## Introduction

### Background

This is the Department of Civil Service's fifteenth annual report, "New York State Government Employees' Workers' Compensation Claims." The report includes workers' compensation experience from five fiscal years (2017-18 through 2021-22).

**Section 7 of the Civil Service Law** was amended in *Chapter 171* of the Laws of 2007 (Appendix A of this report) to require that the President of the Civil Service Commission prepare an annual report describing occupational injuries, illnesses, and workers' compensation claims in Executive Branch state agencies. The report is required to be published by September 30th each year and includes workers' compensation data based on the last completed fiscal year, as well as comparative data for up to five fiscal years.

The report format follows the sections specified in *Chapter 171* of the Laws of 2007, with the exception of Table 3A which consolidates subdivisions (6d) and (6e) of the legislation. Further, Table 3B, which is not required by the statute, displays five years of total compensation and medical payments made during the applicable fiscal year for all ARS-reported incidents elevated to Claim Type status occurring between April 1, 2021, and March 31, 2022, with incidents reported by June 30, 2022.

The Department of Civil Service's Employee Benefits Division is responsible for overseeing the workers' compensation policy between New York State and the New York State Insurance Fund (NYSIF). Part of this responsibility includes the reporting and monitoring of work-related incidents through the Accident Reporting System (ARS) and workers' compensation claims experience provided by NYSIF. Workers' compensation data for this report was obtained from both the ARS and NYSIF since neither source alone contains all the statutorily required data elements.

Incidents were reported up to June 30th of the reporting year, with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. There were 184 ARS-reported COVID-19-related incidents, which are captured in this report and are seen as Injury Type "COVID-19 Coronavirus" in Table 4A, primarily as Incident Cause "Pandemic" in Table 4B and primarily in the *Lungs, Lung(s) Pleura* -related injuries in Table 4C.

It should be noted that there are differences in the number of work-related incidents contained in the respective data reported from the ARS and NYSIF. There are incidents that are submitted to ARS but are not elevated to "Claim Type" status if the incident is not reasonably expected to incur medical expenses or lost time of more than one day or one shift. Conversely, there may be claims for which a report was not made in ARS. Employee population data is obtained from the Department of Civil Service New York State Electronic Personnel System (NYSTEP).

Incident counts will be described in detail throughout the report. Statewide, there was a slight increase in number of incidents and in the number of incidents that led to lost days from last year. However, over the five-year reporting period, work-related incidents have declined by 12.7%.

## Workers' Compensation Claims Annual Report – Fiscal Year 2021-22

Although this report presents only summarized data, New York State agency Human Resources and Health and Safety staff are encouraged to use the reporting capabilities of the ARS. The ARS allows for much greater detail of the information presented in this report, as well as many other workers' compensation incident details.

### Explanatory Notes

The report **includes** selected Executive Branch agencies' Classified Service employees, consistent with subdivision three of section two-a of the State Finance Law. Specifically, employees represented by the following public employee unions are included: CSEA; PEF; NYSCOPBA; Council 82; PBANYS as well as Management/Confidential. The report **excludes** the Judicial and Legislative branches, as well as the Unclassified Service and Authorities (e.g., Division of State Police, Financial Control Board, SUNY College of Ceramics) as the Department of Civil Service does not maintain employee data on these groups. Please note that incident counts in Tables 1, 6, and 7 for 2017-18 differ from Annual Reports published prior to 2019. This is due to a programming error that was identified (and corrected in 2019) which excluded approximately 1,700 claims per year.

There were six correctional facility closures effective March 10, 2022 – Ogdensburg, Moriah Shock Incarceration, Willard Drug Treatment Campus, Southport, Downstate and Rochester. Two new state agencies - the Office of Cannabis Management and the Office of Mental Health's Secure Treatment and Rehabilitation Center (STARC) – were created effective March 31, 2021, and April 22, 2021, respectively.

Information in this report is based on New York State workers' compensation claims filed by employees. Although the reporting period is for the Fiscal Years (FY) ending March 31st, claims for fiscal years were reviewed through June 30th of the respective reporting years to allow for late reporting, and for data to be captured for workers' compensation determinations made after the end of the fiscal year.

Incident data included in this report are for work-related incidents (either injuries or occupational illnesses) that were reported to the Workers' Compensation Board and NYSIF as required by the New York State Workers' Compensation Law. The Law requires reporting of all incidents that result in either: one or more lost workdays or shifts beyond the working day or shift on which the incident occurred; or medical treatment beyond first aid or two or more first aid treatments. There are many incidents that do not reach the level of the reporting criteria under the Workers' Compensation Law. Incident Rates in Table 5 can be over 100 given that multiple incidents may occur for the same individual and due to staff turnover (FTE counts are point-in-time and an incident may be counted for an individual no longer on the agency's payroll).

