed and operated.

NVA maintains two separate operating facilities and functioning data centers in Clifton, NJ and Mechanicsburg, PA. Both have the equipment necessary to rapidly resume operations in the event of a major problem.

In the event of any type of service interruption, the managers on duty immediately notify the disaster recovery management team and inform affected department managers. The team then assesses the damage, determines which systems and operational capabilities are still operative

and identifies functions that will require the use of backup facilities. If backup procedures are necessary, the disaster recovery management team notifies backup site personnel and begins emergency operations. Typically, we would be operational within 15 minutes.

(8) Describe how the Offeror will ensure that the provider portal is updated timely and accurately when accessed by Participating Providers to verify enrollee eligibility status.

Once eligibility changes are applied, they are immediately available to our providers, customer service staff, IVR and website.

(9) *Enrollment Management Performance Guarantee:* *NVA's quoted amount to be credited against the Administrative Fee for each twenty- four (24) hour period or portion thereof beyond forty-eight (48) hours from the release by the Department that one hundred percent (100%) of the Program enrollment records that meet the quality standards for loading is not loaded into the Offeror's enrollment system, is \$500.*

- (1) Provide an outline of the key elements and tasks that the Offeror proposed would be included in its Transitions Plan to ensure that all the required duties and responsibilities are completed if the Offeror were to be the incumbent contractor. Include a brief explanation on how the Offeror would accomplish this with the successor contractor.**

- (2) Confirm that if selected, the Offeror shall provide an updated Exhibit I.Y on December 1, 2016 confirming that the proposed Participating Provider Network will be implemented as required on January 1, 2017.**

NVA confirms.

- (3) Describe the approach(es) the Offeror would use to solicit additional providers to enhance its proposed Participating Provider Network or to fulfill a request to add a Participating Provider.**

NVA welcomes the opportunity to add additional providers requested by the State or members to our network, subject to our stringent credentialing criteria which usually can takes no more than 30 days.

The State or members can nominate a provider or request recruitment by contact NVA’s account executive, customer service unit or through NVA’s website, www.e-nva.com. NVA would contact the provider within 1 business day of request.

Provider approved to join our panel are immediately entered into our system and are available in “real-time” to our members and providers through NVA’s website, www.e-nva.com.

- (4) If a national network of Participating Providers is proposed, explain whether Members traveling or residing outside of New York State will have access to the same level of benefits as those offered by Participating Providers located in New York State.**

Yes. NVA has proposed our national network of over 50,000 provider location combinations to the State and its members. NVA confirms that members traveling or residing outside of New York State would have access to the same level of benefits as those offered by participating providers located in New York State.

(5) Participating Provider Access Performance Guarantees: The Offeror must guarantee that throughout the term of the Agreement, Enrollees living in urban, suburban and rural areas of New York State will have access to a Participating Provider. The Offeror must propose an access standard that meets or exceeds the minimum access standards set forth in the “Participating Provider Network” Section of this RFP. The Offeror shall propose the forfeiture of a specific dollar amount of the Administrative Fee for failure to meet these guarantees.

- (a) NVA’s quoted amount to be credited against the Offeror’s Administrative Fee is \$5,000 for each .01 to 1.0% below the ninety-five percent (95%) minimum access standard for any Calendar Year in which the Participating Provider Access for Urban Areas of New York State Performance Guarantee, as calculated on a Calendar Year basis, is not met by the Offeror.*

- (c) NVA’s quoted amount to be credited against the Offeror’s Administrative Fee is \$5,000 for each .01 to 1.0% below the ninety-five percent (95%) minimum access standard for any Calendar Year in which the Participating Provider Access for Rural Areas of New York State Performance Guarantee, as calculated on a Calendar Year basis, is not met by the Offeror.*

Laser Vision Correction Participating Provider Network

(1) Indicate whether or not the Offeror currently has, and is proposing, a contracted Laser Vision Correction Network that provides both a covered benefit and a discount program. If so, please provide a listing of the proposed Laser Vision Correction Participating Providers located in New York State.

Yes. NVA offers members discounts on laser vision correction services through the National LASIK Network. The National LASIK Network is comprised of more than 550 provider locations, including LasikPlus Vision Centers nationwide, and offers a broad choice of the latest technologies in the industry.

The National LASIK Network offers NVA members the following benefits:

- Free consultation with all in-network providers
- Member discounts not available to the public
- 15% off standard prices or 5% off promotional prices
- Featured Providers offer set prices
- New York-based participating providers in: Albany, Poughkeepsie, Fishkill and New Hartford (areas of high concentration of eligible employees) as well as all major metropolitan areas of the state (see attached list).

(2) Propose the Offeror’s definition of “reasonable access” as regards the Laser Vision Correction Network.

Laser Vision Correction is considered a specialty service, which is not offered by all ophthalmologists. In addition this procedure requires the use of unique examination equipment to determine candidacy as well as an FDA approved laser to perform the procedure. Many surgeons, especially in smaller markets do not invest in this technology as volume does not warrant the expense, therefore access expectations are significantly different than those for a routine eye network. Generally, access for Laser Correction is based on a 50 mile radius, however, in NY that distance is actually quite a bit less.

