Introduction

Background

This is the Department of Civil Service’s twelfth annual report, “New York State Government Employees’ Workers’ Compensation Claims.” The report includes workers’ compensation experience from five fiscal years (2014-15 through 2018-19).

Section 7 of the Civil Service Law was amended in *Chapter 171* of the Laws of 2007 (Appendix A of this report) to require that the President of the Civil Service Commission prepare an annual report describing occupational injuries, illnesses, and workers’ compensation claims in Executive Branch state agencies. The report is required to be published by September 30th each year and includes workers’ compensation data based on the last completed fiscal year. In subsequent years, the report shall include comparative data for up to five fiscal years.

The report format follows the sections specified in *Chapter 171* of the Laws of 2007, with the exception of Table 3A which consolidates subdivisions (6d) and (6e) of the legislation. Further, Table 3B is a new table (not required by the statute), which displays five years of total compensation and medical payments made during the applicable fiscal year for all incidents occurring on or before the end of the fiscal year.

The Department of Civil Service’s Employee Benefits Division is responsible for overseeing the workers’ compensation policy between New York State and the New York State Insurance Fund (NYSIF). Part of this responsibility includes the reporting and monitoring of work-related incidents through the Accident Reporting System (ARS) and workers’ compensation claims experience provided by NYSIF. Workers’ compensation data for this report was obtained from both the ARS and NYSIF since neither source alone contains all the statutorily- required data elements.

Incidents were reported up to June 30th of the reporting year, with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. It should be noted that there are differences in the number of work-related incidents contained in the respective data reported from the ARS and NYSIF. There are incidents that are submitted to ARS, but a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Conversely, there may be claims for which a report was not made in ARS. Employee population data is obtained from the Department of Civil Service New York State Electronic Personnel System (NYSTEP).

Although this report presents only summarized data, New York State agency Human Resources and Health and Safety staff are encouraged to use the reporting capabilities of the ARS. The ARS allows for much greater detail of the information presented in this report, as well as many other workers’ compensation incident details.

Explanatory Notes

The report *includes* selected Executive branch agencies' Classified Service employees, consistent with subdivision three of section two-a of the State Finance Law. Specifically, employees represented by the following public employee unions are included: CSEA; PEF; NYSCOPBA; Council 82; PBANYS as well as Management/Confidential. The report *excludes* the Judicial and Legislative branches, as well as the Unclassified Service and Authorities (e.g., Financial Control Board, SUNY College of Ceramics, Lake George Park Commission), as the Department of Civil Service does not maintain employee data on these groups. There were no agency closures, mergers or new agencies created during the reporting period. Please note that incident counts in Tables 1, 6, and 7 for years 2014-15 through 2017-18 differ from prior Annual Reports. This is due to a programming error that was identified which excluded approximately 1,700 claims per year.

Information in this report is based on New York State workers' compensation claims filed by employees. Although the reporting period is for the Fiscal Years (FY) ending March 31, claims for fiscal years were reviewed through June 30th of the respective reporting years to allow for late reporting, and for data to be captured for workers' compensation determinations made after the end of the fiscal year.

Incident data included in this report are for work-related incidents (either injuries or occupational illnesses) that were reported to the Workers' Compensation Board and the New York State Insurance Fund (NYSIF) as required by the New York State Workers' Compensation Law. The Law requires reporting of all incidents that result in either: one or more lost work days beyond the date of the incident; or, medical treatment beyond first aid or two or more first aid treatments. There are many incidents that do not reach the level of the reporting criteria under the Workers' Compensation Law.

As historically reported, this report includes certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days' post-incident (based on the date the injury occurred within the fiscal year). For example, an accident that occurs on April 1 could have up to 365 days of compensation, whereas an accident that occurs on March 31 could have only one day of compensation reported. **The report includes a new table, Table 3B, which reports total compensation and medical payments made during the reported fiscal year, for all incidents occurring on or before the end of the fiscal year (i.e. payments for all open claims).**

Summary of Findings

Highlights are presented below for NYS Executive Branch agency workers' compensation incidents for classified employees incurred in FY 2014-15 through FY 2018-19.

