Brief Description of Class Series

Motor Vehicle Program Managers are responsible for operational and policymaking activities within a program area or oversee regional operations of a major program area. They plan, direct, and coordinate operations of their assigned areas. Positions are established within divisions primarily responsible for providing programs and services, and not divisions responsible for administrative functions at the Department of Motor Vehicles.

Distinguishing Characteristics

Levels in this series are distinguished by an evaluation of the following factors: the degree of decision-making responsibility and level of accountability for actions taken; the size, complexity, and variety of the agency's programs; the range of functions for which the incumbent is responsible (evidenced by the size and composition of subordinate staff); and the scope and responsibility for providing comprehensive financial advice and assistance to management.

Motor Vehicle Program Manager 1: manages the operations of an assigned program area; supervises lower-level professionals in the execution of a variety of motor vehicle program functions.

Motor Vehicle Program Manager 2: manages the operations of a program area that is larger and/or with a wider scope of responsibility, or a field District Office administering the needs of the motoring public; supervises one or more Motor Vehicle Program Managers 1 and professional staff.

Motor Vehicle Program Manager 3: provides overall direction in a regional field office or program area supervising multiple subordinate Motor Vehicle Program Managers; resolves problems encountered by subordinate supervisors,

developing and implementing goals and objectives and promoting efficient operations within the office.

Motor Vehicle Program Manager 4: directs and coordinates the activities of a large division within an office; oversees multiple subordinate managers in the development of programs, objectives, policies, and operating standards based upon analysis of operations, reports, and recommendations.

Motor Vehicle Program Manager 5: manages a large office or multiple field operations within a major program area over multiple levels of Motor Vehicle Program Managers; responsible for long term strategic planning, assesses the effectiveness of existing programs, and delegate projects to subordinate managers.

Motor Vehicle Program Manager 6: directs a substantial agency program area such as Operations or Driver Licensing and Safety; directs the development of departmental policy programs and works directly with the Deputy Commissioner and Commissioner to finalize and implement programs in support of the agency's mission.