(3) What is the minimum, maximum and average discount offered by Laser Vision Correction Participating Providers, expressed as a percentage? Do not include any cost information in the Technical Proposal.

The average discount offered by participating Lasik providers is 15% off NVA negotiated standard prices or 5% off promotional prices.

(4) Confirm that the Offeror will solicit additional Laser Vision Correction Participating Providers at the Department’s request.

NVA confirms.

(5) Describe how the Laser Vision Correction Participating Network and its availability will be communicated to enrollees.

Information on NVA’s Laser Vision Correction program is included in NVA’s open enrollment/health fair materials and new member welcome kits. Members may also access information and search for a participating provider on our website or by contacting our customer service unit.

Participating Provider and Laser Vision Correction Provider Communication

(1) Describe the Offeror’s proposed process to ensure that the Participating Providers and Laser Vision Correction Participating Providers meet the applicable state licensing requirements and are in compliance with all other federal and state laws, rules and regulations. What is the resource, data base, or other information that will be used by the Offeror to verify this information?

All NVA providers are credentialed and re-credentialed (re-credentialing occurs every three years) following NCQA guidelines.

All practitioners applying to the NVA network are reviewed against the Office of Inspector General's (OIG) list of excluded individuals reports, Medicare and Medicaid sanctions report, the U.S. Department of Treasury Terrorist Sanction list, and the state licensing boards to determine if there has been any loss of licensure; history of felony convictions or any other sanction. All NVA providers are queried through the National Practitioners Data Bank upon initial credentialing and then are enrolled in the continuous monitoring program thereafter.

(2) Describe the Offeror’s proposed approach for credentialing Participating Providers and Laser Vision Correction Participating Providers. Specify if the Offeror is proposing to utilize an external credentialing verification organization. When was the credentialing verification

process last completed? What is the Offeror's process for confirming continued compliance with credentialing standards? How often does/will the Offeror conduct a complete review?

All NVA providers are credentialed and re-credentialed (re-credentialing occurs every three years) following NCQA guidelines and must meet the following primary source verification requirements:

- **Licensure:** The provider applicant holds a current and valid license in the state for which he practices.
- **Education and Training:** The Medical Board Certification and state licensing agencies are used to verify education and training. Further information obtained directly from the Educational Institution attended may also be used.
- **Board Certification:** The American Board of Medical Specialties (ABMS) is queried to verify Board Certification. Please note currently only ophthalmologists may become board certified.
- **Work History:** NVA's criterion accepts no less than a 5-year work history. All work history and experience must be documented and retained in the provider profile for the length of his tenure in the network. NVA would review and document any gaps of 6 months or more. This review would be presented to the Credentialing Committee to determine the provider's qualifications to become part of the network. NVA reserves the right to request written clarification of any lapse in work history from all providers.
- **Malpractice Coverage:** The applicant must submit evidence of malpractice coverage, including dates of coverage and amounts that meet the NVA standard.

In addition, NVA's credentialing criteria includes demographic information, license number, SSN, employer identification number and office owner and principals. We also require office information including hours of operation; specialties; type of practice; office instruments and equipment; Usual, Customary, Reasonable (UCR) charges; foreign languages spoken and handicap accessibility.

Other required attachments include:

- DEA/CDS registration, if applicable
- State-Controlled Substance Certificate(s), if applicable
- Professional Liability Insurance Certificate of Coverage
- Executed Eye Care Profession disclosure form

All practitioners applying to the NVA network are reviewed against the Office of Inspector General's (OIG) list of excluded individuals reports, Medicare and Medicaid sanctions report, the U.S. Department of Treasury Terrorist Sanction list, and the state licensing boards to determine if there has been any loss of licensure; history of felony convictions or any other sanction. All NVA providers are queried through the National Practitioners Data Bank upon initial credentialing and then are enrolled in the continuous monitoring program thereafter.

Qualified providers receive a letter and signed copy of the agreement for provider participation. Providers who do not qualify for the network are notified of NVA's decision by letter. A copy of the letter is kept on file with their agreement for future reference.

NVA recredentials a segment of our network continuously and averages once every 3 years for each provider.

- (3) What steps will the Offeror take between credentialing periods to ensure that Participating Providers and Laser Vision Correction Participating Providers that are officially sanctioned, disciplined, or had their licenses revoked are removed from the Participating Provider Network and/or Laser Vision Correction Provider Network as soon as possible? What steps will the Offeror take, if any, to advise members when a Participating Provider/Laser Vision Correction Participating Provider has been removed from the associated network(s)?**

NVA enrolls all providers are queried through the National Practitioners Data Bank upon initial credentialing and then are enrolled in the continuous monitoring program thereafter. Any provider, who is officially sanctioned, disciplined or had their licenses revoked, are immediately terminated from our network and removed from our system. Once removed from our system, the provider is no longer listed in our online directory or in our IVR system. NVA would communicate any significant changes to the State as requested.