As historically reported, this report includes certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days' post-incident (based on the date the injury occurred within the fiscal year). For example, an accident that occurs on April 1st could have up to 365 days of compensation, whereas an accident that occurs on March 31st could have only one day of compensation reported. **Please note that the report includes Table 3B, which reports total compensation and medical payments made during the reported fiscal year, for all incidents occurring on or before the end of the fiscal year (i.e., payments for all open claims).**

## Summary of Findings

Highlights are presented below for Executive Branch agency workers' compensation incidents for classified employees incurred in FY 2017-18 through FY 2021-22.

- There were 12,957 work-related claims in FY 2021-22 compared to 12,731 work-related claims in FY 2020-21; 14,566 work-related claims in FY 2019-20; 14,144 work-related claims in FY 2018-19, and 14,834 work-related claims in FY 2017-18. The overall workers' compensation incident rate increased from 9.3% to 10.0. Table 1 highlights the sharp decline in the workforce (down over 5% from 2020-21). While there was a small increase in the number of work-related incidents (2%), the 5% decline in the workforce led to a higher incident rate. Over the entire reporting period, work-related incidents have declined by 12.7% (Table 1, page 8).
- There were 5,181 lost-time incidents in FY 2021-22, up from 4,881 in FY 2020-21. Approximately 40.0% of workers' compensation incidents in FY 2021-22 resulted in lost time (up from 38.3% in FY 2020-21) (Table 2A, page 18).
- The lost-time incident rate for FY 2021-22 saw an increase to 4.0% from 3.6% in 2020-21. In FY 2021-22, 354,095 workdays were lost compared to 319,153 lost workdays in FY 2019-20 (Table 2B, page 18).
- *Total first year compensation costs and total medical costs* increased from FY 2020-21 to FY 2021-22. Total compensation costs increased by 14.1% from \$34,336,525 to \$39,301,126. Total medical costs increased by 13.7% from \$26,224,647 to \$29,829,445. These increases were driven by higher compensation and medical costs in the Office of Mental Health, the Office for People with Developmental Disabilities and the Department of Corrections and Community Supervision (Table 3A, page 35).
- *Total compensation costs* for all open claims increased from \$374,118,490 in FY 2020-21 to \$420,224,593 in FY 2021-22. *Total medical costs* for all open claims increased from \$79,749,270 in 2020-21 to \$86,200,838 in FY 2021-22. The Department of Corrections and Community Supervision had a significant increase in compensation costs, followed by the Office of Mental Health and the Office for People with Developmental Disabilities (Table 3B, page 35).
- *Soreness, Pain, Hurt Excluding the Back* continues to be the category of incidents with the highest incident rate at 43.5% for FY 2021-22, up from 38.0% in FY 2020-21. *Sprains, Strains, Tears* again ranked second with an incident rate of 15.2 for FY 2021-22, down from 16.3% in FY 2020-21. COVID-19 is no longer a top-five incident and is now ranked tenth (excluding the "Other" category), down to 1.2% in FY 2021-22, from 5.5% in FY 2020-21 (Table 4A, page 53).
- For the sixth consecutive year, the two leading incident causes were: *Bodily Reaction and Exertion* and *Patient Restraint* (Table 4B, page 53).
- The following were the reported top three injured body part groups in all five fiscal years: *Knee* (14.5% incident rate), *Shoulder* (14.2% incident rate); and *Back* (14.1% incident rate). More specific body codes are now available (e.g., Ear, Left, Finger – Middle, Right) rather

than “Ear(s)” or “Hand(s) and Finger(s)” and similar body parts are grouped together and subtotaled. The new Body Parts are noted with an asterisk (\*) and footnoted in Table 4C, page 53.