- There were 14,144 work-related claims in FY 2018-19 compared to 14,834 work-related claims in FY 2017-18; 14,973 work-related claims in FY 2016-17, 15,628 work-related claims in FY 2015-16, and 16,360 work-related claims in FY 2014-15. The overall workers' compensation incident rate decreased from 10.5% to 10.0% (Table 1, page 8).
- There were 4,328 lost-time incidents in FY 2018-19, down slightly from 4,357 in FY 2017-18. Approximately 33.7% of workers' compensation incidents in FY 2018-19 resulted in lost time (down from 34.0% in FY 2017-2018) (Table 2A, page 18).
- The lost-time incident rate for FY 2018-19 remained flat at 3.1% in 2018-19. In FY 2018-19, 266,239 work days were lost compared to 276,120 lost work days in FY 2017-18 (Table 2B, page 26).
- *Total first year compensation costs and total medical costs decreased* from FY 2017-18 to FY 2018-19. Total compensation costs decreased by 5.6% from \$32,162,214 to \$30,369,914. Total medical costs decreased by 3.4% from \$25,642,269 to \$24,778,707 (Table 3A, page 36).
- Although not previously included in the annual report, *Total compensation costs* for all open claims, increased from \$364,979,555 in FY 2017-18 to \$374,647,369 in FY 2018-19. *Total medical costs* for all open claims decreased from \$89,647,842 in FY 2017-18 to \$83,381,671 in FY 2018-19 (Table 3B, page 44).
- *Soreness, Pain, Hurt Excluding the Back* continues to be the category of incidents with the highest incident rate at 34.2% for FY 2018-19, down from 37.6% in FY 2017-18. *Sprains, Strains, Tears* again ranked second with an incident rate of 19.8% for FY 2018-19, up from 18.2% in FY 2017-18 (Table 4A, page 55).
- The two leading incident causes in FY 2018-19 were: *Bodily Reaction and Exertion* (which increased by 4.7% from 1,740 to 1,821), and *Patient Restraint* (which increased by 25.1% from 1,009 to 1,262) (Table 4B, page 57).
- The following were once again the reported top three body parts injured in all five fiscal years: *Knee(s)* (14.0% incident rate); *Shoulder, Including Clavicle, Scapula* (12.8% incident rate); and *Back, Including Spine, Spinal Cord* (5.7% incident rate) (Table 4C, page 60).
- The three job titles with the highest number of work-related incidents for the third

consecutive year were: *Correction Officer*, *Direct Support Assistant*, and *Mental Health Therapy Aide*. *Youth Division Aide 4* had the highest incident rate of 100.9% in FY 2018-19. However, work-related incidents for this title decreased slightly from 238 in FY 2017-18 to 226 in FY 2018-19. *Mental Health Therapy Aide Trainee* had the second highest incident rate: 79.5% in FY 2018-19, which is a significant increase from the 50.0% incident rate in FY 2017-18 (Table 5, page 64).

- The two facilities with 500 or more employees with the highest incident rates in FY 2018-19 were the *Mid-Hudson Psychiatric Center* (incident rate of 40.6%, up from 38.0% in FY 2017-18) and the *Bedford Hills Correctional Facility* (incident rate of 38.8%, up from 30.1% in FY 2017-18) (Table 6, page 68).
- In FY 2018-19, *Security Services Unit Non-Arbitration* had the highest incident rate (40.1%), and *All Other Units and Unrepresented Group* had the lowest incident rate (1.8%) (Table 7, Page 71). The *Security Services Unit* had the second highest incident rate of 23.5%, down slightly from its rate in FY 2017-18 (23.9%).