Participating Provider and Laser Vision Correction Provider Contracting

- (1) Explain the Offeror's proposed contracting process. Describe the type of data analysis or access analysis that is/will be performed before extending participation into your network(s) to a new Provider. Provide a copy of the Offeror's proposed Participating Provider and Laser Vision Correction Participating Provider contracts, rate sheets (if applicable), and provider manual.**

All provider applications are sourced verified according to NCQA standards. Upon full review, provider files are presented to the Credentialing Committee. If the Committee approves the provider's credentials, they are notified and added to the network. The Committee may also deny credentialing or pend the application in order to request additional information when necessary.

All approved providers are sent a signed agreement (Exhibit 9.1) and provider manual (Exhibit 9.2). The provider agreement and provider manual describe the guidelines to which the providers must adhere for participation in the NVA network. The manual also clearly explains the general provisions and procedures for all NVA plans, such as how to provide the member with their plan allowances/copays and instructions on how to bill the member.

- (2) Explain the legal and operational relationship between the Offeror and any optical labs that are used to supply materials provided by Participating Providers.**

While NVA has long standing relationships with laboratories throughout the country, NVA does not own and/or operate an ophthalmic laboratory.

NVA offers our providers the freedom to choose the optical laboratory that would be the most expedient and accurate for the type of materials being dispensed.

Any laboratory utilized must meet our high standards and superior level of service as identified in our network provider agreements. All applicable local, state and federal requirements are followed.

Network Administration and Quality Assurance

(1) Describe the Offeror's proposed method(s) for communicating with Participating Providers to advise them of Plan benefits and modifications. Include copies of newsletters or other correspondence, as applicable.

As new clients enroll in the NVA vision program, NVA disseminates client-specific plan sheets to our providers prior to the client's effective date. Each plan sheet outlines member covered benefits, member payment responsibility and provider's expected reimbursement from NVA.

On an ongoing basis, through strategically-timed check statement messages, plan benefit descriptions, telephone contact and e-mail applications, NVA effectively communicates new client plan information and enrollee specific information to the network providers in a timely manner.

All communication with network providers, including information on new programs and clients, is managed by the NVA Network Support Department.

(2) How does/will the Offeror monitor Participating Provider and Laser Vision Correction Participating Providers compliance with Plan benefits? What steps will the Offeror take when notified by an enrollee of a billing dispute with a Participating Provider/ Laser Vision Correction Participating Provider or dissatisfaction with services received?

NVA National Network Quality Management is tracked through an aggressive internal desktop audit program unlike any other in the vision care industry.

NVA auditors and licensed opticians monitor and review our Eye Care Professionals (ECPs) using the following criteria:

- Plan Design Comprehension
- Eligibility Verification and Authorization Practices
- Network Utilization Review
- Dispensing Practices
- Reasonable & Customary Practices
- Participant Satisfaction
- Compliance with State and Federal Laws
- Adherence to NVA Contracted Guidelines
- Office Equipment Maintenance & Calibration Log
- Daily Office Procedures
- High limit frequency

All ECPs contracting with NVA agree to be audited as deemed necessary by NVA.

ECPs are selected for audit by the following methods:

- Random Selection
- Client Request
- During the Re-credentialing Process

ECPs selected for audit are reviewed based on their claims experience as compared with the overall average for the NVA National Network.

- Number of Claims - Total number of claims submitted by the providers during the most recent 12 months.
- Total Amount Paid -The dollar value paid to the provider on behalf of the clients.
- Member Out of Pocket Expenses
- Dispensing Habits on Lens Enhancements
- Claim Accuracy
- Internal audits are performed by NVA's internal audit staff on a daily basis.
- Claims Audits - Internal claim audits are conducted for fraudulent claims, misunderstanding of plan parameters and when surges in utilization take place.
- Reasonable and Customary Audits - All providers are reviewed for potential R & C violations.
- Referrals from Customer Service – Issues are brought to our attention from plan participants regarding a specific provider or location.
- Referrals from Participants - Based on Explanation of Benefit (EOB), participants may identify services or materials never received or in question. Audits are scheduled and requests for claim information are initiated based on returned EOB responses.
- Surveys - All NVA Clients and many plan participants are sent Surveys rating NVA on all aspects of the Vision Program affording them the opportunity to bring to our attention any issues with Network Practitioners.

Upon conclusion of the audit, the audit results are reviewed with the ECP. NVA will reconcile underpayments and overpayments (if any) as well. If it is determined an ECP has no discrepancies, they are notified and thanked for their continued and outstanding service to NVA and their members.

(3) Turnaround Time for Receiving Eyewear Performance Guarantee: *NVA's quoted amount to be credited against NVA's Administrative Fee for each .01 to 1.0% below the standard of ninety-five percent (95%) of all orders from a Participating Provider for covered eyewear that are not available to the Member within seven (7) Calendar Days of placing the order, as calculated on an annual Calendar year basis, is \$500.*

NYS Vision Plan

CLAIMS PROCESSING

(1) Provide a flow chart and step-by-step description of the Offeror's proposed methodology for processing Participating Provider, Laser Vision Correction Participating Provider and Enrollee-submitted claims for the Plan. Provide a description of the edits implemented to ensure proper claim adjudication.