- The three job titles with the highest number of work-related incidents for the third consecutive year were: *Correction Officer*, *Direct Support Assistant*, and *Mental Health Therapy Aide*. *Youth Division Aide 4* had the highest incident rate of 188.3% in FY 2021-22. *Security Hospital Treatment Assistant* had the second highest incident rate of 113.8% in FY 2021-22. The job titles with the most significant increase in FY 2021-22 were: *Youth Division Aide 4* (incident rate of 188.3%, up from 88.2% in FY 2020-21), and *Correction Sergeant Spanish Language* (incident rate of 61.1%, up from 42.6% in FY 2020-21). As noted in the Explanatory Notes, Incident Rates in Table 5 can be over 100 given that multiple incidents may occur for the same individual and due to staff turnover (FTE counts are point-in-time and an incident may be counted for an individual no longer on the agency's payroll). (Table 5, page 64).
- The two facilities with the highest incident rates in FY 2020-21 were the *Taconic Correctional Facility* (incident rate of 50.0%, up from 37.7% in FY 2020-21) and the *Mid-State Correctional Facility* (incident rate of 48.4, down slightly from 49.0% in FY 2020-21) (Table 6, page 67).
- In FY 2021-22, *Security Services Unit Non-Arbitration* had the highest incident rate (42.0%), and *All Other Units and Unrepresented Group* had the lowest incident rate (0.3%). The *Security Services Unit* had the second highest incident rate of 28.4%, up from 25.4% in FY 2020-21 (Table 7, page 71).

## **Table 1: Workers' Compensation Incident Details Selected New York State Agencies: Fiscal Years 2017-18 through 2021-22**

**Table 1** lists the selected Executive Branch New York State agencies' workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivision **(6a)**. The work-related incident information in Table 1 was provided by NYSIF. The FY 2021-22 claims experience includes accidents occurring between April 1, 2021, and March 31, 2022, and reported through June 30, 2022. As indicated in the Explanatory Notes, incident counts in Tables 1, 6, and 7 for 2017-18 differ from Annual Reports issued prior to 2019. This difference is due to a programming error (corrected in 2019) which excluded approximately 1,700 claims per year.

Agencies reported a total of 12,957 workers' compensation incidents and an incident rate of 10.0% in FY 2021-22, compared to 12,731 incidents and an incident rate of 9.3% in FY 2020-21. Previous years reported: 14,566 incidents and an incident rate of 10.2% in FY 2019-20; 14,144 incidents and an incident rate of 10.0% in FY 2018-19; and 14,834 incidents and an incident rate of 10.5% in FY 2017-18.

The overall incident rate is up overall (10.0% versus 9.3% last year). Table 1 highlights the sharp decline in the workforce (down over 5% from 2020-21). While there was a small increase in the number of work-related incidents (2%), the 5% decline in the workforce led to a higher incident rate. Over the entire reporting period, work-related incidents have declined by 12.7%.

The Rockland Psychiatric Center for Children & Youth and the St. Lawrence Psychiatric Center both saw significant reductions in the Incident Rates (35.9% decrease and 9.7% decrease, respectively). Conversely, the Downstate Correctional Facility and the Office of Mental Health's NYC Children's Center both saw significant Incident Rate increases (24.9% and 13.3%, respectively). It bears noting that both facilities saw an overall decline in their workforce (Downstate by 29% and NYC Children's Center by 4%).

<sup>1</sup> Average number of FTEs as provided by the New York State Electronic Personnel System (NYSTEP), Department of Civil Service.

<sup>2</sup> ARS-reported to the State Insurance Fund up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year.

<sup>3</sup> Incident Rate calculated by dividing the number of Incidents by the number of Full Time Equivalents (FTEs).

\* Agency did not exist during the applicable fiscal year.

## Tables 2A and 2B: Workers' Compensation Lost Time Selected New York State Agencies: Fiscal Years 2017-18 through 2021-22

**Table 2A** and **Table 2B** list the selected Executive Branch agencies' workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivisions **(6b)**, and **(6c)**. The FY 2021-22 claims experience includes accidents occurring between April 1, 2021, and March 31, 2022, and reported through June 30, 2022. The FY 2020-21, 2019-20, 2018-19, and FY 2017-18 claims experience is the same data reported in last year's report.

The number of lost-time incidents increased by 6.1% in FY 2021-22 to 5,181, up from 4,881 FY 2020-21. The lost-time case rate (the number of Lost Time Incidents divided by the number of Incidents from Table 1) increased to 40.0% in FY 2021-21, up from 38.3% in FY 2020-21.

The lost-time rate (the number of Lost Time Incidents divided by the number of Full Time Equivalents) increased to 4.0% in FY 2021-22 from 3.6% in FY 2020-21. The number of lost workdays increased by 10.9% in FY 2021-22 to 354,095, up from 319,153 in FY 2020-21.

Lost workdays increased at the Department of Corrections and Community Supervision. In 2021-22, there were 124,229 lost work days while in 2020-21 there were 104,776 lost workdays (significant increases were seen at the Trainee Facility and the Collins Correctional Facility). Lost workdays also increased at the State Education Department, from 215 in FY 2020-21 to 594 in FY 2021-22. The Office of Mental Health also saw more lost workdays – from 67,086 in FY 2020-21 to 75,530 in FY 2021-22 (an increase of 12.6%).