**Table 1: Workers' Compensation Incident Details
Selected New York State Agencies:
Fiscal Years 2014-15 through 2018-19**

Table 1 lists the selected Executive Branch New York State agencies' workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivision (6a). The information in Table 1 was provided by the New York State Insurance Fund. The FY 2018-19 claims experience includes accidents occurring between April 1, 2018, and March 31, 2019, and reported through June 30, 2019. As indicated in the Explanatory Notes, incident counts in Tables 1, 6, and 7 for years 2014-15 through 2017-18 differ from prior Annual Reports. This is due to a programming error that was identified which excluded approximately 1,700 claims per year.

Agencies reported a total of 14,144 workers' compensation incidents and an incident rate of 10.0% in FY 2018-19, compared to 14,834 incidents and an incident rate of 10.5% in FY 2017-18. Previous years reported: 14,973 incidents and an incident rate of 10.5% in FY 2016-17; 15,628 incidents and an incident rate of 11.0% in FY 2015-16; and 16,360 incidents and an incident rate of 11.5% in FY 2014-15.

The overall incident rate decreased in all of the large agencies (3,000 employees or more), with the exception of the Office of Mental Health. Rates of decrease in the following agencies ranged from under one percentage point to just over two percentage points: the Department of Environmental Conservation; the Department of Health; the Department of Transportation and the Office for People with Developmental Disabilities. The largest Department decrease occurred in the Office of Children and Family Services (from 19.8% in FY 2017-2018 to 17.6 in FY 2018-19). Incident rates did, however, increase overall in the Office of Mental Health (from 17.7% in FY 2017-18 to 19.2% in FY 2018-19).

⁴ Lost Time Incidents include accidents with six or more work days lost and incidents also listed under the "Incidents" column (Table 1). The data do not include information on lost time of five work days or less, which is the workers' compensation waiting period. The data does not include incidents newly counted in Tables 1, 6 and 7 as the data was cumulative and not for the year in which the incident occurred.

⁵ Lost Time Case Rate calculated by dividing the number of Lost Time Incidents by the number of Incidents (Table 1). As noted above, the Lost Time Incident count may be understated as some portion of the 1,700 newly-identified incidents may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

*Agency did not report data or did not exist during the applicable fiscal year.

* Reflects data reported prior to agency closure in July 2013.

⁶ Lost Time Rate calculated by dividing the number of Lost Time Incidents by the number of Full Time Equivalents. As noted in Table 2A, the Lost Time Incident count may be understated as some portion of the 1,700 newly-identified incidents may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

**Table 3A and 3B: Workers' Compensation Costs by
Selected New York State Agencies:
Fiscal Years 2014-15 through 2018-19**

Table 3A lists the selected Executive Branch New York State agencies and contains the workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivisions (6d) and (6e). The claims experience in Table 3A was provided by the New York State Insurance Fund (NYSIF). The FY 2018-19 claims experience includes incidents occurring between April 1, 2018, and March 31, 2019, and paid through June 30, 2019. The FY 2014-15, FY 2015-16, FY 2016-17, and FY 2017-18 claims experience is the same data reported in last year's report.

The compensation costs included in Table 3A only represents certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days post-incident (based on the date the injury occurred within the year). For example, an accident that occurs on April 1 could have up to 365 days of compensation whereas an accident that occurs on March 31 could have only one day of compensation reported.

Under New York State Workers' Compensation Law, employees who are disabled due to a workers' compensation incident are entitled to a wage replacement for lost salary and medical benefits related to the incident. The wage component is equal to two-thirds of the employee's average weekly wage, not to exceed a maximum established under the Workers' Compensation Law. The statutory maximum for the past five years are as follows:

July 2014 – June 30, 2015	\$808.65
July 2015 – June 30, 2016	\$844.29
July 2016 – June 30, 2017	\$864.32
July 2017 – June 30, 2018	\$870.61
July 2018 – June 30, 2019	\$904.74

The data in Table 3A does not include supplemental wage replacement payment benefits as these amounts are paid by individual agencies and are not reflected in data maintained by the NYSIF. Under the medical component, all medical treatments – including doctor treatments, hospital or clinic charges, imaging services and diagnostic testing, prescription medication, and other related medical services – are paid in full based on a fee schedule established by the Chair of the Workers' Compensation Board, as directed by the Workers' Compensation Law.