Claims are submitted electronically through our secure website from network providers. NVA utilizes 128-bit SSL-secure encryption and the website is VeriSign certified. In addition, provider and member-submitted paper claims are mailed, or faxed directly to NVA's Clifton, New Jersey headquarters, where our claims processing department resides.

Upon receipt, all claims are reviewed, categorized and date stamped.

- Complete and accurate claims are delivered daily to Claims Department
- Incomplete or inaccurate claims are returned to the participant or provider the same day they are received with a correction request or rejection letter detailing the denial of payment and request for re-submission for processing.

Pre-Processing Controls: NVA's advanced electronic platforms are employed to provide a highly controlled pre-payment monitoring system. Before payment is made, our system checks for:

- Participant eligibility validation
- Individual dependent eligibility validation
- Prior authorization determination
- Duplicate claims checking
- Professional review
- Provider validation
- Professional fee and material validation

Only claims passing NVA's computer edits are processed.

- Pre-Payment Review: While processing a paper claim, a claims examiner manually reviews and enters the claim. If an unusual charge is submitted (beyond the plan parameter) it is referred to a Supervisor for further review.
- Once the claim has been processed it is stored in the data base. A claims history is kept online for each participant and dependent.

Please refer to Exhibit 10.1 for our flowchart of the claims process.

(2) Describe the Offeror's claims processing system platform including any backup system utilized. Describe the Offeror's disaster recovery plan and how Enrollee disruption will be kept to a minimum during a system failure. What will be the process for Enrollees trying to receive Vision Plan Services when the claim payment system is down or not available?

Claims information is available through NVA's AS400 Vision Benefit Management System, a proprietary application internally-developed and operated. Programs operate on an IBM AS/400 platform, using COBOL400. NVA utilizes 128-bit SSL-secure encryption and the website is VeriSign certified.

NVA maintains two separate operating facilities and functioning data centers in Clifton, NJ and Mechanicsburg, PA. Both have the equipment necessary to rapidly resume operations in the event of a major problem.

In the event of any type of service interruption, the managers on duty immediately notify the disaster recovery management team and inform affected department managers. The team then assesses the damage, determines which systems and operational capabilities are still operative and identifies functions that will require the use of backup facilities. If backup procedures are necessary, the disaster recovery management team notifies backup site personnel and begins emergency operations. Typically, we would be operational within 15 minutes.

Members would still be able to receive services in the case of system failure.

(3) Describe the capabilities of the Offeror's claim processing system addressing each of the following Plan components:

(a) Eligibility verification;

NVA's eligibility and claim information reside in the same proprietary AS400 system. When claims are adjudicating, the system automatically verifies eligibility.

(b) Prior authorization for Medical Exception Program benefits;

NVA's Medical Exception Program requires prior approval from one of our

(c) Variations in covered Plan benefits for various employer groups;

NVA's system is designed to capture plan information based on the specific requirements of each employer group. In the case of multiple plans offered, NVA sets up each individual plan and attached the appropriate members to that plan. Therefore, when claims are adjudicated, our system does a system check of the plan in which the member is enrolled prior to processing the claims.

(d) Duplicate claims;

NVA's advanced electronic platforms are employed to provide a highly controlled pre-payment monitoring system. Before payment is made, our system checks for duplicate claims. If one is found, the claim is rejected and the provider/member is notified.

(e) Accurate claims pricing

NVA's advanced electronic platforms are employed to provide a highly controlled pre-payment monitoring system. Before payment is made, our system checks for:

- Participant eligibility validation
- Individual dependent eligibility validation
- Prior authorization determination
- Duplicate claims checking
- Professional review
- Provider validation
- Professional fee and material validation

Only claims passing NVA's computer edits are processed.

While processing a paper claim, a claims examiner manually reviews and enters the claim. If an unusual charge is submitted (beyond the plan parameter) it is referred to a Supervisor for further review. Once the claim has been processed it is stored in the data base. A claims history is kept online for each participant and dependent.

Bimonthly, the claims supervisor audits all claims received in excess of \$200 to determine accuracy of payment. Any questionable claims are forwarded to the Director of Claims for review and correction, if warranted.

In addition, NVA routinely reviews patient and provider claims to ensure that both the client and participant are receiving the most cost-effective benefit available and to ensure all plan components chosen by the client have been applied.

(f) Edits, controls, and safe guards to ensure claims are processed according to benefit design.

NVA's system automatically checks to ensure that claims are processed according to the member's benefit design. Those that do not conform are returned to the provider/member for resubmission.

(4) Describe how any changes to the benefit design would be monitored, verified and tested for the Plan, and the quality assurance program to guarantee that changes to other client benefit programs do not impact the Plan.

Any changes to the benefit design would be tested prior to implementing the change. NVA's Account Executive would work closely with Claims and IT to ensure that the plan change does not negatively impact or disrupt the processing of members' claims.

Each client is assigned an individual plan code. Therefore, changes to their plan are contained to that client's processing only.