Conversely, lost workdays decreased at the Department of Health by 49.3%, from 3,674 in FY 2020-21 to 1,863 in FY 2021-22. Lost workdays also decreased at the Department of Transportation by 18.6%, from 12,066 in FY 2020-21 to 9,822 in FY 2021-22.

<sup>4</sup> Lost Time Incidents include accidents with six or more work days lost and incidents also listed under the "Work-Related Incidents" column (Table 1). The data do not include information on lost time of five workdays or less, which is the workers' compensation waiting period. The data does not include incidents identified in 2019 in Tables 1, 6 and 7 as the data was cumulative and not for the year in which the incident occurred.

<sup>5</sup> Lost Time Case Rate calculated by dividing the number of Lost Time Incidents by the number of Work-Related Incidents (Table 1). As noted above, the Lost Time Incident count may be understated as some portion of the 1,700 incidents identified in 2019 may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

<sup>+</sup> Agency did not exist during the applicable fiscal year.

<sup>6</sup> Lost Time Rate calculated by dividing the number of Lost Time Incidents by the number of Full Time Equivalents. As noted in Table 2A, the Lost Time Incident count may be understated as some portion of the 1,700 incidents identified in 2019 may have resulted in lost time; however, it is reasonable to assume that these claims had Lost Time at the same rate as others.

<sup>†</sup> Agency did not exist during the applicable fiscal year.

**Table 3A and 3B: Workers' Compensation Costs by Selected New York State Agencies: Fiscal Years 2017-18 through 2021-22**

**Table 3A** lists the selected Executive Branch New York State agencies and contains the workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivisions (6d) and (6e). The claims cost in Table 3A was provided by NYSIF. The FY 2021-22 claims cost includes incidents occurring between April 1, 2021, and March 31, 2022, and paid through June 30, 2022. The FY 2017-18, FY 2018-19, FY 2019-20, and FY 2020-21 claims cost is the same data reported in last year's report.

**The compensation costs included in Table 3A only represents certain statutory temporary disability workers' compensation costs incurred by Executive Branch employees and paid by the State Insurance Fund for one day up to 365 days post-incident (based on the date the injury occurred within the year).** For example, an accident that occurs on April 1 could have to up 365 days of compensation whereas an accident that occurs on March 31st could have only one day of compensation reported.

Under New York State Workers' Compensation Law, employees who are disabled due to a workers' compensation incident are entitled to a wage replacement for lost salary and medical benefits related to the incident. The wage component is equal to two-thirds of the employee's average weekly wage, not to exceed a maximum established under the Workers' Compensation Law. The statutory maximum for the past five years is as follows:

July 2017 – June 30, 2018	\$870.61
July 2018 – June 30, 2019	\$904.74
July 2019 – June 30, 2020	\$934.11
July 2020 – June 30, 2021	\$966.78
July 2021 – June 30, 2022	\$1,063.05

The data in Table 3A does not include supplemental wage replacement benefits as these amounts are paid by individual agencies and are not reflected in data maintained by NYSIF. Under the medical component, all medical treatments – including doctor treatments, hospital or clinic charges, imaging services and diagnostic testing, prescription medication, and other related medical services – are paid in full based on a fee schedule established by the Chair of the Workers' Compensation Board, pursuant to the Workers' Compensation Law.

All wage replacements and medical treatments are initially reviewed by NYSIF. If there is a dispute between NYSIF and the employee regarding such wage replacement or medical treatment, the Workers' Compensation Board will conduct a final review. Both the compensation costs and the medical costs are paid by NYSIF under the provisions of the workers' compensation Insuring Agreement between New York State and NYSIF.

Total first-year *compensation costs* increased in FY 2021-22 from \$34,336,525 to \$39,301,126, an increase of 14.5%. Total *medical costs* also increased in FY 2021-22 by 13.7%; from \$26,224,647 to \$29,829,445.

The most notable decrease in both first-year *compensation* and *medical costs* occurred at the Department of Health (*compensation costs* decreased by 51.1% or \$187,436 and *medical*

costs decreased by 15.1% or \$30,273). The Department of Parks, Recreation and Historic Preservation also saw declines in first-year costs (*compensation costs* decreased by 23.4% and *medical costs* decreased by 12.4%). The most notable percentage increase in both first-year *compensation* and *medical costs* occurred at the State Education Department, with *compensation costs* increasing by 172.1% or \$32,692 and *medical costs* increasing by 106.5% or \$28,172.