All wage replacements and medical treatments are initially reviewed by the NYSIF. If there is a dispute between the NYSIF and the employee regarding such wage replacement or medical treatment, the Workers' Compensation Board will conduct a final review. Both the compensation costs and the medical costs are paid by the NYSIF under the provisions of the workers' compensation insurance policy between New York State and the NYSIF.

Total first year *compensation costs* decreased in FY 2018-19 from \$32,162,214 to

\$30,369,914, a decrease of 5.6%. Total *medical costs* decreased in FY 2018-19 by 3.4%; from \$25,642,269 to \$24,778,707.

The most notable decrease in both first-year *compensation* and *medical costs* occurred at the Department of Transportation (*compensation costs* decreased by 30.5% or \$548,180 and *medical costs* decreased by 30.3% or \$545,689). The Office for People with Developmental Disabilities also saw declines in first year costs (*compensation costs* decreased by 7.3% and *medical costs* decreased by 12.7%). The most notable increase in both first-year *compensation* and *medical costs* occurred at the Office of Parks, Recreation and Historic Preservation, with *compensation costs* increasing by 14.8% or \$37,308 and *medical costs* increasing by 24.8% or \$84,252. Other notable changes occurred at the Department of Health (*compensation costs* increased by 13.4% and *medical costs* increased by 20.5%), and the State University of New York (*compensation costs* increased by 10.7% and *medical costs* increased by 21.0%).

Table 3B is a new table, which reports total compensation and medical costs for all workers' compensation payments made during the reported fiscal year for all incidents occurring on or before the end of the fiscal year; i.e., all open claims. Table 3B includes all bi-weekly temporary and permanent disability indemnity payments, Schedule Loss of Use (SLU) awards and Section 32 settlements in the *Total Compensation Costs* column and also displays *Total Medical Costs*. This table shows that *Total Compensation Costs* for all open claims increased by 2.6%, from \$364,979,555 in FY 2017-18 to \$374,647,369 in FY 2018-19 while *Total Medical Costs* for all open claims decreased 7.0%, from \$89,647,842 in FY 2018-18 to \$83,381,671 in FY 2018-19.

The most notable increase in total compensation costs from FY 2014-15 to FY 2018-19, occurred at the Department Corrections and Community Supervision, with an overall increase in compensation costs of 61%, or \$63,324,966. Medical costs also increased by 10.6%, or \$2,819,041. The Office for People with Developmental Disabilities also saw an overall increase in total compensation costs of 23.7%, or \$12,816,444, but saw a slight reduction in total medical costs over the 5-year period of 12.8%, or \$2,642,800. Negative amounts in this table reflect scenarios where credits received through Workers' Compensation Law Section 15.8 or subrogation exceeded payment made, resulting in lower overall payments.

Tables 4A, 4B, 4C: Most Frequent Types of Injuries, Accident Causes, and Body Parts Injured: Fiscal Years 2014-15 through 2018-19

In the next series of tables, details are provided on the most frequent types of injuries (Table 4A), incident causes (Table 4B), and body parts injured (Table 4C) as specified in *Chapter 171* of the Laws of 2007, subdivision (6f). The data in all three tables was derived from all incidents that resulted in a workers' compensation claim during FY 2014-15 through FY 2018-19.

The source of the data for most of the agencies is the Accident Reporting System (ARS). Incidents were reported up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs).