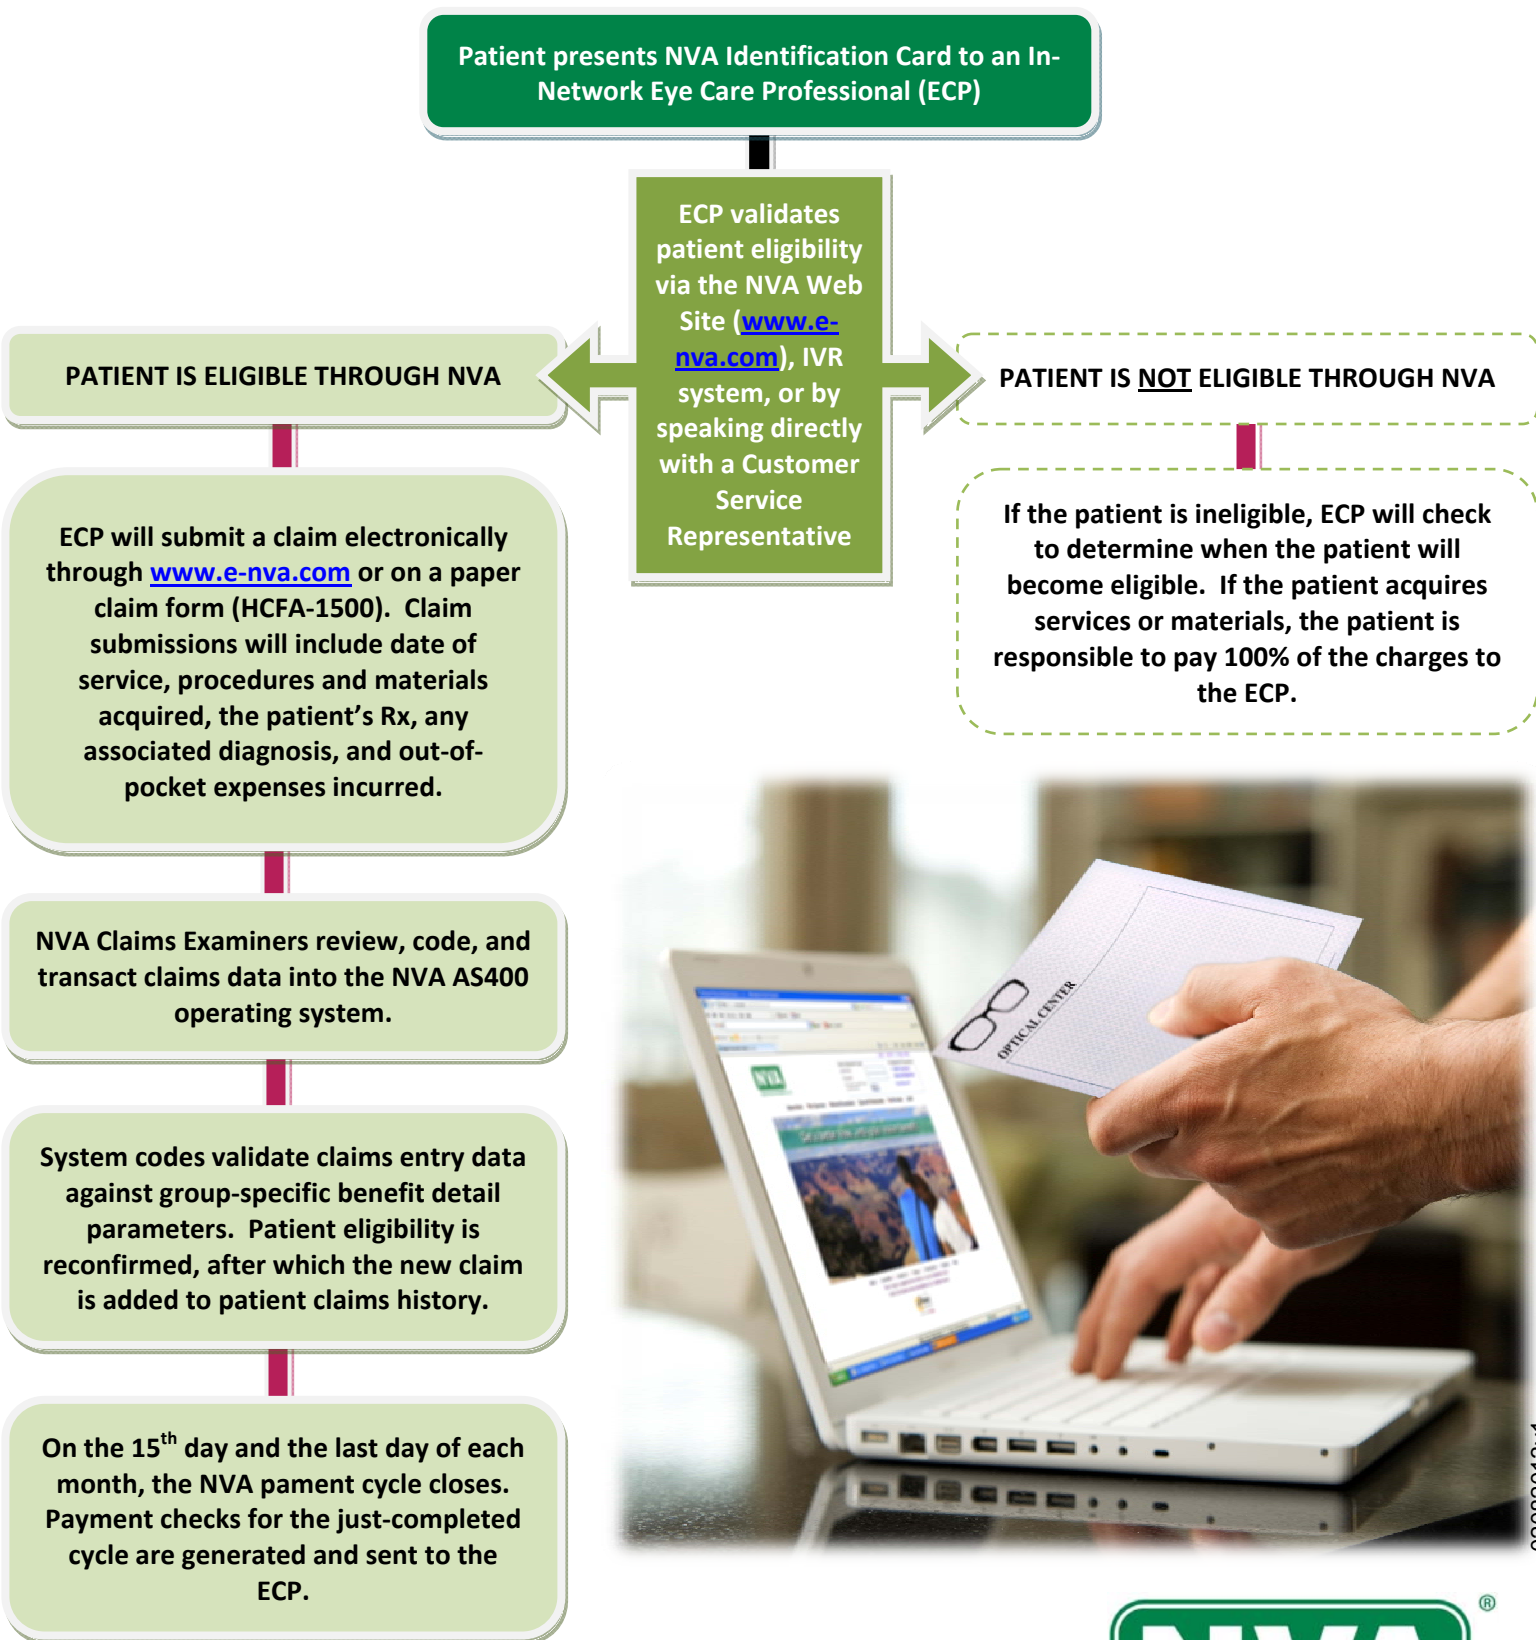

(5) What steps will you take to ensure that Participating Providers and Laser Vision Correction Participating Providers comply with the HIPAA requirement for use of National Provider Identifiers for all electronic claims submissions?

NVA requires that providers include their National Provider Identifiers on all electronic claims, and does not allow providers to submit a claim without it.

(6) Describe how the Offeror's adjudication system will feed the reporting and billing systems.

Plan specifications, eligibility, provider network, claims information and reporting are all housed in NVA's AS400 Vision Benefit Management System which ensures that the same data feeds both our reporting and billing functions.

NYS Vision Plan

FRAMES AND LENS SELECTIONS

- (1) Describe in detail how the Offeror proposes to develop and maintain the three levels of Plan frames required under the Plan, including whether the Offeror is proposing a standardized Plan frame selection and/or allowance method, a description of the variety of frame options, and the minimum contractual and average number of frames available in each level. How will Plan Enrollees be made aware of the available Plan frame selection when receiving services from a Participating Provider (i.e., separate location of frames, color coding of UPC codes, price tag)?

NVA confirms that we offer the State and its members three levels of Plan frames – a basic, a standard and an enhanced options. Covered employees and dependents may choose from ALL the frames available at the provider location – an unlimited selection – up to the plan allowance.

NVA does not limit, restrict or direct an enrollee to certain selections, brands, manufacturers or towers. This leaves the enrollee free to choose the frame and lens they desire and indicated by the professional practitioner which will include designer frames on display and available immediately. This freedom of choice of any frame in a provider's office is especially important in increasing the selection of children's frames, sports eyeglasses, and other specialized frame types, available for enrollees.

With this freedom of choice, NVA offers the power of knowledge. Our innovative program, NVA Smart Buyer[®] provides members with the tools they need to make educated decisions when it comes to vision care services and eyewear. NVA Smart Buyer[®] is the only source that integrates each member's vision benefit coverage with the unbiased information they need to know to maximize their vision benefit, reduce their out-of-pocket expense, and keep down the cost of the vision benefit.