**Table 3B** reports total compensation and medical costs for all workers' compensation payments made during the reported fiscal year for all incidents occurring on or before the end of the fiscal year (i.e., all open claims). Table 3B includes all bi-weekly temporary and permanent disability indemnity payments, Schedule Loss of Use (SLU) awards and Section 32 settlements in the *Total Compensation Costs* column and also displays *Total Medical Costs*. This table shows that *Total Compensation Costs* for all open claims increased by 12.3%, from \$374,118,490 in FY 2020-21 to \$420,224,593 in FY 2021-22, and *Total Medical Costs* for all open claims increased 8.1%, from \$79,749,270 in FY 2020-21 to \$86,200,838 in FY 2021-22.

The most notable percent increase in total compensation costs from FY 2020-21 to FY 2021-22, occurred at the State Education Department, with an overall increase in compensation costs of 58.7%, or \$474,351; overall compensation costs also increased at the Office of Mental Health, with a 17.3%, or \$11,867,817 increase. The Department of Parks, Recreation and Historic Preservation saw the most noteworthy year-to-year percentage decrease in total compensation costs (14.4%, or \$442,346). The State Education Department saw a substantial percentage decrease in total medical costs with an overall decrease of 29.2%, or \$74,258.

<sup>7</sup> Workers' compensation wage replacements as reported by NYSIF. Amounts do not include supplemental pay paid through agency payroll. As noted in other Tables, the 2017-18 values may be understated as some portion of the 1,700 incidents identified (and corrected) in 2019 may have compensation costs that are not reflected above.

<sup>8</sup> Workers' compensation medical costs as reported by NYSIF. As noted in other Tables, the 2017-18 values may be understated as some portion of the 1,700 incidents identified (and corrected) in 2019 may have medical costs that are not reflected above.

<sup>+</sup> Agency did not exist during the applicable fiscal year.

<sup>9</sup> Workers' compensation wage replacements as reported by NYSIF - for all open claims with compensation paid in the reporting year. Amounts do not include supplemental pay paid through agency payroll.

<sup>10</sup> Workers' compensation medical costs as reported by NYSIF - for all open claims with medical expenses paid in the reporting year.

+ Agency did not exist during the applicable fiscal year.

Negative amounts in this table reflect scenarios where credits received through Workers' Compensation Law Section 15.8 or subrogation exceeded payment made, resulting in lower overall payments.

### Tables 4A, 4B, 4C: Most Frequent Types of Injuries, Incident Causes, and Body Parts Injured: Fiscal Years 2017-18 through 2021-22

In the next series of tables, details are provided on the most frequent types of injuries (Table 4A), incident causes (Table 4B), and body parts injured (Table 4C) as specified in *Chapter 171* of the Laws of 2007, subdivision (6f). The data in all three tables was derived from all incidents that resulted in a workers' compensation claim during FY 2017-18 through FY 2021-22.

Readers will see increased specificity to Body Parts in Table 4C as ARS reflects the changes made by WCB to upgrade eClaims to the International Association of Industrial Accident Boards and Commissions' (IAIABC) version R3.1 Electronic Data Interchange (EDI) standard. The system enhancements were implemented in January 2022. More specific body codes are now available (e.g., Ear, Left, Finger – Middle, Right) rather than "Ear(s)" or "Hand(s) and Finger(s)" and these new Body Parts are noted with an asterisk (\*) and are footnoted in Table 4C.

The source of the data for most of the agencies is the Accident Reporting System (ARS). Incidents were reported up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of work-related incidents differ from those reported on Table 1 as the source of the incident information in this table is ARS and the source of the incident information in Table 1 is NYSIF. There are incidents that are submitted to ARS, but are not elevated to "Claim Type" status if the incident is not reasonably expected to incur medical expenses or lost time of more than one day or one shift. Conversely, there may be claims for which a report was not made in ARS.

As noted in the Introduction, there were 184 ARS-reported COVID-19-related incidents, which are seen as: Injury Type "COVID-19 Coronavirus" in Table 4A; primarily Incident Cause "Pandemic" in Table 4B; and as Injuries to *Lungs, Lung(s) Pleura* in Table 4C.

For the agencies using ARS, the *Occupational Injury and Illness Classification Manual* issued by the U.S. Department of Labor Bureau of Labor Statistics was used to capture the details on the types of injuries, incident causes, and body parts injured. This manual is the standard classification system used to classify occupational injuries and illnesses. Coding occupational injuries/illnesses is dependent upon the description provided by the individual reporting the incident, the classification system being used, and the codes selected by the individual entering the information. Certain categories may be viewed as similar, but they are reported separately in order to retain the integrity of the original reporting entity. For example, in Table 4B (page 58) *Falls; Fall to Floor, Walkway or Other Surface; Fall Downstairs or Steps; and Fall on Same Level* are reported as separate categories.

