Classification Standard

Occ. Code 2836100

Call Center Quality Assurance Specialist 1, Grade 18	2836100
Call Center Quality Assurance Specialist 2, Grade 23	2836200
Call Center Quality Assurance Specialist 3, Grade 25	2836300

Brief Description of Class Series

Call Center Quality Assurance Specialists apply quality assurance principles to the review, evaluation, and monitoring of services delivered, and the quality of customer service provided in a call center.

Distinguishing Characteristics

Call Center Quality Assurance Specialist 1: full performance level; under the direction of a Call Center Quality Assurance Specialist 2, analyzes workload trends and metrics, identifies necessary skill improvements, coaches Call Center Representatives to ensure consistent and superior customer service skills, guides performance improvement, and prepares customer reports to determine service level performance standards.

Call Center Quality Assurance Specialist 2: supervisory level; under the direction of a Call Center Quality Assurance Specialist 3, supervises two or more Call Center Quality Assurance Specialists 1, defines and clarifies the quality assurance business rules, develops and updates informational processing procedures, and coordinates the efforts of change management teams.

Call Center Quality Assurance Specialist 3: managerial level; under the general direction of higher-level call center staff, manages a quality assurance unit including direct supervision of two or more Call Center Quality Assurance Specialists 2.

Related Classes

Call Center Representatives work at the various call centers of New York State. Incumbents perform such tasks as providing information, over the telephone, to callers regarding state services and programs. Specifically, they respond to verbal, written and electronic inquiries from customers, provide information about agencies' programs and services, conduct interviews to secure complete information and identify

the appropriate course of action, and contact New York State agencies and the private sector to gather information to resolve complaints and process requests.

Illustrative Duties

Call Center Quality Assurance Specialist 1

Creates and maintains knowledge base content.

Supports higher-level analysis to guide system changes and implementation.

Monitors Call Center Representatives as they answer calls to ensure that performance work standards are met or exceeded and that customer service satisfaction criteria are met; provides feedback to Call Center Representatives and engages in direct coaching based on necessary skill improvements.

Monitors, manages, and adjusts work skill assignments within the call center.

Reviews and analyzes workload statistics and metrics to identify trends and patterns.

Participates in the creation and implementation of job aids, training plans, evaluation tools, and guidance documents to improve and standardize performance.

Call Center Quality Assurance Specialist 2

Supervises two or more Call Center Quality Assurance Specialists 1.

Trains Call Center Quality Assurance Specialists 1 and other lower-level staff on topics aimed at improving quality assurance reviews and overall unit performance.

Establishes the business rules for a quality assurance unit.

Provides ongoing production support and guidance through the process of resolving operational system issues.

Reviews and approves the creation or updating of job aids, training plans, evaluation tools and guidance documents to improve and standardize performance.

Monitors the implementation of new requirements and procedures and evaluates their effects on quality assurance operations.

May oversee and coordinate the work of the change management process.

May also perform all of the duties and responsibilities of a Call Center Quality Assurance Specialist 1.

Call Center Quality Assurance Specialist 3

Administratively supervises Call Center Quality Assurance Specialists 2 and other staff within a quality assurance unit.

Monitors, analyzes, and oversees all quality assurance activities; identifies trends to inform processes and call center protocol.

Develops, coordinates, and implements quality assurance initiatives using recognized performance management tools.

Assesses the effectiveness and quality of the call center's operations.

Identifies methods to increase consistency in work performance, so that the call center meets or exceeds standards.

Directs the monitoring, management, and adjustment of work skill assignments in accordance with staff availability and call volume.

Directs the creation or updating of job aids, training plans, evaluation tools and guidance documents to improve and standardize performance.

Participates in customer review implementation meetings to identify call trends, service level risks, transfer call rate issues, important metrics, and areas in which improvement is needed.

Prepares higher level reports as it pertains to call center operations/information.

May also perform all of the duties and responsibilities of lower-level Call Center Quality Assurance Specialists.