Part of the NVA Smart Buyer[®] Program is the *Vision Benefit Maximizer*[®] search tool found at www.e-nva.com, which allows members to select a provider based on information that can reduce their out-of-pocket expense and your vision claims cost.

When using the *Vision Benefit Maximizer*[®], members can easily find frames that are available to them at no out-of-pocket cost. Members can select a provider based on the specific frames inventory at that provider's location and the number of frames that are available under their frame allowance.

Once the member is at the provider's office they can select from the collection of frames that are available to them at no out-of-pocket cost or choose any other frame the provider offers. The choice is up to the member.

(2) State the retail price points for a standard collection and/or the Offeror's proposed allowances for frames covered at each of the three (3) levels. If an allowance method is proposed, confirm the allowances are adequate to ensure that Participating Providers stock the minimum contractual number of frames.

NVA proposed the following allowances for frames covered at each of the three (3) levels.

- Basic Option - \$80
- Standard Option - \$100
- Enhanced Option - \$130

Providers are required to carry a minimum of 500 frames while the majority of our locations have assortments of 2,000+ in varying in styles, size and manufacturers. This selection ensures a large assortment of frames in the program allowance price point.

(3) Describe in detail how lens types and lens options will be classified as either Standard (covered) material or premium material, eligible for the upgrade program.

(a) Provide a listing of the currently manufactured lens products that are/will be classified as Standard or premium for the following categories of lens types: progressive, high index, photochromatic and polycarbonate.

Please refer to Exhibit 11.1 for our listing of manufactured lens products that are classified as standard or premium for the above categories of lens types.

(b) Confirm which covered lens options are/will be available in both basic and premium classifications.

NVA, classifies: Progressive Additional Lenses (PAL), Anti-Reflective Coating (A/R) and Photosensitive (Transitions) as having both basic and premium classifications.

Members receive a courtesy 20% discount off the provider's retail pricing for lens options that are not covered by the plan.

(c) Confirm that Enrollees eligible for multiple covered lens types and options will be able to select a combination of covered eyewear with no out-of-pocket cost, for example, a photochromatic single vision high index lens with Standard scratch-resistance and ultraviolet coating.

NVA confirms.

(4) Describe the Offeror's proposed product guarantees for Plan frames and lenses dispensed by a Participating Provider. How does/will the Offeror ensure that Participating Providers perform product repairs and replacements for eyewear which are under warranty?

NVA's proposed plan does not cover replacements for damaged/lost eyeglasses or contacts, beyond the provider's and manufacturer's normal. Providers will review their policy with the member at the time of the office visit.

NYS Vision Plan

CONTACT LENS SELECTION

(1) State whether a Standardized contact lens selection and/or contact lens allowance is proposed.

NVA will provide contact lenses according to the allowance schedule chosen by the State in lieu of receiving eyeglasses. This coverage includes disposable contact lenses.

Please note that NVA's vision care plan does not limit members to a particular contact lens formulary. Through NVA, the State employees will be free to choose the type and brand of contact lenses that fit their preferences and their provider's prescription.

NVA also offers members the NVA EYEESSENTIAL[®] plan discounts on additional contact lens purchases after members have used up their funded benefit during the plan period.

In addition, contact lenses are available through Contact Fill, L.L.C., NVA's contact lens mail-order ECP. Contact Fill meets members' contact lens needs through low prices, dependable service and brand name lenses shipped to their home or office.

Contact Fill carries all major brands of contact lenses. And most members can utilize their in-network benefit through Contact Fill; no claim form submission is required.

Contact Fill's staff of Contact Lens Specialists and ABO-certified Opticians is available to take the contact lens order and will verify the patient's prescription with their eye care practitioner. A valid prescription is required for the purchase of contact lenses.

Contact Fill offers three convenient options for ordering contact lenses: on-line, phone, and mail. Contact Fill accepts payment by check, money order, VISA, MasterCard and Discover. Orders will be shipped via United States Postal Service or United Parcel Service. On average, members will receive their order within 5-7 business days. Expedited shipping is available for an additional cost.

(2) If a Standardized contact lens selection is proposed:

(a) Describe how the Offeror will develop and maintain the selection of Plan contact lenses. Complete Exhibit III.G, Summary of Contact Lenses Covered by the Plan to detail the Plan contact lenses the Offeror is proposing.

NVA did not propose a standardized contact lens selection.

-
- (b) State the Offeror's proposed criteria for classifying contact lenses as either standard or premium (which are subject to the higher copay level for PEF, GSEU, M/C and unrepresented Employee and their covered Dependents).**

NVA did not propose a standardized contact lens selection.

- (3) If a contact lens allowance is proposed, state the proposed allowance for standard and premium contact lenses. Do not include any cost information in the Technical Proposal.**

NVA has proposed a range of contact lens allowance, based on the population. Please refer to our Cost Proposal for allowances for each plan.