Table 4A, the Most Frequent Types of Injuries, include injury types in which the inclusion criteria accounted for over 98% of all incidents. Like prior years, four injury type categories accounted for almost seventy-five percent of all incidents in FY 2021-22: *Soreness, Pain, Hurt, Excluding the Back* (43.5%); *Sprains, Strains, Tears* (15.2%); *Back Pain, Hurt Back* (8.1%); and *Bruises, Contusions* (7.7%).

The Most Frequent Incident Causes are detailed in Table 4B. The five most frequent incident causes for FY 2021-22 were *Bodily Reaction & Exertion* (13.0%); *Patient Restraint*

(8.4%); *Assault by Patient* (5.6%); *Fall to Floor, Walkway, or Other Surface* (5.4%); and *Falls* (5.3%). The greatest increases occurred in the following categories: *Assaults and Violent Acts by Person(s)* (increase of 1.3 percentage points) and *Fall, Unspecified* (increase of 0.7 percentage points). The greatest decreases occurred in the following categories: *Pandemic* (decrease of 3.7 percentage points) and *Assaults and Violent Acts by Person(s), Unspecified* (decrease of 0.9 percentage points) and *Assaults and Violent Acts* (decrease of 0.7 percentage points).

The Body Parts Most Frequently Injured are listed in Table 4C and account for approximately 99% of all incidents. In five consecutive years, three body part groups represented over forty percent of the body parts injured: *Knee* (14.5%), *Shoulder* (14.2%); and *Back* (14.1%). Due to the reduction in the number of COVID-19-related incidents, there has been a decrease in the *Lung* category (decrease of 4.4 percentage points).

NEC is "Not Elsewhere Classified."

<sup>11</sup> Incidents reported in the Accident Reporting System (ARS) up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of work-related incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Work-Related Incidents includes incident data from five agencies that participated in a pilot program from April 1, 2018, until January 17, 2019.

**Table 4B: Most Frequent Incident Causes  
Selected New York State Executive Branch Agencies

NEC is "Not Elsewhere Classified."

<sup>12</sup> Incidents reported in the Accident Reporting System (ARS) up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of work-related incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Work-Related Incidents includes incident data from five agencies that participated in a pilot program from April 1, 2018, until January 17, 2019.

NEC is "Not Elsewhere Classified"

<sup>13</sup> Incidents reported in the Accident Reporting System (ARS) up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year. The number of work-related incidents differ from those reported on Table 1 as the source of the information in this table is ARS and the source of Table 1 is NYSIF. There are incidents that are put into ARS and a corresponding claim is not created in the NYSIF system (e.g., due to no lost time or medical costs). Work-Related Incidents includes incident data from five agencies that participated in a pilot program from April 1, 2018, until January 17, 2019.

\* Body Part code created in 2021-22. Prior years did not have these specific Body Part code options.

### **Table 5: Selected Job Titles More Than 25% Above the Average Incident Rate for Titles with At Least 50 FTEs Fiscal Years 2017-18 through 2021-22**

**Table 5** contains the job titles with at least 50 FTEs with incident rates greater than 25% above the average for all employees in FY 2021-22 as per *Chapter 171*, subdivision (**6g**). The average incident rate for all employees was 10.0% as reported in Table 1. The selected titles listed in Table 5 had an incident rate greater than 12.5% and a minimum of 50 FTEs to be included in the Table.

Incident rates increased in several of the titles listed in Table 5. *Youth Division Aide 4* had the highest incident rate of 188.3% in FY 2021-22, up from 88.2% in FY 2020-21. Over the five-year reporting period FY 2017-18 to FY 2021-22, the Incident Rate for this title has increased by 86 percentage points. *Security Hospital Senior Treatment Assistant* had the second highest incident rate of 113.8% in FY 2021-22, slightly higher than the rate of 109.4% in FY 2020-21.

The greatest incident rate decreases from FY 2020-21 to FY 2021-22 occurred in the following job titles: *Mental Health Therapy Aide Trainee*, down 34.7 percentage points); *Nurse Administrator 1 Psychiatric* (down 12.1 percentage points); and *Correction Officer Spanish Language* (down 10.6 percentage points).

<sup>14</sup> Average number of FTEs as provided by the New York State Electronic Personnel System, Department of Civil Service.

<sup>15</sup> Reported to NYSIF up to June 30th of the reporting year with incident dates occurring during the fiscal year. A 15-month reporting period was used to capture more complete incident activity that occurred during the fiscal year.

<sup>16</sup> Incident Rate calculated by dividing the number of Incidents by the number of Full Time Equivalents.