For the agencies using ARS, the *Occupational Injury and Illness Classification Manual* issued by the U.S. Department of Labor Bureau of Labor Statistics was used to capture the details on the types of injuries, accident causes, and body parts injured. This manual is the standard classification system used to classify occupational injuries and illnesses. Coding occupational injuries/illnesses is dependent upon the description provided by the individual reporting the incident, the classification system being used, and the codes selected by the individual entering the information. Certain categories may be viewed as similar, but they were reported separately in order to retain the integrity of the original reporting entity; for example, in Table 4B (page 57) *Falls; Fall to Floor, Walkway or Other Surface; Fall Down Stairs or Steps*; and *Fall on Same Level* were reported as separate categories.

Table 4A, the Most Frequent Types of Injuries, include injury types in which the inclusion criteria accounted for almost 98% of all incidents. Like the prior years, five injury type categories accounted for approximately three-fourths of all incidents in FY 2018-19: *Soreness, Pain, Hurt, Excluding the Back* (34.2%); *Sprains, Strains, Tears* (19.8%); *Bruises, Contusions* (10.8%); *Back Pain, Hurt Back* (7.0%); and *Cuts, Abrasions, Bruises* (4.8%).

The Most Frequent Incident Causes are detailed in Table 4B. The five most frequent incident causes for FY 2018-19 were *Bodily Reaction & Exertion* (10.5%); *Patient Restraint* (7.3%); *Fall to Floor, Walkway, or Other Surface* (6.4%); *Assault by Patient* (4.9%); and *Assault and Violent Acts by Person(s)* (4.7%). The greatest increases occurred in the following categories: *Patient Pushing Staff* (increase of 1.2 percentage points) and *Patient Restraint* (increase of 1.1 percentage points). The greatest decreases occurred in the following categories: *Assaults and Violent Acts by Person(s), Unspecified* (decrease of 0.6 percentage points) and *Hitting, Kicking, Beating* (decrease of 0.5 percentage points).

The Body Parts Most Frequently Injured are listed in Table 4C and account for approximately 99% of all incidents. In all five years, three body parts represented approximately one-third of the body parts injured: *Knee(s)* (14.0%); *Shoulder, Including Clavicle, Scapula* (12.8%); and *Back, Including Spine, Spinal Cord* (5.7%). A decrease occurred in the *Knee(s)* category (decrease of 0.1 percentage points), and in the *Back, Including Spine, Spinal Cord* category (decrease of 1.7 percentage points). An increase occurred in the *Shoulder, Including Clavicle, Scapula* category (increase of 0.1 percentage points).

¹³ Incidents reported in the Accident Reporting System (ARS) up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Work-Related Incidents includes incident data from five agencies that participated in a pilot program from April 1, 2018 until January 17, 2019.

¹⁴ Average number of FTEs as provided by the New York State Electronic Personnel System, Department of Civil Service.

¹⁵ Reported to the NYSIF up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year.

¹⁶ Incident Rate calculated by dividing the number of Incidents by the number of Full Time Equivalents.

* Title did not report data or did not exist during the applicable fiscal year.

Recommendations

The following recommendations regarding the prevention of injury and illnesses and the reduction of costs due to these cases were prepared in consultation with the Workers' Compensation Board (WCB) and the New York State Insurance Fund (NYSIF).

Accidents at work and occupational injuries represent a considerable economic burden for New York State employees and the State of New York. The NYSIF recommends a three-pronged approach for each New York State entity's Workers' Compensation Program. This includes Safety Management, Return to Work, and Fraud Prevention programs. Management commitment is essential for the implementation and on-going success of an agency's Workers' Compensation Program. Persons with the authority and responsibility for the safety management program must be identified and given management's full support.