- (4) State how the Offeror proposes to administer the \$200 contact lens benefit for other employee groups, and confirm that the eye exam, contact lens fitting, and contact lens material will be included.**

NVA will provide contact lenses according to the allowance schedule chosen by the State in lieu of receiving eyeglasses. This coverage includes disposable contact lenses. Our proposed contact lens benefits do not include the eye examination or contact lens fitting. Both are covered separately.

NYS Vision Plan

OCCUPATIONAL VISION PROGRAM

- (1) Does the Offeror have experience administering an Occupational Vision Program for an Employer? If so, please describe the Offeror's experience administering an Occupational Vision Program and state what percentage of Enrollees receive Occupational Vision eyewear for a similar client, using the same criteria that the Offeror proposes for the NYS Plan.**

NVA has many clients who offer some form of Occupational testing and materials for their employees. In many of these cases a second pair of eyeglasses is provided for work needs. This may take the form of safety eyeglasses, where impact resistance or splash (chemical) protection is required, or it may be for office workers who spend a large portion of their workday at a computer terminal. In either case, the NVA providers are educated about the specifics of the program, special requirements for testing and for the provision of materials benefits and then subject to audit for compliance.

- (2) State the Offeror's proposed eligibility criteria for the Occupational Vision Program. Be specific. Based on the proposed criteria, are there additional procedures outside of the regular, comprehensive eye examination required under this Program that Participating Providers will be required to perform? If so, please describe the additional procedures.**

NVA would require the providers to understand the unique challenges that a state employee may face in the workplace. This can take the form of safety requirements or extensive use of computer terminals. Once it has been determined that a different prescription, lens material, coating or lens type, from the employees dress eyewear is required to allow them to function at their normal work responsibilities a second (and different) pair of eyeglasses would be allowed. These decisions would be subject to audit for compliance.

- (3) Does the Offeror's lens fabricator have experience with or the ability to fabricate lenses for insertion into respirators, as specified in Exhibit II.H? If so, please describe that experience.**

Providers are free to use laboratories of their own choosing in the NVA program. The production of lenses for the respirator inserts is a normal function within all ophthalmic laboratories.

(4) Describe how the Offeror will communicate the Occupational Vision Program to enrollees and Participating Providers and monitor Participating Provider compliance.

The Occupational Vision Program would be a standard part of all communication materials to both the member population and to the provider network. Special materials for the providers, including a program description, criteria and dispensing requirements would be mailed, and available on line in the provider portal. Compliance activities would include routine audits and office visits, conducted by NVA professional staff.

(5) *Occupational Vision Program Utilization:* *NVA's quoted amount to be credited against the Contractor's Monthly Administrative Fee for each .01 to 1.0% above the Plan's Occupational Vision Program utilization rate standard of fifty-one (51%), as calculated on a calendar year basis is \$20,000.*

MEDICAL EXCEPTION PROGRAM

- (1) Does the Offeror have experience administering a Medical Exception Program for an employer? If so, please describe the Offeror's experience administering a Medical Exception Program.**

Yes. NVA administers a Medical Exception Program for a number of clients. Under this program, NVA reviews any provider approval request provider for any of the included services. Requests must be in writing. NVA utilizes Benefit Algorithms to determine if the request meets the requirements of the indicated criteria. In the event that a request fails to meet required criteria, the request is reviewed by a Consulting Optometrist for denial.

In the event that the Consulting Optometrist determines that the requested service(s) fail to meet the approved criteria, he will forward a written statement, containing a recommended action, along with all supporting documentation to the Chief Vision Officer, Dr. Carl Moroff, who shall make the final decision as to whether the service(s) shall be approved or denied.

- (2) Provide a listing of medical conditions that the Offeror is proposing to use to qualify an Enrollee or Dependent to receive services under this program.**

NVA generally utilizes those chronic conditions that have the potential for serious impact to ocular or visual health. These include diabetes, hypertension, Keratoconus, ocular injury, tumors of the eye, cataracts and cataract removal and others. NVA utilizing its extensive knowledge of eye conditions and state licensed optometrists and ophthalmologists will make these decisions in the best interest of patient care and preserving sight.

- (3) Describe the Offeror's proposed authorization process for the Medical Exception Program. Include a sample of any Medical Exception Program authorization forms that the Offeror is proposing to use under the program, timeframes for authorization and eyewear benefit criteria.**

NVA administers a Medical Exception Program for a number of clients. Under this program, NVA reviews any provider approval request provider for any of the included services. Requests must be in writing. NVA utilizes Benefit Algorithms to determine if the request meets the requirements of the indicated criteria. In the event that a request fails to meet required criteria, the request is reviewed by a Consulting Optometrist for denial.

In the event that the Consulting Optometrist determines that the requested service(s) fail to meet the approved criteria, he will forward a written statement, containing a recommended action, along with all supporting documentation to the

Chief Vision Officer, who shall make the final decision as to whether the service(s) shall be approved or denied. Sample forms are attached for review. Shante is sending.

(4) Describe how the Offeror will communicate the Medical Exception Program and monitor Participating Provider compliance.

Participating provider compliance is monitored primarily through the prior approval process, since no claim will be processed without an approval. Member communication of this program would be part of the overall communication materials effort.