+ Title did not exist during the applicable fiscal year.

**Table 6: Selected Agencies  
More Than 25% Above the Average Incident Rate for All Employees  
Fiscal Years 2017-18 through 2021-22**

Subdivision (6h) of *Chapter 171* specifies that the Workers' Compensation Annual Report provide a list of State agencies with work-related injuries and illness rates that are more than 25% above the average incident rate for all State agencies. The average incident rate for all employees was 10.0% as reported in Table 1. The agencies listed in **Table 6** had an incident rate greater than 12.5% in FY 2021-22. The reader is referred to Table 1 for a listing of all State agencies and their respective incident rates.

### **Table 7: Incident Rates in Selected Negotiating Units Fiscal Years 2016-17 through 2020-21**

**Table 7** contains selected Executive Branch New York State negotiating units' workers' compensation details specified in *Chapter 171* of the Laws of 2007, subdivision (6i). The work-related incident information in Table 7 was provided by NYSIF from the claims for the respective fiscal years.

All negotiating units, except for "All Other Units and Unrepresented," saw increases in incident rates. The most significant percentage increases were in:

- The Agency Police Services Unit, which saw an increase of 6.2 percentage points: and
- The Security Supervisors Unit (Non-Arbitration), which saw an increase of 4.3 percentage points (4 incidents in 2021-22 versus 2 incidents in 2020-21).

## Recommendations

The following recommendations regarding the prevention of injury and illnesses and the reduction of costs due to these cases were prepared in consultation with the Workers' Compensation Board (WCB) and the New York State Insurance Fund (NYSIF).

Accidents at work and occupational injuries represent a considerable economic burden for New York State employees and the State of New York. NYSIF recommends a three-pronged approach for each New York State entity's Workers' Compensation Program. This includes Safety Management, Return to Work, and Fraud Prevention programs. Management commitment is essential for the implementation and on-going success of an agency's Workers' Compensation Program. Persons with the authority and responsibility for the Safety Management Program must be identified and given management's full support.

- **Safety Management Program** – A Safety Management Program includes a comprehensive Injury and Illness Prevention Program along with defined Agency Safety Coordination to ensure accountability and implementation of the program. An effective injury and illness Prevention Program includes the following four elements: management commitment and employee involvement; worksite analysis; hazard prevention and control; and Injury and Illness prevention training. NYSIF is available to agencies to provide advice and consultation on the implementation of a Safety Management Program including access to loss control resources, materials, education, etc. Visit the [Employer tab](#) at [nysif.com](http://nysif.com) and choose [Injury and Illness Prevention](#) for more information about workplace safety programs, and access to NYSIF's free Safety Resources.
- **Return to Work Program** – An active Return to Work Program is a key component in reducing cost by providing opportunities for injured workers to be productive while they recover from their injuries. New York State has several Return to Work programs, such as the Mandatory Alternate Duty Program, which are bargaining-unit specific and governed by the collective bargaining agreements. NYSIF and the Office of Employee Relations are resources to agencies in order to understand the terms and conditions of each program for the different negotiating units and how they relate to New York State's statutory obligation as an employer under the Workers' Compensation Law. NYSIF is available to agencies to provide advice and consultation including access to resources, materials, education, etc. Agency Safety Coordination is essential to ensuring accountability and implementation of each agency's Return to Work Program. Agencies should continue to communicate with the injured worker to assist and encourage their return to work. Our mutual goal is a favorable medical outcome and a successful return to work.
- **Fraud Prevention Program** – Workers' Compensation Insurance fraud imposes a significant financial burden. An effective Fraud Prevention Program involves education and training, fraud and abuse detection, documentation, and reporting. NYSIF is committed to training staff and investigating agency referrals of fraud and abuse.

The following are also recommended in an effort to prevent employees' Injuries and Illnesses:

- **System Improvements** – The WCB continues to work on several system

improvements as part of the ongoing Business Process Redesign project to improve stakeholder experience with the Board resulting in more timely, convenient, and efficient resolutions. As noted in prior reports, the Board fully implemented Virtual Hearings in early 2019. This award-winning initiative allows all parties in a workers' compensation hearing to participate remotely using their computer or mobile device. This has allowed the Board to continue to hold hearings throughout the COVID-19 pandemic, without interruption. Through this technology, the Board has achieved the highest level of claimant participation in hearings of 85%. In late 2019, the Board commenced a multi-year project to modernize the Business Information System used by all stakeholders. The first phases of this project were implemented in early 2022 and include the IAABC R3.1 claim reporting enhancement as well as automating the process for reviewing prior authorization requests. When fully implemented, the new system (OnBoard) will vastly improve the Board's efficiency and data capture capabilities. The data from these new system improvements should be closely reviewed to identify trends and the need for further system enhancements. Further, as the Department of Civil Services plans enhancements to the Human Resource Management System, an all-encompassing application that includes the Accident Reporting System, consideration should be given to dedicating staff and IT resources to automating the submission of the C-256.2 within ARS, pursuant to Budget Bulletin G-0250.