- **Safety Management Program** – A Safety Management Program includes a comprehensive Injury and Illness Prevention Program along with defined Agency Safety Coordination to ensure accountability and implementation of the program. An effective Injury and Illness Prevention Program includes the following four elements: management commitment and employee involvement; worksite analysis; hazard prevention and control; and Injury and Illness prevention training. The NYSIF is available to agencies to provide advice and consultation on the implementation of a Safety Management Program including access to loss control resources, materials, education, etc. Visit the Employer tab at nysif.com and choose Injury and Illness Prevention for more information about workplace safety programs, and access to NYSIF's free Safety Resources.
- **Return to Work Program** – An active Return to Work Program is a key component in reducing cost by providing opportunities for injured workers to be productive while they recover from their injuries. The New York State Return to Work or Alternate Duty programs are governed by the collective bargaining agreements. The NYSIF and the Governor's Office of Employee Relations are a resource to the agencies to understand the terms and conditions of this program for the different negotiating units and how they relate to New York State's statutory obligation as an employer under the Workers' Compensation Law. The NYSIF is available to agencies to provide advice and consultation including access to resources, materials, education, etc. Agency Safety Coordination is essential to ensuring accountability and implementation of the agency's Return to Work Program. Agencies should continue to communicate with the injured worker to offer assistance and encouragement. Our mutual goal is a favorable medical outcome and a successful return to work.
- **Fraud Prevention Program** – Workers' Compensation Insurance fraud imposes a significant financial burden. An effective Fraud Prevention Program involves education and training, fraud and abuse detection, documentation, and reporting. The NYSIF is committed to training staff and investigating agency referrals of fraud and abuse.

The following are also recommended in an effort to prevent employees' Injuries and Illnesses:

- **System Improvements** – The Board continues to work on several system improvements as part of the ongoing WCB's Business Process Redesign project to improve stakeholder experience with the Board resulting in more timely, convenient and efficient resolutions. In early 2019, the Board fully implemented Virtual Hearings (VH) throughout the State. This groundbreaking initiative allows all parties in a workers' compensation hearing to participate remotely using their computer or mobile device. Virtual hearings are expected to reduce the number of missed and postponed hearings, get benefits to workers faster and lower claims resolution costs. They also eliminate the need to travel to hearings, especially beneficial to injured workers, NYSIF hearing representatives and NYS agency human resource staff. As of August 2019, approximately 45% of hearings had one or more virtual attendees. In the coming year, the Board will continue to promote the use of VH technology. The Board will also complete IT enhancements by the end of 2019 to allow authorized NYS agency human resource staff with automatic access to eCase, which is a repository for workers' compensation records, decisions and correspondence. Finally, the Board will soon commence a multi-year project to modernize the Business Information System used by all stakeholders. When fully implemented, the new system will vastly improve the Board's efficiency and data capture capabilities. The data from these new system improvements should be closely reviewed to identify trends and the need for further system enhancements.
- **Increase Awareness, Resources and Training** – It is well-established that the sooner an accident is reported and the sooner the injured worker obtains needed medical and temporary disability benefits, the better the outcome for all involved. New York State should ensure that workers' compensation awareness is a top priority in every State agency so that accidents are timely reported and injured workers receive timely care so that they may return to work as soon as possible. Staff at each agency should regularly receive training on workers' compensation policies so employees, managers, human resource officers, and payroll officers have a clear understanding of the resources available (including WCB's eCase), as well as the process and the requirements to receive the statutory and negotiated benefits, including supplemental pay, limited return to work, and dispute resolution programs. Each agency should set attainable goals on injury prevention and clearly define who and when to interact with injured employees and the NYSIF, as well as who is responsible for timely reporting of the First Report of Injury (FROI), changes in work status (Form C-11), wages paid while on workers' compensation leave (Form C-256.2), and PAYSERV transactions, in compliance with the Office of State Comptroller Payroll Bulletin 1366.
- **Data Sharing** – The eClaims initiative implemented in mid-2014 as well as recent improvements to the Board's data warehouse allow the possibility of flexible reporting of accident causes and locations, types of injuries, and temporary and

permanent disability awards, by NYS agency/facility. The Department of Civil Service, WCB, and NYSIF should explore how to most effectively share this data, as well as NYSIF claims data, with agencies to enable them to analyze the data, formulate corrective action plans, and enhance return to work programs.