- **Increase Awareness, Resources and Training** – It is well-established that the sooner an accident is reported and the sooner the injured worker obtains needed medical and temporary disability benefits, the better the outcome for all involved. New York State should ensure that workers' compensation awareness is a top priority in every agency so that accidents are timely reported and injured workers receive timely care so that they may return to work as soon as possible. Staff at each agency should regularly receive training on workers' compensation policies so employees, managers, human resource officers, and payroll officers have a clear understanding of the resources available (including WCB's eCase), as well as the process and the requirements to receive the statutory and negotiated benefits, including supplemental pay, limited return to work, and dispute resolution programs. Each agency should set attainable goals on injury prevention and clearly define who and when to interact with injured employees and NYSIF. Further, agencies should define who is responsible for (and the importance of) timely reporting of the First Report of Injury (FROI), changes in work status (Form C-11), wages paid while on workers' compensation leave (Form C-256.2), and PAYSERV transactions, in compliance with the Office of State Comptroller Payroll Bulletin 1366.
- **Data Sharing** – The eClaims initiative implemented in mid-2014 as well as recent improvements to the Board's data warehouse allow the possibility of flexible reporting of accident causes and locations, types of injuries, and temporary and permanent disability awards, by agency/facility. The Department of Civil Service, WCB, and NYSIF should explore how to most effectively share this data, as well as NYSIF claims data, with agencies to enable them to analyze the data, formulate corrective action plans, and enhance return to work programs.

## Appendix A – Chapter 171, Laws of New York, 2007

LAWS OF NEW YORK, 2007

APPENDIX A

### CHAPTER 171

AN ACT to amend the civil service law, in relation to requiring annual reports about employee accident rates and costs in state agencies

Became a law July 3, 2007, with the approval of the Governor.  
Passed by a majority vote, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 7 of the civil service law is amended by adding a new subdivision 6 to read as follows:

6. The president of the commission shall prepare an annual report describing occupational injuries, illnesses, and workers' compensation experience for all state agencies as defined by subdivision three of section two-a of the state finance law. Such report shall be published no later than September thirtieth of each year, beginning in two thousand eight, and shall report information on the basis of the last completed state fiscal year. In subsequent years, the report shall include comparative data for up to five prior fiscal years if such data is available. The report shall be delivered to the governor, the legislature and to any labor organization that represents state agency employees and shall be available to the public. The contents of the report shall include the following information for each state agency, broken down by institutions and facilities as was done in the report previously published by the department entitled "Occupational Accidents and Workers' Compensation Experience for NYS Government Employees" published from nineteen hundred eighty-seven to nineteen hundred ninety-two:

(a) the total number of employees, the number of work-related accidents and the rate of work-related injuries and illnesses;

(b) the number of lost work time injuries and illnesses and the rate of lost work time cases;

(c) the number of days of lost work time and the number and rate of lost full time employees;

(d) the cost to the state of lost work time due to work-related cases;

(e) the cost to the state of medical expenses due to work-related injuries and illnesses;

(f) a description of the types of injuries, the number of injuries and illnesses of each type and the most common causes of those cases, and the body part injured;

(g) a list of the job titles with work-related injury and illness rates that are more than twenty-five percent above the average for all state agencies;

(h) a list of the state agencies with work-related injury and illness rates that are more than twenty-five percent above the average for all state agencies;

(i) work-related injury and illness rates for all state agencies by collective bargaining units; and

(j) a summary of findings and recommendations prepared in consultation

## Workers' Compensation Claims Annual Report – Fiscal Year 2021-22

with the workers' compensation board and the state insurance fund for state agencies regarding the prevention of injury and illnesses and the reduction of costs due to these causes.

§ 2. This act shall take effect immediately.

The Legislature of the STATE OF NEW YORK ss:

Pursuant to the authority vested in us by section 70-b of the Public Officers Law, we hereby jointly certify that this slip copy of this session law was printed under our direction and, in accordance with such section, is entitled to be read into evidence.

EXPLANATION—Matter in italics is new; matter in brackets [-] is old law to be omitted.

JOSEPH L. BRUNO  
Temporary President of the Senate

SHELDON SILVER  
Speaker of the Assembly
